Professor Leo Szilard
The Enrico Fermi Institute
for Nuclear Studies
The University of Chicago
Chicago 37, Illinois

Dear Leo:

I hope by now that you have recovered from surgery. Mrs. Mann wrote explaining your absence, but by that time, I, too, was away. We spent the past month in Puerto Vallarta, Mexico.

Everett Dempster, meanwhile, read our correspondence and wrote the attached letter. I have his permission to send it on to you.

I will be glad to hear from you.

Best regards,

Hardin B. Jones

February 3, 1960

Professor Leo Szilard
c/o Doctor Nickerson
Memorial Hospital
New York City
New York

Dear Leo:

Ted arrived from Denver yesterday and spent the evening with us. He told me of your health problem. I am distressed for I had thought that somehow now you would be able to join this venture we are planning at Berkeley.

I shall be in New York about the 15th to 17th of February. I should be free of other commitments by the end of the 16th, perhaps I can visit you if it is convenient on the 17th.

Fondly,

Hardin B. Jones

April 18, 1962

Professor Leo Szilard
Hotel Du Pont Circle
Washington, D. C.

Dear Leo:

All arrangements for the Symposium on "The Flow of Life" have now been made except for a former Hungarian who wished to talk about "getting human evolution going again".

We expect that J. B. S. Haldane will be on the program, too. I am very hopeful that you will come and you know your invitation was issued to include Mrs. Szilard's expenses.

Best regards,

Hardin B. Jones
