

SLOAN-KETTERING INSTITUTE *for* CANCER RESEARCH

NEW YORK 21, NEW YORK

TRAFALGAR 9-3000

Office of the President and Director

20 June 1962

Dear Dr. Szilard:

The Sloan-Kettering Institute is arranging a program of seminars for the academic year 1962-63. A major objective of the seminars is to provide the entire staff of the Institute with opportunities to hear presentations by distinguished scientists who have made outstanding contributions to knowledge.

I know that our staff would consider it a great privilege if it were feasible for you to address them on any subject you might wish to discuss. If there is any likelihood that you are planning to be in the vicinity of New York during the coming year and would find it congenial to give a seminar at the Institute, I do hope you will let me know.

We shall be happy to make arrangements as convenient as possible relative to your own plans and of course will provide an appropriate honorarium.

Yours sincerely,

Frank L. Horsfall, Jr., M.D.
President and Director

Dear Dr. Szilard:

I understand that you have expressed interest in visiting Dr. Mathilde Krim's laboratory sometime in September when you are in New York. We would consider it a great privilege if you would consent at that time to speak at an Institute Seminar on any subject you may wish to discuss. The Seminars are intended to provide the entire staff of the Institute with opportunities to hear presentations by distinguished scientists who have made outstanding contributions to knowledge.

If it is feasible for you to accept this invitation, we would be pleased if the late afternoon of Wednesday, 18 September, were convenient for you. If it is not, we would be glad to arrange another date that might better suit your schedule. We shall, of course, be happy to provide an appropriate honorarium.

With kind personal regards,

Yours sincerely,

Frank L. Horsfall, Jr., M.D.
President and Director

Geneva, 8th August, 1963

Dear Dr. Horsfall,

Many thanks for your kind letter of August 2nd.

I would very much like to visit Dr. Mathilde Krim's laboratory and speak at an Institute Seminar. However, I cannot do it in September. Later on, on my return to America, I shall take the liberty of calling you over the telephone, to see if we can arrange some other date which is convenient to you.

With kind regards,

Yours sincerely,

Leo Szilard
