## ICT - Potential for poverty reduction: Temu

The Government has acknowledged the role of Information and Communication Technology in nation building and achieving high standard of living for the people, in reducing poverty.

Minister for State Enterprises and Information, Dr Puka Temu, while, officially opening a two-day workshop on Information and Communication Technology Policy and Strategy Development said, Papua New Guinea is yet to realize the benefits of ICT technologies and it was time to make every effort to capitalize on the opportunities created by the advances in technology.

Dr Temu said the Department of State Enterprises and Information would play a critical role in developing policies to facilitate the expansion of the telecommunications network and in particular bridging the digital divide.

"Technology has a well-known aftermath of creating gaps between the haves and the have nots and PNG

**Hon. Dr Puka Temu** is no exception.

"It is thus so critical that governments through clear policies and friendly competitive regulatory frameworks prevent this from happening," Dr Temu said.

He added that in the area of rapidly expanding and changing technology, perhaps we should now coin in such concepts as 'digital rights' to guide technology towards bridging of the ever-expanding digital divide.

Under the Government's Medium

Term Development Strategy 2005-2010, improved telecommunications services will impact positively across all objectives and sectoral priorities of the MTDS.

Dr Temu wishes to see the seminar offer a policy framework that will provide the perimeter for government's development strategy to strengthen information communication technology that should be affordable, efficient and easily accessible by the people irrespective of their locations.

Dr Temu emphasized that the proposed National ICT Policy and its Strategies must promote the expansion of a range of 'e-services' applications to rural communities, particularly in the five key sectors of e-government, e-education, e-health, e-commerce and e-agriculture.

In all these applications, an extensive and cost effective telecommunication system has the potential of improving standard of living through creation of income earning opportunities and raising the health and edu-

cation standards in the country.

The development of nationwide communication network that supports broadband and satellite technology will require a sound policy, effective and robust regulatory and institutional framework to enable innovation and revenue generation, while at the same time ensuring lower and more competitive prices for consumers.

Dr Temu said the workshop had been organized to seek views from all key stakeholders to put into place an appropriate Policy framework for PNG, to ensure ICT became accessible and affordable.

The Government is committed to exploring options of supporting regions in the country where infrastructure spread continue to be hindered by the high cost of telecommunication services.

"Our Government has in place a community service obligation framework under which the rollout program for rural communities will be implemented under the Public-

Private Partnership policy on Telkom PNG.

"PNG cannot isolate itself from the global village. All member states of the United Nations adopted the Millennium Declaration in Geneva in 2000, which outlines a vision for the new century based on fundamental values of freedom, equality, solidarity, health, respect for nature and shared responsibility," he said.

The UN recognizes the use and promotion of Information and Communication Technology as a priority effort to secure sustainable development and to achieve the MDGs.

Dr Temu emphasized that ICT is an increasingly powerful tool for participating in global markets; promoting political accountability; improving the delivery of basic services; and enhancing local development opportunities.

But he said, without innovative and robust ICT policies, many people in developing countries, especially the poor, will be left behind.

# PNG has own award system

Papua New Guinea has adopted its own honours and award system, called the Order of Logohu, which means Bird of Paradise in the Motu language.

The Bird of Paradise is the official national emblem of the country which was adopted on Independence Day on September 16 1975.

In approving the National Executive Council decision to adopt the new award system, Prime Minister, Sir Michael Somare said the structure of the Order and the nomination and selection process for recipients would be included in legislation to be presented in the current session of Parliament.

The Order of Logohu will have one division – the General Division which will be open to all citizens, including members of the disciplined forces and the public service.

Sir Michael said the Order would consist of five levels, or classes, the Cross of Valour, and eight Medals in recognition of meritorious service in the State Services and community.

