I had eaten absolutely nothing  
for 3 days + my very little can. 10.  
Now I decided to go without  
water for 3 days. He bottled  
spring water was kept - at  
least that was the <sup>color</sup> color flask  
I got off the bottle - + I couldn't  
get myself to drink happily  
of the faint water, even though  
I made tea of it. - <sup>part</sup> Part of  
giving instant water was a test  
"Bektestidra" to see if I

could do it? I certainly <sup>over</sup> the  
absorbed energy <sup>?</sup> settings on it.

As I sat on it I also poured water  
over myself with little glasses.

To test <sup>kind</sup> how to use use the  
little round ones I had to leave

many of them the 5 & 10. I

used fairly hot water for

this & poured it on the <sup>spots</sup> that

that were indicated to me,

spot where tension collected,

spots of energy leakage.

Sometimes I would <sup>pour</sup> have the  
 tubs glass at once, & sometimes  
<sup>slowly</sup> slowly. Later I used <sup>pitchers</sup> pitchers  
 released & directed into the dishes  
 of water so that one or 2 dishes  
 would hit a muscle & release  
 a great deal of tension. This  
 was a fascinating procedure,  
 as I could feel the relaxation  
 of the jaw stronger, & then,  
 the butterflies appeared. The  
 butterflies first flew

out of my cap muscle as  
 I poured water on it - & a  
 great feeling of relaxation  
 took place every time a  
 butterfly left. They were  
 beautiful, blue, orange,  
 yellow, sooty black &  
 white. The white ones were  
 ghost butterflies, i.e. they  
 didn't come til the end,  
 when very little had been  
 was left. I took the

butterflies rather lightly.

I never wanted to make  
too much of my hallucina-  
tions, to give them an  
importance of their own.

Perhaps, the energy that

left the tense muscles

was transformed by my

<sup>mind</sup> into something

pretty to look at. It also

helped greatly to pass the

time, & to keep me interest

on relaxing all the  
 muscles of my body - for  
 I put myself only appeared  
 when I really hit a tension  
 spot! They flew off my  
 right arm, foot, & from  
 my right underarm - ~~to~~  
 but not, I think,  
 from the inside of my  
 right breast, although  
 a lot of purple had collected  
 there. I kept splashing  
 the space between my

breast with water, as  
 some of the best electric  
 energy would jump from  
 one <sup>breast</sup> side to the other - or  
 from one breast to the  
 other of the electrical  
 current (which I cannot see)  
 could be broken with  
 water. ~~But~~ the fear  
 was always that the people  
 would return, & it did,  
 periodically. My aim

8  
9

was to become a <sup>pastel</sup> pastel  
pink & green, colors at  
which colors I would then  
never relax & have  
unlimited energy.

When I got used to purple,  
green would come, & then  
to my surprise, blue.  
I hadn't reckoned on blue,  
couldn't remember I had  
been blue on that first  
Tuesday, & wasn't sure

where it fits in the color  
 scheme. Now I finally  
 realize it was better than  
 people expect for had  
 no pain. It was the first  
 color without pain.  
 There were 2 blues. The  
 deep bright blue, as  
 deep as bright as the green,  
 a color of heat + no pain,  
 but somewhat frightening  
 in its intensity (I did do

know it was the color  
 of electricity - the color  
 (blue) I so long to be near)  
 It was the pale blue,  
 a cold calm - ~~at absolute~~  
~~some had a great~~ ~~feeling~~  
 it always made me shiver  
 I ~~could~~ ~~now~~ fast  
 for something to put over me.  
 I finally realized that the  
 color shined in response  
 L that a blanket thrown

around me when I was  
 blue caused he used later  
 when I was blue, as long  
 as I didn't use it when I  
 was purple or green - those  
 colors had to be handled  
 with water alone. My blue  
 fear of cold went away -  
 I had nothing to dry  
 myself with but soon  
 found I didn't need it -  
 I dried immediately on

