# BACK OF THE

# EMBLEM

The A-1 emblem is the user's assurance of an A-1 engineering job in planning the tool, A-1 workmanship in its manufacture by skilled craftsmen, A-1 testing in the field until it has been proved under actual operating conditions, and A-1 operating performance on the job.

It is the policy of the A-1 Bit & Tool Company never to place a product on the market until it has come up to these high standards. No tool can go out with the A-1 emblem until it has been tested under the most adverse conditions and shown that it will do everything claimed for it and more.

*Bit & Tool Company*