The ranking and post-nominals will be as follows:

- Grand Companion (GCL) – first class;
- Commander (CL) – second class;
- Cross of Valour (CVL);
- Officer (OL) – third class;
- Member (ML) – fourth class;
- National Medal (LM) – fifth class;
- Cross of Medical Service Medal (CMS);
- Distinguished Military Service

- Meritorious Community Service Medal (MCS);
- Commendation Medal for Valuable Service (CMM);

Sir Michael said the new eight Medals in the Order of Logohu would take precedence over the Commemorative Medals and the other Medals that had been previously issued for Papua New Guinea.

"Provided the necessary legislation is passed by Parliament, the first Honours List under the Order of Logohu will be made on the occasion of the country's 30th Anniversary of Independence in September 2005.

"As we approach 30 years of

nationhood it is timely that we introduce our own, unique Honours System as other Commonwealth Countries have done. The system will highlight and pay regard to our heritage and traditions and our rich culture," Sir Michael said.

Meanwhile, expressions of interest from established medal manufacturers in the region have been sought, with two firms that met the strict criteria, have been invited to make formal submissions on the design and production of the insignia of the Order, medals and ribbons.

The final designs and successful medal manufacturer will be selected in January 2005.

Sir Michael believes the whole community would support the introduction of the nation's own honours and award system, and its introduction will be a highlight of the celebrations of three decades of Independence.

## ICT can transform PNG

Information Communication Technology can play a key role in transforming Papua New Guinea to be stable and strong society, acting Secretary for the Department of State Enterprises and Information, Henao Iduhu, has said.

Mr Iduhu said ICT is about using information to make wise decision to improve welfare and living standards. "So it depend on how we use information and through which medium and for what purpose."

Mr Iduhu made these remarks when speaking at the National Information Technology Policies and Strategies Development Workshop held at the Gateway Hotel

The workshop organised by the United Nations Development Program was held at the Gateway Hotel from November 23rd to 25th.

He said in almost all the developed and developing countries around the world, ICT is used as a tool for nation building.

ICT is used widely for information processing, transferring, disseminating to create public awareness and perform other services such as electronic business, E health – E-learning and E-Agriculture, he said.

Mr Iduhu said the government will be relying on the facilitators and participants to give their views on services that the government can provide alone or in partnership with private sector.

Meanwhile Mr Iduhu said feasibility study will look into the possibility of developing a Government Information System for Papua New Guinea

- The key features of the propose GIS will include
- an electronic/database developed and managed by the Department of State Enterprises and Information,

Mr Henao Iduhu

- all departments be encouraged to develop their own electronic database in their own local area network
- encourage all key government agencies to develop Home Pages about their own functions and responsibilities
- create internet connectivity between all government departments which have developed own Local Area Network systems
- Explore possibility of linking provincial headquarters and districts offices so as to allow farmers to access market information on internet applications.
- Other sectors to be explored will be education for e-learning, health for e-health and business sector and banks for e-commerce.

## Member for Moresby North East sworn-in

National Speaker, Jeffery Nape, swore in Member for Moresby North East, Casper Wollom, in Parliament on November 11, 2004.

Mr Wollom was escorted into the Chamber by Sergeant-at-Arms and the Opposition Leader, Peter O'Neill and Member for Gumine, Nick Kumun.

Mr Nape announced in Parliament that he has received the return of the Writs issued on 5 August, 2004, for a by-election of a Member to serve for the

Moresby North East Open Electorate following the Declaration by the Court of Disputed Returns declaring that Mr Casper Wollom was not duly elected in the 2002 General Elections and that by the endorsement on the Writ, it was certified that Mr Casper Wollom was duly elected as the Member for Moresby North East Open Electorate.

Mr Wollom made his declaration of loyalty and declaration of Office before taking his sit on the opposition.

# PM attends 12th APEC Leaders Meeting in Chile

Prime Minister, Sir Michael Somare attended the 12th Asia-Pacific Economic Cooperation (APEC) Leaders Meeting in Santiago, Chile this month.

