Dr. A. Kelner  
90 Duff Street  
Watertown, Massachusetts

Dear Kelner,

I had difficulty finding out how to reach you and even now I am not sure that the address I have is correct.

Novick and I have finished a paper which is ready to be sent to press on experiments which we made on the light-reactivation of coli. We assume that since the paper you published in the Proceedings of the National Academy you have obtained further results which we would like to quote. I wonder whether you have a copy of the talk which you gave at Oak Ridge or whether you have any papers in print anywhere to which we ~~are~~<sup>ought</sup> to refer. I am on the point of leaving for a vacation in Colorado but I take it that there will be time to put in the quotations in the proof. I have made an extra copy of our manuscript which I could send you if you care to have it. Perhaps you would drop me a line addressed to Stead's ranch, Estes Park, Colorado.

Sincerely,

Leo Szilard

I'm sending  
this letter to both  
Chicago & Colorado

HARVARD UNIVERSITY  
THE BIOLOGICAL LABORATORIES  
16 DIVINITY AVENUE  
CAMBRIDGE 38, MASSACHUSETTS

July 16, 1949

Dear Dr. Szybald:

Your letter finally reached me. We had been wandering from relative to relative since leaving Cold Spring Harbor last June 15, waiting for a fellowship to Harvard to come thru.

I too have just finished a paper on photoactivation in *E. coli* (the writing having been considerably delayed by the necessity of moving from one place to another) & while I do not want to delay further sending it in for publication, I think it'd be a splendid idea to exchange copies, & perhaps quote each other. I do not have a copy of my Oak Ridge Talk. A short talk was given at the May, 1949 meeting of Society American Bacteriologist (abstract (very incomplete!) in the Proc. of Meetings S.A.B.).

I shall be very glad to see a copy of your paper, & as soon as I can get some carbons of mine, I'll mail you a copy at the Colorado address. We can exchange comments. Best wishes

Albert Keller

Dr. Albert Kelner  
Biological Laboratory  
Harvard University  
Cambridge, Massachusetts

Dear Kelner:

The enclosed manuscript will perhaps interest you. If upon reading through it you think that others at Harvard might be interested, I might arrange to come up and give a seminar when I am East. I expect to be in New York for a week or ten days immediately following January 1.

I hope things go well with you. With best wishes--

Sincerely,

Leo Szilard
