

CONVERGENCE CLUSTERS

Accelerating innovation with shared information and collaboration.

About CONNECT

CONNECT has assisted in the formation and development of more than 3,000 companies in the San Diego region and is widely regarded as one of the world's most successful organizations linking inventors and entrepreneurs with the resources they need for commercialization of innovative products in high tech and life sciences. The program has been modeled in more than 50 regions around the world. Key to our success has been the unique "culture of collaboration" between research organizations, capital sources, professional service providers and the established industries. CONNECT has been recognized by *Time, Inc.* and *Entrepreneur* magazines and last year received the 2010 Innovation in Economic Development Award from the U.S. Department of Commerce for creation of Regional Innovation Clusters. CONNECT manages the San Diego Innovation Hub (iHub) designated by the state of California Governor's Office of Economic Development in 2010.