The theme of the meeting, "One Community, Our Future", recognizes that the driving force of the world's economic and commercial future is located in the economies of the Asia-Pacific rim.

The sub-themes included,

■ A commitment to development through trade;

■ Sharing benefits through better practices;

■ Skills for the coming challenges;

■ Opportunities for entrepreneurial growth;

■ Growth and stability: keys to APEC integration

■ Commitments to sustainable growth; and

■ Experiencing our diversity

Sir Michael said the meeting provided yet another opportunity to interact and exchange views with other APEC leaders on issues vital for the region's trade, investment liberalization and growth.

"Within the margins of the leaders'

Sir Michael Somare

meeting, there will also be opportunities for me to have bilateral discussions with other APEC leaders on matters of bilateral importance to PNG, with a view to further enhancing relations with these countries," Sir Michael said.

Minister for Foreign Affairs and Immigration, Sir Rabbie Namaliu also attended the meeting.

Member countries of APEC are Australia, Brunei, Canada, Chile, China, Hong Kong, Indonesia, Japan, South Korea, Malaysia, Mexico, New Zealand, Papua New Guinea, Peru, Philippines, Russia, Singapore, Taiwan, Thailand, United States of America, and Vietnam.

## APEC Leaders Summit focuses on Human Security

The 12th Asia-Pacific Economic Co-operation (APEC) Leaders Meeting in Santiago, Chile, has focused its attention on human security and its implications on global trade and economic relations.

The APEC Leaders reaffirmed that terrorism is a threat to human security, economic stability and growth in the region and agreed to continue combating terrorism in all its manifestations.

Addressing the APEC summit, Prime Minister, Sir Michael Somare, urged all APEC economies to cooperate with each other, consistent with the United Nations Resolutions and the Bangkok Security Commitments.

Sir Michael also urged each APEC member economy to cooperate and assist each other in the fight against terrorism, in order to secure and facilitate trade and investment liberalization, and economic growth.

"In order for APEC to confront the risks posed by terrorism, there is need to strengthen capacity building and technical assistance amongst member economies," Sir Michael said.

Sir Michael stressed that Papua

New Guinea condemns, in the strongest possible terms, all actions of terrorism, including the most recent barbarous acts in Russia and Indonesia, and offer it sincere condolences to the people affected and their governments.

On the issue of infectious diseases, Sir Michael said APEC Leaders committed themselves to new efforts during 2005 to address specific threats posed by diseases such as SARS, HIV/AIDS, avian flu, TB, malaria and polio.

"Infectious diseases such as HIV/AIDS, Severe Acute Respiratory Syndrome (SARS), malaria and TB have become important human security and development concerns for APEC member economies, particularly the developing economies on how to combat the increasing number of cases relating to these diseases," Sir Michael said.

He added that PNG recognizes and encourages efforts of the APEC Health Task Force (HTF) and other relevant fora to include appropriate actions in the area of health security in their work plans.

Papua New Guinea also welcomes the outcomes of the XV

International AIDS Conference held in Bangkok in July this year, and underlines the need for APEC to collaborate with relevant international organizations such as UNAIDS, World Health Organisation (WHO) and the Global Fund to fight AIDS, tuberculosis and malaria.

Sir Michael added that PNG also paid tribute to international efforts to eradicate polio by 2005 through WHO/UNICEF - led global Polio Eradication initiative.

He emphasized that PNG supports the efforts by APEC to increase access to health care and safe and affordable generic drugs for all the infected people.

While in Santiago, Sir Michael also held bilateral discussions with the President of the Republic of China, Mr Hu Jintao.

Sir Michael was among all APEC Leaders who attended an official dinner hosted by the President of Chile, HE Ricardo Lagos and his wife at the Estacion Mapocho Cultural Centre, where Leaders and their delegates were treated to an impressive and colorful cultural display, depicting the rich and proud history of the Chilean people.

