6 Aug. 62

Dear Szilard -

I wanted you to know that I made a quick trip to London and Paris during the week of 22 July for a meeting with the European fellows. Cich, Bronowski, and I travelled to Paris together and there spent a good part of the day on 25 July discussing the progress of the Institute to date and a variety of associated questions and problems.

The Paris meeting went exceedingly well. Bronowski, who chaired the meeting, has prepared a minute which I will transmit to you when I receive copies from him.

Sall will be taking a vacation at his lake place during the early weeks of August before going up to the Montreal Conference - 15 August.

We are planning to arrange a meeting of the fellows in this country at a mutually agreeable time as early in the fall as possible.

I'll keep you informed.

Regards
Bill Szilard

Mr. William Glazier
17 Coronet Avenue
Mill Valley, California

Dear Mr. Glazier:

Many thanks for your letter of August 6. I may or may not go to England in the last week of August and stay until the middle of September. But however that may be, I should be grateful if you were to give me as much advance notice of the forthcoming fellows meeting as possible.

I wonder whether we could formalize my association with the Salk Institute by means of an exchange of letters sometime in the predictable future. I assume it will take a Board of Directors meeting to ratify the option to a resident fellowship which has been recommended by the Committee of Fellows.

I was expecting to hear from you about your Washington friends, but I suppose they are away on their vacation and you were not able to reach them.

Sincerely,

Leo Szilard

Aug 27, 1962

Dear Dr. Szilard -

Your letter of Aug 17 arrived at my home in Mill Valley while I was away. It was held there and has only just reached me here in Houston. I am sorry for this delay in not writing you sooner.

We have still not set a date for the September meeting of the fellows in this country. It certainly will not be until after mid-month, so if you do go to England for a few weeks I'm sure you'll be back here in time. At any rate, I'll keep you informed.

I have passed on to Sally your request for an exchange of letters formalizing your relationship with the Institute. I shall be in Pittsburgh late this week and I'll follow up on this.

My Westport friends are at their summer place at Cape Cod. But I did phone them from New York early in June, and subsequently wrote them a note about seeing you as well. Should you like to reach them independently - I'm certain that

Houston's Welcome

September 22, 1962

MEMORANDUM TO: William Glazier

FROM: Leo Szilard

Attached are two receipts relating to trips from Washington to New York that I apparently undertook to attend one or the other of your meetings. One of these trips was in February and the other in May. On the February ticket I have only the New York to Washington portion; and on the May ticket I have only the Washington-New York portion. However, it stands to reason that in either case I returned to Washington. Accordingly, the charge would be \$60.00 for the plane fare for the two trips, and \$12.00 for taxis to and from the airports, i.e., a total of \$72.00.

Perhaps you can send me a check made out in this amount at your convenience.

Leo Szilard

Dear Leo:

Jonas left for the East before replying to your recent note about Jim Patton. He thinks the idea of having Patton on the Institute Board of Trustees is splendid. He plans to discuss this with Piel and Weaver.

Sincerely,

Bill

Dear Leo:

Jonas asked that I write you a brief note in regard to the decisions taken at the meeting of the Resident Fellows which was held here on 30-31 March. You will receive a copy of the minutes within ten days or two weeks.

The group decided to take up residence here as soon as possible in temporary laboratory space which is being constructed on the Institute site. Present plans would have Benzer, Cohn, Dulbecco, Lennox and Salk operating in temporary laboratories here by September or October. As things look now, the Institute's permanent laboratory buildings will probably not be completed and equipped before mid-'64. Meanwhile, we are already at work preparing for the activation of the Institute within a few short months.

On the basis of these developments, Jonas is preparing a letter in reply to yours of 29 March outlining a series of ideas for you to explore. His own plans are to be in the East during the week of 5-11 May. If it is convenient for you, a meeting sometime around the middle of the week would be fine.

Sincerely yours,

William Glazier
Assistant to the Director

Dear Bill:

Thanks for your note of April 9th. I talked with Dulbecco at the meeting of the National Academy in Washington, and with Monod at the Federation meeting in Atlantic City, and thus I am fairly well-informed about the state of affairs.

I have not received thus far Jonas's letter in reply to mine of March 29th, which you said was in preparation and I am looking forward to receiving it.

I might spend the weekend of May 4th and 5th in Boston, might be in New York on the 6th and back in Washington on the 7th. Your letter does not say whether Jonas would want to see me in Washington or whether he is not going to Washington on this trip and would want to see me in New York.

A letter from you would reach me in Washington until Thursday, May 2nd. I might fly to Boston in the afternoon of Thursday May 2nd, if I do not cancel the trip to Boston.

Sincerely yours,

Leo Szilard

Dear Bill:

When you called me from New York, you read to me over the telephone the draft of a letter which you had prepared for Jonas' signature. So far, I have received no letter and I am wondering what is holding it up.

Sincerely yours,

Leo Szilard
