

FOTOGRAFS

OF THE

Sunset Mining Company's Gold Mines

Established 1889

Enclosed we hand you fotografs of some of our gold mines in California which are operating. We are an old going concern, paying regular two per cent. monthly dividends, having paid the 89th monthly dividend July 1st, 1901. We desire to sell some of our stock at \$1.25 per share, to increase equipment and to acquire other valuable properties. Our purpose is to do the largest general gold mining business in the United States.

Hayden Whitney, No. 1530 Chestnut Street, Philadelphia, is making \$1,000 to \$5,000 per month selling our stock. CAN WE ARRANGE WITH YOU TO SELL IT IN YOUR VICINITY? Sales can be made in any amount, from ten shares, upwards.

G. W. Finch, No. 211 Avondale Avenue, Toledo, Ohio, is one of our stockholders who recently visited our mines and saw them in operation.

C. J. Haile, Vacaville, Cal., is an old stockholder who has received over seven years' dividends.

Should you address any of these parties, enclosing stamp, you will probably receive a reply.

Write for additional data.

Respectfully,

SUNSET MINING CO.

G. W. RUMBLE,

Chronicle Building,

Secretary.

San Francisco, Cal.
