

The UC San Diego Library's Online Catalog, Roger, is available at: [roger.ucsd.edu](http://roger.ucsd.edu)

Use Roger to find out if the Library owns an item, for both print and electronic versions of publications. If the item you are looking for is a print item at Geisel Library or Biomedical Library buildings, and you are based at Scripps Institution of Oceanography (SIO), you can use the **Request** feature to have the item delivered to the SIO campus "Pickup Location" (***currently not available due to COVID-19 campus closures***).

*Please note:* While the Library & SIO buildings are closed (due to COVID-19), use the "**We Can Scan It!**" button, to the right of the Roger item record you are viewing (sample image below), for library staff to scan the book chapter, or article, that you need.

**Step One:** Find the item you are looking for in Roger. Use a **Keyword** search, or a **Title** search if you know the book or journal title (there are no journal articles listed in Roger, only links to e-journals & e-books).

The screenshot shows the Roger UCSD Libraries Catalog interface. At the top, there is a header with the 'Roger' logo and 'The UC San Diego Library Catalog'. Below the header, there are navigation links: 'Course Reserves', 'My Library Account', 'Renew Items', 'Hours', and 'Help'. A search bar is present with the text 'protecting the planet environmental'. Below the search bar, there are buttons: 'Start Over', 'Request', 'Save to List', 'MARC Display', 'Return to Browse', and 'Modify Search'. A checkbox labeled 'Only Show Available Items (Check box, then click Search)' is also visible. The search results show '62 Results Found. Sorted By Relevance | Date | Title'. A 'Next Record' link is present. The main content area displays the book details for 'Protecting the planet : environmental champions from conservation to climate change / Budd Titlow & Mariah Tinger'. The details include the title, author (Budd Titlow), publisher (Prometheus Books), and publication year (2016). Below the details, there is a table with columns: 'Location', 'Call Number', 'Status', and 'Request'. The table lists the book's location (Geisel Floor6), call number (GE180 .T57 2016), status (AVAILABLE), and request number (21). The table also lists the book's parts and chapters: 'pt. ONE' (CLIMATE CHANGE: NOW HUMANITY'S GREATEST ENVIRONMENTAL CHALLENGE), 'ch. 1' (What Exactly Is Climate Change?), and 'ch. 2' (What Is the History of Climate Change?). On the right side of the interface, there are links to 'Also Look In' (Melvyl, Google Books, Google Scholar, HathiTrust) and a button labeled 'Just need an article or chapter? WE CAN SCAN IT!'. Below this button is a 'Send by Text Message' button.

Location	Call Number	Status	Request
Geisel Floor6	GE180 .T57 2016	AVAILABLE	21
pt. ONE	CLIMATE CHANGE: NOW HUMANITY'S GREATEST ENVIRONMENTAL CHALLENGE		
ch. 1	What Exactly Is Climate Change?		31
ch. 2	What Is the History of Climate Change?		35

**Step Two:** Click on the **Request** link, the button at the top of the screen, or the "**WE CAN SCAN IT!**" button on the right side of the screen. Then enter your information in the Request Form (sample below), and note that detailed information on the new **Curbside Pickup** is linked at the top of the form.

Maximum of 14 characters allowed. Currently Entered: 5 characters.

**Delivery Information**

Curbside pickup may not be possible for all book requests. Articles will be delivered via email.

Pick-up Location \*

Curbside Pickup

**Item Information**

Please provide author, title, volume number, page, date, and other related information.

**Delivery Information**

Curbside pickup may not be possible for all book requests. Articles will be delivered via email.

Pick-up Location \*

Electronic Delivery

**Item Information**

Please provide author, title, volume number, page, date, and other related information.

Starting on 7/29/2020 the UC San Diego Library implemented a new contactless “**Curbside Pickup**” service, from the Geisel Library. If you want to check-out a book, select “Curbside Pickup” from the Pick-up Location drop down menu. If you prefer to have a scan (PDF) of your article or book chapter, select “Electronic Delivery”. In most cases, items you request will be scanned to PDF and delivered to your email address, within 2-4 business days, depending on the volume of requests received that day.  
*(Delivery of print materials to the SIO campus is currently not available).*

For questions about managing your Library Account, or more information on requesting PDF scans, borrowing items, or **Curbside Pickup**, from the UC San Diego Library, see:
