Dear Mr. Szilard:

Mr. Howard Hirsch will be pleased to lunch with you on  
Wednesday, September 13th at 12:30 o'clock.

Please come to Mr. Hirsch's office at the above address  
11th floor.

See you on the 13th.

Sincerely yours,

  
N. J. Steele  
Secretary

HIRSCH & CO.

November 6, 1950

Dear Dr. Szilard:

I want to thank you for having called my secretary, some weeks ago, to tell her of your presence in New York. I am sorry that I was not able to get in touch with you at that time as I was "head-over-heels" due to the death of a partner, illness in the family, etc.

I want to tell you how much Mr. Goetz and I enjoyed your visit and were interested in the subjects which you brought up and hope that you will let me know when you are in New York again and may have the time and the inclination to pursue them further.

Sincerely yours,

HCH:jns

Mr. Howard Hirsch  
Hirsch & Co.  
25 Broad Street  
New York 4, New York

Dear Mr. Hirsch:

Many thanks for your very kind letter of November 6.  
I shall certainly contact your office when I am in New  
York next time.

Enclosed are the manuscripts of two papers which  
are now in press and which might perhaps interest you.

Sincerely yours,

Leo Szilard

Mr. Howard Hirsch  
Hirsch and Company  
25 Broad Street  
New York 4, New York

Dear Mr. Hirsch:

We have now heard from the Rockefeller Foundation and they have given us a grant of \$6,300 in response to my request regarding the addition of Mr. Fox to our staff.

This means that it will not be necessary for us to take you up on the proposal contained in your letter of January 19th. I appreciate very much the help which you have given us by virtue of your letter. Even though under the rules of our Comptroller under which the University operates we were not able to make an offer to Mr. Fox on the strength of your letter, it greatly helped us to tide us over a period of uncertainty pending a reply from the Rockefeller Foundation.

I am enclosing for your information a copy of a letter written by Dr. Vannevar Bush to Dr. Meier of Rex Tugwell's department in the Social Science Division. Even though the original was not marked "Confidential" I have so marked the copy which I am sending you, and I would appreciate it if you would not mention it to others. I thought that this letter might perhaps interest you and we might talk about this subject sometime when your time permits.

We are starting one experiment with the chemostat on the growth of algae, but we do not intend to go into this field at the present time except on a very minor scale. With kind regards,

Sincerely yours,

LS/sds  
Enclosure

Leo Szilard
