February 11, 1955

My dear Professor Szillard :

You are longing ^{for} "the principles, on which an adequate settlement could be based". May be, you will find them in the trilogy, I am sending enclosed.

Your Colleagues, Professor H U T C H I N S (via Sims Carter), Professor John U. Nef and the late A R T H U R S C H N A B E L praised my ideas ; the State Department and Justice O W E N R O B E R T S called them the right step to a just Worldunity; W A L D E M A R K A E M P F F E R T called the Trilogy a message to mankind, worthy of being considered.

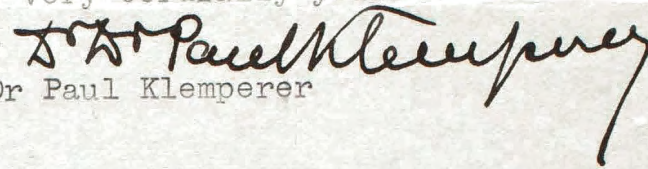

About 50 great minds on earth agreed with the ideas. The first part of the trilogy has often been performed in Vienna and in New York; press and public applauded it very much.

Please, read the trilogy and let me know your opinion concerning the possibility of starting the propaganda.

Is it thinkable, that a terrible 3. worldwar should ~~be~~ be fought, while the point of question is but: whether the idea of i n d i v i - d u a l i s m (free enterprise) or the idea of c o l l e c t i v i s m (mutual profit) is to be preferred?

III myself propose a m i d d l e w a y - a way of c o e x i - s t e n c e by mens own choice'.

Very cordially yours

Dr. Dr Paul Klemperer

New York 25, New York

Dear Dr. Klemperer:

Many thanks for sending me your trilogy. Unfortunately, because of the pressure of work, it doesn't seem likely that I will get around to reading it in the near future, and so I am sending it back to you. Should I have the time to read it later on, I will write you in order to borrow it from you.

With many thanks and best wishes,

Very truly yours,

Leo Szilard

Enclosure under separate cover.

My dear Professor S Z I L L A R D :

My trilogy came not back as yet; may be, that is happy-omened
and you have the manuscript in your hands as yet.

Please, keep the manuscript for a while, as I believe,
that "the near future" will be over soon.

Or is this the fate of new ideas, that the moulders
of public opinion refuse even to read the same?

Please, revise your decision and read the manuscript;
or are my ideas disagreeable to you?

Very truly yours

DrDr Paul Klemperer

Professor
Leo Szillard of the
University of Chicago
Chicago 57 Illinois

My dear Professor Szillard:

With your letter of March 2, 1955 you thanked me for sending my Trilogy; but you feared, that you would have no time to read it, in the near future.

On March 11, 1955 I answered, that I never got back my manuscript. I invited you to keep it a while, in order to make it possible for you to read new ideas which you asked for in the New York Times. After more than one year I begg you, either to read the book and to give me your opinion, or to send it back, as I have only a few copies of the same.

Very truly yours
D.D. Paul Klemperer

New York City 25, New York

Dear Dr. Klemperer:

I clearly remember that I returned your manuscript a long time ago to the return address which you gave me. I have a vague recollection that the letter came back, marked unknown at the address given. If this recollection is correct, your manuscript must be in some of my inactive files since I would not have known where else to forward it. My inactive files are in a number of different cities, and when I have an opportunity I shall look through each of these files and see if I can find your manuscript.

I regret if this causes any inconvenience to you. If this was your last copy, it is rather a pity that you allowed the matter to slide so long.

With best wishes,

Very sincerely yours,

Leo Szilard

My dear Professor Gillard:

For 16 years I am living under the same address: 206 W 99, therefore I could not understand, that your letter with the manuscript did not come into my hands.

As you wrote me, Professor, you intended to send my manuscript back, because you were overburdened for months to come.

So I suggested to keep the manuscript a while, until you could read it, and you kept it for 2 years to read. I regret very much that you refused a book, called by Waldemar Kaemffler a "message to the mankind" and highly praised by the late Arthur Schuabel of your university, in spite of the fact that you had invited the public to bring new ideas!

I hope you will find the manuscript in your files, read it and write me your opinion about it.

Very truly yours
Dr. Paul Klempner
