7 West 96th Street
New York, New York

Dear Leo:

Attached are copies of some correspondence which relates to your problem. Enclosed also is a memorandum on a method for studying X-ray induced mutations, which might perhaps interest you. I am discussing with the A.E.C. in Washington the possibility of setting up such a project in one of the A. E. C. laboratories. I expect to stay on in Washington for a while, at the Hotel Dupont Plaza. If you should come here for a visit, please let me know.

With kind regards,

Sincerely,

Leo Szilard

Professor Leo Szilard
Hotel DuPont Plaza
Dupont Circle and New Hampshire Ave., N.W.
Washington 6, D. C.

Dear Leo:

I have been so terribly busy lately that I just haven't had any time at all to write you. I received the material you sent me on the sex ratio problem some time ago. Thank you very much indeed. When I have some free time during the summer, I plan to do some more work on this subject. I will write you later on about this.

Ann and I very much appreciated receiving a copy of your new book. We both read it with great interest and pleasure. We enjoyed its whimsy and wisdom.

I have been reading in the newspapers about the recent honors you have received. Many congratulations.

We plan to be in New York until the end of September. Then we shall return to Chicago. I hope you and your wife will come by to see us whenever you return to New York - before our departure.

With best regards,

Cordially yours,

Leo A. Goodman

Dr. Leo Goodman
7 West 96th Street
New York, New York

Dear Leo:

Enclosed is some material for your information. After you have made your decision of where to go and after some further material comes in, we might get together and try to decide just where to go from here.

I shall let you know if any further clues should develop.

With kindest regards,

Sincerely,

Leo Szilard
