

## **Dr. Alvin M. Weinberg to lecture**

**January 29, 1980**

Dr. Alvin M. Weinberg, director of the Institute for Energy Analysis in Oak Ridge, Tennessee, is scheduled to give the fourth in a series of six public lectures on current and future world energy problems Monday, February 4 at the University of California, San Diego.

Weinberg's topic is "U.S. Energy Futures."

The lectures, which are free and open to the public, are being presented in room 2722 of the Undergraduate Sciences Building on the Revelle College campus. They begin at 7 p.m. and last about one hour with time for a question and answer period.

Weinberg will be followed by Dr. John M. Deutch, Under Secretary of the U.S. Department of Energy, who will speak on "The Future of Nuclear Energy in the U.S." on February 18 and "Federal Energy Development Policy" on February 21.

Weinberg served as director of the Oak Ridge National Laboratory for more than a quarter century. He was also among the first members of the University of Chicago's war-time Metallurgical Laboratory.

He was instrumental in establishing the Institute for Energy Analysis at Oak Ridge Associated Universities in 1974. After serving briefly as director of the institute, he became director of the Federal Energy Administration's Office of Energy Research and Development. He returned to the institute in July 1975.
