Terrace & Darragh Streets,
Pittsburgh 13, Pennsylvania,
U.S.A.

Geneva, 16th November 1962

Dear Jonas,

Your kind letter of November 2nd was forwarded to me in Geneva. As long as I am here I can be reached c/o Professor Victor Weisskopf, CERN, Geneva 23, Switzerland.

Jacques Monod told me over the telephone about the meeting which you had in New York; I expect to see him before I return to Washington. Depending on my schedule in Europe which has not as yet gelled I might be back in Washington by the 30th November or two weeks later.

Incidentally I have before now expected to have a letter from you formalizing my relationship to the Salk Institute, and I was wondering whether you have hit a snag. I have assumed that some action by your Board of Trustees would have to precede your offering me the option which we discussed when I last saw you.

With kind regards,

Sincerely,

A handwritten signature in blue ink, which appears to read 'Leo Szilard'.

(Leo Szilard)
