The Alchemy of The Body

Summative View [Space/Energy]

Time - energy at various levels pulse/wave form/dynamic shape

energy- packets of movement force/legs + summations .. cumulative waveforms/dynamics. Energy shape/equivalent sound complexity.

alchemy- energy takes many alchemic forms; when the proper event (chemical) trigger occurs reaction/action occurs.

actions/reactions cross media barriers. Triggers are pulse shapes. Energy can be transubstantiated from one form to another physical to psychic; gesture to sound; etc.....

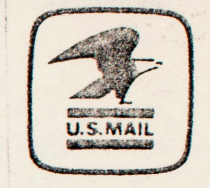

harmonics - There are harmonics of space where collective events may be summarized in sound/energy/movement forms. Time is a harmonic interval/vertical or serial serial time. Some cultures do not think energy, movement, force. [Hopi to]

Space forms \rightarrow lattices

- Integration of chaotic actions/sounds [dynamics B.F.] \rightarrow Total Environment with trees
 - Interactions of simultaneous sets dynamic events/environmental tents.
 - Interpenetrations (as jet lag) of special or simultaneous environments.
- The cumulative Set
