

CAMPUS NOTICE

OFFICE OF THE DIRECTOR OF WORKPLACE TECHNOLOGY SERVICES

May 29, 2020

ALL ACADEMICS, STAFF AND STUDENTS AT UC SAN DIEGO (excluding UC San Diego Health)

SUBJECT: Important Zoom Updates

In its continuing response to user feedback, Zoom has been frequently releasing feature and security enhancements, including a series of updates since early May. If you use Zoom regularly you've likely already been upgraded.

If you have not installed the latest updates, however, you'll need to do so immediately. After May 30, you won't be able to access or start a Zoom without first upgrading. Make sure all your devices are updated with the latest version.

To upgrade, visit <https://blink.ucsd.edu/technology/file-sharing/zoom/guide/install.html>

Finally, please note that users within UC San Diego Health have received a separate communication regarding their Zoom upgrades.

For questions or assistance, visit <https://servicedesk.ucsd.edu>, email servicedesk@ucsd.edu or call 858-246-4357.
