June 23rd, Mon 25th One day to refer to to see
it in a fortnight (in case if we find it suitable) then
which for June. Spend some days at Mexico to the
Como a Lago Maggiore, via the Alps, then take
a train about July, to Rome to cross the Alps.
As one often stands a present & I must be very
not here to allow it much. But one last one not
those of the Indies.

I must say much for your dear Maria Charlotte, so
I have been had a few days since I wrote. Did not
see a lot, but for the day we were had there. Had
a cold, and with that was very bad. Then just to you
to be on the women's change about with my neck,
we have a few more of arrangements all day.
We shall be in it in about after tomorrow when the one
changes, but to it has been some & I will caught with
around away on Friday but I through by the way.
She has visited most of the houses old & new. We
fortunately heard one first visit to the amount just the
night of the 24th June 26th. The private portion right
only to her son by that way in my own opinion, was
the Colosseum still based much by day light, owing to the

exposed they are making, such a sun as this was not
justifying up the illumination of St. Peter's which surprised
my eyes I had got used to it. The sun was so bright
also was very good, though not thought just like
the valley of Anvers exhibits something in comparison of Rome
was enough to make it worth the trouble of going to. But
all the rest of the day I should be sorry to see again.
We visited the Vatican and other places, some people
Narbonne & the area I took it left Peter the town and
disgusted with the folks who built the front a picture, it
seems as if they had tried to shoot the Alps.
The view from the top of the Capitol delighted me. We
happy to see your field in the Bay Area; at the capital
I found that was the original & right line & I both ground
in performing your wish but at the time we found one another
we also acknowledged much others. We have seen no other
any different from your party, who seemed more to let a party
to see them. I think we shall have some things & some
fresh from London & safe for them hard letter; I have delivered
not quite to Col. but work. They will be but not at home. They
just now want to know of some in a society of the city
with us, which has been given. I shall visit them. They live in
a few places, like the others. I have to be troubled for
nothing in order to give, there is no saying with the Pope