# SANTIAGO DECLARATION: One Community, Our Future

Leaders attending the two-day 12th APEC Leaders Meeting in Santiago, Chile, have reaffirmed their commitment to achieving sustainable and equitable growth, and reduce economic disparities for the well-being of the people by meeting the Bogor Goals of trade and investment liberalization and facilitation, enhancing human security, and promoting good governance and knowledge-based society.

Leaders from APEC economies: Australia, Brunei, Canada, Chile, China, Hong Kong, Indonesia, Japan, South Korea, Malaysia, Mexico, New Zealand, Papua New Guinea, Peru, Philippines, Russia, Singapore, Taiwan, Thailand, United States, and Vietnam, signed the Santiago Declaration, reaffirming their commitment.

## Trade and investment liberalization

Briefly, the Santiago Declaration outlines the various sub-themes of the Leaders Meeting, which emphasized on advancing development through trade and investment liberalization, where Leaders reaffirmed their primacy of the rules-based multilateral trading system, which allows the participating economies to pursue trade liberalization on a global scale, among other things.

The Leaders also recognized that improved and enforcement of

Prime Minister Sir Michael Somare (standing far right - back row) with other leaders at the 12th APEC meeting in Santiago, Chile.

Intellectual Property Rights contribute to the promotion of investment, innovation, and economic growth. They have welcomed APEC's work on the APEC Comprehensive Strategy on Intellectual Property Rights and encouraged further progress in 2005.

Under the Santiago Declaration, Leaders also launched the Santiago Initiative for Expanded Trade in APEC to complement the achievement of free and open trade in the region.

The Initiative has two components: - Trade and Investment Liberalisation, where Ministers are expected to recommend how to further liberalize trade and investment in the region, and Trade Facilitation, where economies are expected to continue work to reduce business transaction costs by 'cutting red tape,

embracing automation, harmonizing standards and eliminating unnecessary barriers to trade.

## Enhancing human security

The Declaration also emphasized on 'Enhancing Human Security - Underpinning Economic Growth', where Leaders reaffirmed their determination to advance the prosperity and sustainable growth of respective economies and the complementary mission of ensuring the security of our people.

The Leaders, among other things, further encouraged APEC economies to take measurable steps towards the ratification and implementation of, or the commitment to ratify, all basic universal anti-terrorist conventions, so as to demonstrate APEC's unmistakable resolve to collectively con-

front the threat of terrorism and its disastrous effects on the people and also the economies of the region.

Leaders further endorsed the initiative on Fighting against AIDS in APEC, and pledged their political commitment to work together at the regional and global levels, to combat the further spread of the AIDS pandemic, and support efforts to increase access to health care and safe and affordable drugs for all people living with AIDS, and to address specific threats posed by other infectious diseases.

As a response to global concerns about high oil prices, and in keeping with commitment to promote energy security, sustainable development and common prosperity within the APEC region, Leaders have instructed Energy Ministers to continue to implement and enhance the APEC

Energy Security Initiative.

## Promoting good governance and a knowledge-based society

With regard to 'Promoting Good Governance and a Knowledge-Based Society', Leaders have further reaffirmed their commitment to fight corruption, as it poses a serious threat to good governance and deters investment.

Therefore fighting corruption is essential to the development of the economies for the benefit of our people.

Further to their agreement in Bangkok to fight corruption, Leaders have endorsed the Santiago Commitment to Fight Corruption and Ensure Transparency.

They have also reaffirmed their commitment to promote structural reform, and recognizing its value for achieving sustainable economic growth.

Under the Santiago Declaration, Leaders have also realized the need to deepen capacity building initiatives in the region through public/private partnerships and increased interaction with international financial institutions.

Leaders have also paid tribute to APEC for its efforts in the field of education, in particular work undertaken to promote the use of English and other languages as tools for small and medium enterprises, and the use of information technology tools to assist the learning process.

