Dr. Leo Szilard
University of Chicago
Institute of Radiobiology and Biophysics
1155 East 57th Street
Chicago 37, Illinois

Dear Dr. Szilard:

I note from your letter to Dr. Eckart that you have postponed your trip. We have been looking forward to your visit and hope that when you are able to make further arrangements you do not leave Scripps Institution of Oceanography from your itinerary.

Very truly yours,

Roger Revelle
Acting Director

Dear Dr. Revelle:

Many thanks for your very kind lines of March 22.
I still do not know when I will be able to visit the Coast,
but when I do, I shall certainly get in touch with you.

Very sincerely yours,

Leo Szilard

Dear Professor:

Professor Adriano Buzzati tells me that we are to be honored by your presence during our symposium in March on "Perspectives on Marine Biology". I shall look forward to seeing you at that time, but an urgent matter has come up about which it seems to me it would be desirable that we might talk to each other at an earlier date.

I shall be taking a trip to Washington about January 9. Would it be possible for me to see you on Saturday the 7th, or Sunday the 8th in Chicago?

With the Greetings of the Season, I remain

Sincerely yours,

Roger Revelle

January 18, 1956

Dear Dr. Revelle:

It was very refreshing and a great pleasure to talk to you in Chicago.

You will find enclosed a set of reprints and two copies of my curriculum vitae. Should you find that this document is too informal or that it is too long and that certain passages had better be omitted, please let me know, or else if you prefer, have your office perhaps prepare an abstract from it, and you may circulate the abstract instead of the original.

Since you raised the question of my relationship to the social science division, I am enclosing for your information the document that at present controls this relationship. You may be particularly interested in the second paragraph of the letter, which is marked with red pencil. Since that letter was written, there has been, however, a change in the deanship, and I may have to renegotiate my arrangement with the University.

I had lunch today with Harrison Brown and heard from him that you are safely back on the West Coast.

With kind regards,

Sincerely yours,

Leo Szilard

Dr. Roger Rebelle
Scripps Institute of Oceanography
University of California
La Jolla, California

Dear Roger:

Rightly or wrongly, I assume that you are back in La Jolla. If your secretary can find in your files the memorandum which I sent you and Jonas Salk in 1958 or '59 about the possibility of setting up a biological institute in La Jolla, I shall be very grateful for her sending me a copy of it.

With kind regards,

Sincerely,

Leo Szilard
