July 18, 1941.

Dr. Leo Szilard,
Department of Physics,
Columbia University,
New York, N. Y.

Dear Dr. Szilard:

This is to acknowledge your letter of July 14, in which you request us to bid on the reduction of uranium oxide to uranium dioxide in ton lots.

We have never engaged in the custom treatment of materials for other organizations and regret to say that we are not set up to do this job for you at the present time.

We are in a position to supply commercial quantities of uranium oxide (U_3O_8), but have not as yet supplied commercial quantities of uranium dioxide (UO_2).

We are very sorry not to be able to collaborate with you on this job and hope you will be able to get the work done elsewhere.

Very truly yours,

Superintendent

Mr. B. R. Choman
Tonawanda Laboratory
Linde Air Products Company
East Park Drive and Woodward Avenue
Tonawanda, New York

Dear Mr. Choman:

Thank you for your letter of April 30,
addressed to Research Reports, requesting additional
technical material on Dr. Szilard's chemostat. En-
closed you will find reprints of three articles which
appeared recently and which, I believe, will give you
the information you are seeking.

Sincerely yours,

(Mrs.) Shirley D. Sykes
Secretary to Dr. Szilard