EDUCATION

# School Fees approved for 2005

Mr Baki

**Secretary for Education and Chairman of the National Education Board, Peter Baki, has endorsed the maximum school fee limits for the 2005 school year, that was approved by the National Education Board, at its recent meeting early this month.**

Mr Baki said due to financial difficulties faced by parents, fees for all institutions in the National Education System will be kept at the 2004 levels, except for Grades 7 and 8 in primary school, which will be reduced. The NEB recommended Maximum Fee per child in 2005 as follows:

- Elementary Prep to Grade 2 - K100
- Grades 3 to 6 - K150
- Grade 7 to 8 (primary school) - K250
- Grade 7 to 10 (day-secondary & vocational schools) - K700
- Boarders - K1100
- Grades 11 to 12 (day-secondary & national high schools) - K1,200
- Boarders - K1,600

■ College of Distance Education (CODE): Per subject - K80

Mr Baki added that fees for pre-service teacher training at Primary Teachers College and PNG Education Institute will remain at K750 for students who are fully sponsored under the Higher Education Contribution Assistance Scheme (HECAS); and K1,127.50 for self-sponsored day students and K3,125 for self-sponsored boarding students.

Fees will remain the same for Technical and Business Colleges, but will vary depending on the length and nature of the course, however, tuition fee for a full year (44 weeks) Diploma or Technical Training Certificate (TTC) course will be K2,800 plus K1,800 messing fees for boarding students.

Mr Baki added that the NEB set maximum fee limits in order to guide provincial education authorities and Department of Education divisions to set realistic fees.

The 2005 fee limits take into account the

need to keep the costs to parents as low as possible but at the same time provide schools and colleges with sufficient funds for their operational costs.

The NEB Maximum Fee is an estimate of the average amount per student that a school needs to budget in order to stay open for the full school year and provide education to national standards.

He said that school administrations, parents and the school communities need to realize that school fees are difficult for parents to afford but schools also need finance and support to operate to the required standard for the full school year.

Mr Baki emphasized that the cost of education is a shared responsibility between parents and guardians, school governing bodies, education agencies, and provincial and national governments.

He further encouraged parents to make arrangements to pay fees when school year commences in 2005.

## G-G challenges parents over children's future

**Governor-General, Sir Paulias Matane, has challenged parents to take stock of the kind of values, administration and appreciation instilled in our children**

Children were the most important group of people on earth and will be leaders of tomorrow, Sir Paulias said at the International Children's Day Celebration, at Sir John Guise Stadium on November 19.

Sir Paulias said Papua New Guinea as a developing country must pay close attention to the children and play its parts on the children's physical, emotional, psychological, spiritual and social state.

Sir Paulias said there were millions of children in some parts worldwide who constantly live in unfriendly environments and harsh conditions.

In PNG there are more than 2 million children between 0-18 years most of them live in rural areas.

He said 19 November was the observance day of this special occasion to mark the day which the UN General Assembly adopted the declaration of the Rights of the Child in 1959 and the Convention on the rights of the Child in 1989.

Sir Paulias said issues affecting children may not be the same for instance there are children with disabilities and children with HIV/AIDS whose needs are different from those without disabilities and HIV/AIDS.

He said the needs of the children from rural areas may differ from urban children and we must know these needs in order to provide services that deal with those needs directly.

He applauded hundred of parents and families who provide daily needs for their children and check if there are adequate support services for them. He commended the Department of Community Development own on going traditional activities in ensuring that adoptions were done properly in protecting the children's wellbeing. The Department in partnership with UNICEF is ensuring that all are registerer under the Civil Registration Programmes.

Papua New Guinea has done well and many programmes and activities are being carried out but there is more work to be done yet to improve on what we have established, Sir Paulias said.

Sir Paulias Matane speaking at the International Children's Day Celebration.

Teachers and children from various schools in NCD also witnessed the International Children's Day celebrations at Sir John Guise Stadium.

