

Administrative offices of UCSD to move to Building B April 6-7

April 1, 1963

Several of the administrative offices of the University of California, San Diego, will move to new quarters in the recently completed Building B on Torrey Pines Mesa this weekend (April 6-7): J. H. Clark, Assistant Chancellor-- Business and Finance, said today.

The offices affected are Accounting, Central Services, Employment, Environmental Health and Safety, Inventory, Personnel, Publications and Public Information and Purchasing. All serve the entire campus, including the Scripps Institution of Oceanography. All will be located on the sixth and seventh floors of the structure.

Building B is located just southwest of the stoplight at U. S. 101 and Miramar Road.

The building is already occupied by a portion of the Library staff. Other offices will move during the coming months. Eventually the building will house the entire campuswide administrative staff plus several academic activities, Clark said.

Telephone numbers for the offices will remain unchanged.
