

How to kill your husband and get away with it.

*above 40 and*

Is your husband overweight? Would you like to live as a merry widow or marry your childhood sweetheart? *If so hurry to* Page 3 you will find 25 delicious recipes for nutritious dishes. Follow the instructions closely and he won't be able to resist the *temptation*. As his weight will increase so will the likelihood of his early demise. You may rely on this for sure, for we mean well to you and we know, because life insurance is our business. *about our pay*

What is this Madame? You don't want to kill him? You would rather have him live out his natural life in good health and such happiness as can be attained in this *troubled* world? If that is the view you take, we can help you also. Just give your husband this message from us:

*in writing booklet*  
If he is interested *how about* he can mail us the enclosed postcard and we shall send *him* a booklet, *that* tell him what to do, and *along with* the booklet we shall send him an instrument that looks like an automatic pencil *that it* will help him keep track of his daily *x* calories intake. *there is no* We won't charge for this for, after all, your husband carries a life insurance with our company and if it is the same to you we *can* just as well *let* him live *happy and long life.* *longer.*