# Students to behave sensibly celebrating graduation

**Minister for Education, Michael Laimo, has appealed to all students to behave sensibly when celebrating their end-of-year exams and graduations.**

"Graduations are important and mark a step further in students' lives, but it is also important and safe to conduct these celebrations under parents or teachers supervision and not in hotels or clubs for long hours unpervised," Minister Laimo said.

Mr Laimo further appealed to students to ensure that what they consume was safe and healthy.

Mr Laimo made this appeal following the death of a Grade 10 student of Gerehu High School, who

was killed after attending a party at a night club in the city, with friends.

Mr Laimo also offered his condolences to the parents and relatives of the deceased student.

"I urge all students who are planning end of exam and graduation celebrations to exercise care at all times to avoid recent and also past experiences where students were killed or hurt," he said.

He also called on parents and guardians to control movements of their children, especially during this time.

Mr Laimo said he made this appeal as a 'father to students to exercise self-discipline and responsibility as they progress in life.'

## Understand importance of International Children's Day: Laimo

Education Minister, Michael Laimo, has appealed to parents, families and the communities to understand the importance of International Children's Day and to promote and protect their children's rights.

"International Children's Day is a very special and important event for all children in Papua New Guinea. Let us give our children the opportunity to be themselves and pledge to protect and promote their fundamental rights to have a quality basic education, live a healthy life, protection against abuse, exploitation, violence and HIV/AIDS," said Mr Laimo.

Mr Laimo said the Department of Education is committed to the Millennium Goal 2, to provide universal primary education for all children in Papua New Guinea.

Children display a banner at the International Children's Day Celebrations at Sir John Guise Stadium.

To achieve universal Primary Education in Papua New Guinea we need all children to start school at age six in elementary prep and

children are given the opportunity to start school, however, almost half of those who enrol still do not complete grade 6.

The Minister said that basic education is the highest priority for education in the Government's Medium Term Development Strategy. There have been many success after 10 years of the reform and there still remain challenges ahead.

The successes include increase in enrolments, increase in the number of children able to stay at school for grades 7 and 8 increase in the number of girls enrolling.

The education reform has lowered costs per student due to the introduction of elementary schools and the moving of Grades 7 and 8 to primary schools closer to children's homes.

Our challenges include improving the number of children who

stay at school through the years of basic education improving delivery of education services in rural and remote areas and obtaining adequate funding to support the reform and match enrolment growth.

Mr Laimo said the National Education Plan for the next ten years, which is ready for presentation to the National Executive Council, identifies these challenges and outlines strategies and activities to address them.

Some of these strategies and activities are; sustainable, affordable and appropriate school fee policy that is fair for all parents and Governments, continued implementation of curriculum reform, quality teacher education and training, attracting enough trained teachers to remote schools, upgrading remote school infrastructure, and the efficient distribution of basic school materials.

# K4.8 billion Budget pass in Parliament

## Finance and Treasury Minister Hon. Bart Philemon

Parliament has passed the National Government Budget of K4.8 billion with emphasis in rural development infrastructures.

Treasury and Finance Minister Bart Philemon handed down the budget on November 16 that plans to achieve a stable investment climate, an efficient, effective and affordable public sector and a competitive and dynamic Private Sector.

The 2005 Budget establishes a framework to stronger economic growth in Papua New Guinea by building on the reforms of the past two years, the Minister said.

"It is pro-growth and pro-development. The 2005 Budget will deliver a better future for Papua New Guineans".

"Our short term policies are framed in a medium-term context and are thus strategically directed towards the economic and social development our nation over time".

"We want to grow the economy, to create jobs, to generate income and to provide services for all our people. We will achieve this through good economic management and sustained reform."

"We will not take the easy way and put up taxes to get more money while leaving everyone worse off."

The Budget contains no new taxes and no increases in existing tax rates instead we will follow the same principles of prudent expenditure management and prioritisation that have worked so well over the past two years," Mr Philemon said.

