

Cuy #44

September 21, 1920.

Mr. Paul G. Redington,
District Forester,
Ferry Building,
San Francisco, California.

Dear Sir:

We have filed with the State Railroad Commission an application for the use of the water of Boulder Creek, San Diego County for power purposes.

The point of diversion is located in the Southwest quarter of the Southwest quarter of Section 10, Township 14 South, Range 3 East, S.B.M. As this point is within the Forest Reserve I would appreciate it if you would send me the necessary blanks and requirements for obtaining the permission of the Forestry service for this development.

Thanking you for your courtesy in this matter, I am,

Yours very truly,

T. H. King
Chief Engineer.

Mr. Paul Reddington,
District Forester,
Ferry Building,
San Francisco, California.

Dear Sir:

Your letter of December the first to Colonel Ed Fletcher pertaining to application No. 2013 to the State Water Commission for the use of the waters of Boulder Creek for power purposes was referred to me for reply. Colonel Fletcher, as well as myself, is anxious to comply with all necessary requirements and I am therefore writing to you for your advice as to the proper procedure.

It appears at this time as if we would wish to move our point of diversion down stream approximately one-half mile but this point has not yet been finally determined. Is it advisable to file the same map with the Forestry Service as was filed with the State Water Commission and apply for a temporary permit or is it better to wait until the true point of diversion and the true line has been determined upon and make the application on the final form?

Thanking you for your courtesy in this matter,
I am,

Yours very truly,

T. H. King.
Chief Engineer.

December 28, 1920

Mr. T. H. King, Chief Engineer,
Ed Fletcher Company,
Fletcher Bldg.,
San Diego, Calif.

Dear Sir:

I am in receipt of your letter of December 22, 1920.

I believe that it would be to the best interests of your company to file application for preliminary permit, in accordance with Regulations 2 and 3, adopted by Federal Power Commission September 3, 1920, rather than to delay filing until you have secured the material necessary for an application for license.

Very truly yours,

PAUL G. REDINGTON, District Forester,

By

Acting.

February 23, 1921.

Mr. Paul G. Reddington,
District Forester,
Ferry Building,
San Francisco, California.

Dear Sir:

Under separate cover I am sending you application for preliminary permit to cross the National Forest lands in connection with the application No. 2013 to the State Water Commission for use of the waters of Boulder Creek.

The package contains the application in triplicate together with one tracing and two blue line prints of same showing approximate location of diversion works, canal, etc.

Yours very truly,

T. H. King,
Chief Engineer.

Re - Cleveland
Fletcher, Ed
Conduit

Dear Sir:

Under separate cover, I am sending you revised and corrected application for preliminary permit for the Boulder Creek power project as per the instructions of Mr. P. H. Fowler, district engineer.

The package contains the application in triplicate, one tracing on linen with three white prints of same, as Exhibit A, showing general plans of project. Also folder in triplicate containing Exhibits B, C, & D.

Thanking you for your suggestions and advice and trusting the application will be in the proper form, I am,

Yours very truly,

T. H. King.

Ed Fletcher Company,
Ed Fletcher Building,
San Diego, Calif.

Dear Sir:

Your letter of April 20, together with revised application, map, and Exhibits B, C and D, listed therein, were duly received on April 22.

Application and exhibits have been examined, and are found to be in accord with the rules and regulations of the Federal Power Commission; they are being forwarded today through the Forester to the Federal Power Commission for action. Should any further data in connection with this application be desired, you will be informed later.

Very truly yours,

PAUL G. REDINGTON, District Forester