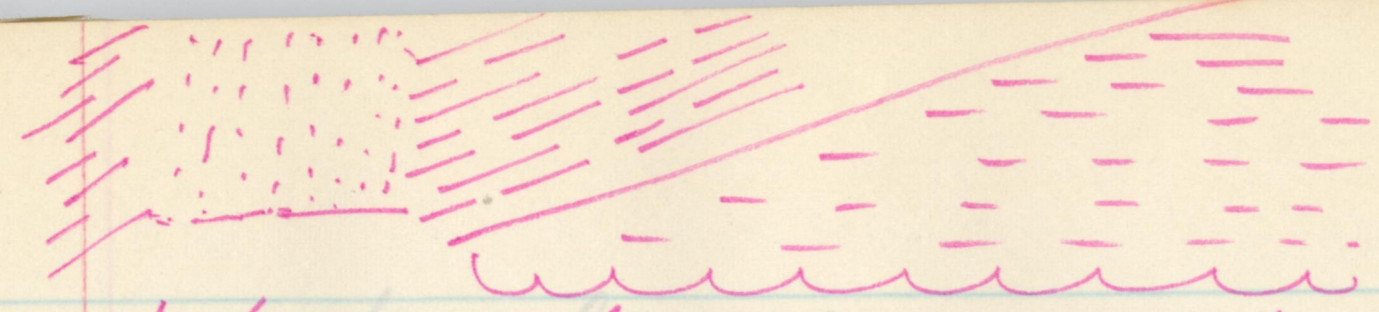

<sup>leaving</sup>  
 leaving the seat & the  
 part of the rat submerged  
 in water was made <sup>paid</sup>  
 than rat. So I just  
 worried about what to  
 do when the cold pale  
 blue came & that I <sup>solved</sup> solved  
 by using the <sup>infirmit</sup> infirmit  
 number of tablecloths  
 I had in my linen drawer.  
 Only toward the end did  
 I use <sup>near</sup> near the blanket,

When I was ~~sawing~~ for  
 when I finally turned  
 heat & green, & head like  
 the place in chair float  
 The way to fight the <sup>pale</sup> hole  
 blue color was with the  
 deep blue color, the same  
 was bright blue - I lit it &  
 burned some piece of  
 paper & then everything  
 turned to bright blue.  
 When this pale blue

came I had to use the  
 sink mat burning  
 paper, to see it of the  
 previous color, particular  
 the glaucous <sup>clung</sup> ~~clung~~  
 & ~~clung~~. After I had  
 wiped the seat with  
 flame, I rubbed the  
 really <sup>?</sup> ~~del~~ <sup>?</sup> ~~del~~ with  
 ash. This was a very  
 effective cleaning agent.  
 I left the seat a beautified

sooty cola. One I took  
 He uses 2 painted ropes.  
 He left 1 night <sup>wrist</sup> uncast, a  
 hand across the upper  
 right arm, some on  
 the right breast. It  
 was for fun, but it was  
 useful too - I put the  
 ashes in places to absorb  
 the punkle <sup>ribes</sup> - a to  
 prevent them traveling  
 up my arm. for travel

they did. Well, I had to  
 amuse myself and decorations  
 myself with a lot, was  
 one of the prettiest jobs I did.

Beside, I was learning. ~~The~~

~~own~~ began self - but

don't ask me where all H.S.

learned - perhaps in my  
 last life.

Change take place to slowly

Had lunch with B - we were  
 talking about how the ~~men~~  
 and in the college returned  
 were more upright than the  
 boys. Even still the  
 women's lit movement has  
 far to go. <sup>girls</sup> And as still  
 under more restrictive than  
 No man <sup>says</sup> B. I had  
 sexes still busy up in the  
 cunt-pick syndrome.  
 Changes take place so slowly

can life Isaac. And artist -  
 do they show us the new  
 directions - or are they just to  
 find to perceive the thought  
 already around, thought  
 by the new thinkers of advanced  
 thought - or do they intuitively  
 leap through to undiscovered  
truths? I guess it depends  
 what kind have good a mind.  
~~accidental~~ but why do so many

and Mrs. J. I saw one <sup>girl</sup> girl

on a bicycle. She came in

And a lot of <sup>women</sup> women have

noticed, too, that. So then I go

 The actual circumstances of

So I have to eat things that turn to the left! Weight loss as time flow changes = levitation.

Feels like forever. The apt looks  
O.K. - I am to meet the landlord  
this week. Had dinner with  
L - the first time a girl  
has ever asked me out.

On a date I mean - well, a  
sexual difference. I found I  
liked her a lot but had no  
idea if I would have any  
sexual feelings for her. She  
is nice to be with - I can  
partly talk to her ~~but~~ and  
I can hold hands with her  
but I'm just not interested.  
I get a faint, very, sexual

I got really upset yesterday

country & all - I got this

flash that it wasn't my

maker that would do

in the year but my aunt.

Then I ~~decided~~ can't separate

my fear of this from

perhaps pre-cognition - or

is it my maker's intention

desire to want no heart  
when? also mind to be  
with heart (it is a last  
year - but I can't go on  
during my sleep class or  
going up in the summer  
I need the clout that  
comes from the country -  
I have my own head to I just  
think about too - this machine  
is spinning & hasn't yet  
let up on wash! Put soap

in anybody, guess I'll wait  
til wash is done + put things  
in dryer, then split - wash first  
event on in no. 9 to plenty of soaps.  
Anyway I'm really flattered  
aw - called my old analyst +  
made an appt to see him Thu.  
Pete's wanting to have  
my hand + hug me + I just  
can't get into it - I'd rather  
she didn't - I feel pushed  
+ pulled like a passenger.

