

August 10, 2005 UCSD Extensions Presents Paul Goldberger: Pulitzer Prize-winning Journalist to Speak at Revelle Forum

August 10, 2005

Stephanie Stevens

UCSD Extension is pleased to announce that Paul Goldberger, Pulitzer Prize-winning Architecture critic and Dean of the Parsons School of Design, will speak on Monday, October 4th, 7:00-8:30 p.m., as part of UCSD's Revelle Forum at The Neurosciences Institute, a series of lectures and public interviews with leading figures from the worlds of arts and culture, current events, and the media. Goldberger will discuss his newest book, *Up From Zero*, in conversation with Nico Calavita, Professor Emeritus of the Graduate Program in City Planning at SDSU. Admission to this event is \$35 per person. Registrations may be made by calling UCSD Extension at 858-534-3400, or online at <http://revelleforum.ucsd.edu>.

In rebuilding the World Trade Center site, a city and a nation set out to examine what it means to be American and the leader of a global community. Never before has the United States undergone a project of such sheer size and symbolic significance. Paul Goldberger visits the Revelle Forum to speak about his new book on the World Trade Center site, *Up From Zero: Politics, Architecture, and the Rebuilding of New York* (Random House). Goldberger wrote on Architecture for *The New York Times* for 25 years and is currently the Architecture critic of *The New Yorker* magazine. In *Up from Zero*, he vividly recounts the story of the design selection process, describing how conflicting pressures from economic hopes, politics, grief, hubris and powerful egos have shaped decisions about the project, and offering his own evaluation of the design and its implications. Advance registration advised. Registration fee is \$35. No refunds. When registering, refer to section ID #047894. Call 858-534-3400 to register. The talk will be followed by a booksigning.

The series takes place in the 350-seat auditorium of The Neurosciences Institute located at 10640 John Jay Hopkins Drive (parking is free). Advance registration is advised, as seating is limited. For more information on the series and on each speaker, visit <http://revelleforum.ucsd.edu>