like I feel about my mother.  
 always wanting something  
 from me - she from me  
 I finally got to say she  
 been beaten up 1/2 year ago  
 by 3 guys who wanted some  
 heat she had on her - beaten  
 with a gun & tied & beaten  
 again & she almost died no  
 I never said wash it steamy -  
 she was afraid to do she  
 want to be held name all

the time. No 11 said Wash I  
didn't trust em - too soon the  
soap! - so she ~~was~~ want  
physical contact all the time  
I got very upset & started ~~de~~ about  
my ~~my~~ fears - the soap is messy  
and of 11 - ~~about~~ my mother  
& I just sat in the car + cried  
because ~~I didn't know~~ it  
might be my aunt & I  
hadn't thought of that  
& the reason I thought

that was because I was  
 terrified + of my mother  
 & that possibility when the  
 blue-green bullet I gave  
 my aunt appeared in front  
 of my eyes + I asked myself  
 does that mean my aunt  
 + the blue bullet appeared?

But I <sup>was</sup> ~~think~~ it all a fantasy  
 of my own fear. Nevertheless  
 I have twice experienced  
 this intense anxiety coming

one my aunt & one my  
 mother & had time & the  
 one time my aunt was  
 very ill & the other I  
 experienced great cold in a  
 dream & a waking thought  
 to hurry <sup>warm</sup> rubbers to my  
 mother at the dock when  
 her ship landed & so  
 I didn't & she got very  
 very cold feet & later  
 got pneumonia. So I

could have prevented  
 the pneumonia? I don't  
 know. If I hadn't been  
 so terrified of that dean  
 I fear I could have  
 acted upon my intuition  
 I brought my mother the  
 warm coat to the doctor  
 than I heard the doctor  
 It would open a little  
 got vent by & almost  
 touched it & I said no!

I first saw it in a paper as  
 a chap in the (what the name of a  
 was in chap - ?) fellow, man,  
 blue shirted, green jacketed  
 good looking (black) must  
 up + shut the door for me  
 I is surprised that still  
 strap - too much - so sometimes  
 the fear is not a fear but a  
 pre-cognition + sometime  
 the feeling with the pre-cognition  
 is the one I'll have when it

happen as all I can do  
to live with it + tell you  
in a year if my aunt has  
made us both alive +  
well, well, alive + 20 go  
home this makes day  
what will catch me  
+ her 2. perhaps sheet off  
the value the channel  
that opened between us.  
This attachment I haven't  
figured out. I want to

I'd like to love my mother  
 but I don't want this awful  
 feeling she live on off  
 me - of course I  
 never say for my father  
 with could be my own  
 story & the feeling was - if  
 she does die he won't be  
 here to help me with  
 that burden but of course  
 it's a year since the pneumonia  
 & I must have a way

& the anxiety that go with  
 some) of recurring at  
 the same season. I had  
 noticed that no 9 & 10  
 no 11 & 12 done both in  
 clay. I had also for  
 11 & 12 for me. He  
 says just goes to know  
 clay & 12 well bees  
 that all I need to hear is  
 to say you get around  
 that a lot & I say yes!

That's what I do & I try  
 to figure out the rest -  
 you certainly can't check  
 out anything when a  
 laundromat does when  
 even I didn't think it  
 about me & wonder if  
 my fear was based on  
 some reality like part of  
 me knowing I didn't  
 shut the door properly  
 that part of me not really

attention to the fact that  
 knows - because partly  
 of that freezing up that  
 comes when an idea of the  
 the comes, men me - I want  
 out - so it is fear of  
 immobilize. B did  
 not get the Frank of I have  
 page that K did to cause  
 sure use the money K  
 doesn't need it at all  
 that not unless you get

page but neither are  
last of other reasons  
but shall I go into the  
history of the NY school  
of poetry? No. I will  
write a book about them  
all I know she already  
on a diary but 2 years  
ago this was in the making  
She had birth dates of  
all the people in the group.  
That was the day of birth day

parties for all of them - I only  
 went to compare what being  
 part of that process, depression  
 is more like it but I  
 like it a lot, I feel  
 better but not all -  
 so I know the seasons  
 bring back the feelings  
 of previous seasons - I  
 attend certain Sept. they  
 depression I used to have  
 to the time my mother was

born & I lived with my  
 father at my aunt's for  
 most of 50. I caused little  
 fear of lost money in ~~the~~  
~~market~~ & myself & the  
~~community~~ season being, it  
 took & my fear of the  
 danger & sadness at the  
 loss & fear for my own  
 life - support of - they  
 help me with money &  
 what I wanted I do, would  
 not & solved for me EIF

I have more a less -  
 the U.S. here - don't know -  
 part of the business, but  
 still the "present" of clothes  
 + Dr. felt help out fine  
 + I want my mother  
 around but I've seen  
 I do love her but I want  
 my freedom too. will be

So many possibilities, so little time

Weekends now

time

to answer letters, read the

My books scream at me  
from their shelf,  
my typewriter begs me to work it  
my mind is bursting with ideas  
9½ to 10 years  
will never be enough time!