**The 2005 Budget**  
 ■ delivers a budget deficit in 2005 of around 1 per cent of GDP, as part of the ongoing fiscal adjustment strategy of moving to a balanced budget over

Finance Secretary, Mr Simon Tosali speaks at the Budget Lockup in Parliament 'C' Wing conference room prior to Budget Presentation.

the medium term.

■ Has no new taxes and no increases in existing taxes  
 ■ Increases the state contribution to POSF in line with the transition to a fully funded superannuation scheme.

■ Initiates a program of expenditure adjustment that will see relatively less spending on non-priority recurrent expenditure in 2005

■ Reallocates spending to high priority programs, particularly rehabilitation and maintenance of transport infrastructure, basic education, primary and preventative health care (including HIV/AIDS prevention), development oriented adult education, law and justice, and programs that directly promote export driven growth and income earning opportunities

■ Rebalances the proportion of

recurrent expenditure spent on salaries and goods and services by continuing the public sector right-sizing program supported by substantial structural adjustment expenditures.

■ Continues to improve budget strategy and processes and public finance management, particularly with respect to expenditure controls.

#### Revenue measures

In this budget the government fulfils its promise to discontinue with 2 per cent temporary import levy in 2005.

The Budget also includes the commitment to the continued phased reduction in the mining levy.

The Government will also be continuing the significant tax incentives for the agriculture sector outlined in the 22004 Budget.

He said this policy continuity is an important benefit of political stability and will further enhance investor confidence.

The Government will build on this record through the expansion and extension of current proposals.

In particularly the infrastructure tax credit for agriculture activates will be increased from 0.75 per cent to 1 per cent, to provide increased support for agriculture road maintenance.

The Highlands Highway supplementary tax credit will be renewed for a further three years to support road maintenance, providing better transport infrastructure to facilitate the distribution and marketing of rural products.

Finally, in 2005 there will be a review of the forestry revenue system to ensure that forestry taxation arrangements are cohesive and effective.

#### Expenditure

Mr Philemon said the budget will see additional funds allocated to priority areas and the continued implementation of the Public Expenditure Rationalisation and Review (PERR), in conjunction with a World Bank led group of donors.

More money is provided for law and order, including police, education, health and transport infrastructure maintenance.

He said Provision has also been made for a salary increase for public servants. He said this has been a long outstanding issue and substantial progress has been made.

Government has worked very hard with the union to provide a fair salary increase for government employees, but also on which is affordable and sustainable.

Funding has been provided to pay off the remaining pre-2003 arrears. A substantial amount of this debt was paid off in 2004. Further funding has been provided to pay outstanding court orders.

More funding has been provided to the provinces, with higher funding for provincial wages and salaries, goods and services, and conditional grants. The National Economic and Fiscal Commission will continue to develop proposals for more substantial improvements to the system of inter-governmental fiscal relations.

The Development Budget will see a substantial increase in funding, partly due to the funding of the police component of the Enhanced Corporation Program (ECP) and partly because of the increase in domestic funds provided by the Government.

The Development Budget spending will increase by K522.5 million to K1,888 million in 2005.

Donor grants are projected to increase by around K433 million. Most of this increase reflects the deployment of Australian Federal police under the Government's Enhanced Corporation Programme.

The Government's total direct contribution to the Development Budget, including money provided through infrastructure tax credits, will be K392 million in 2005, a substantial increase on the allocation provided in recent years.

One of the key priorities of the Development Budget is the rehabilitation and maintenance of transport infrastructure. The Development Budget includes counterpart funding for large development projects, including the ADB five Highlands Provinces project, the World Bank Road Maintenance Programme and the AusAid Key Roads for Growth. In addition, substantial government funds will go to the District Roads Improvement.

More money is provided for law and justice. The ECP program should support an improvement in law and order and boos the capacity of the PNG police force to tackle crime.

#### HIV/AIDS

More funds have been provided for health and more funds allocated to tackle the looming HIV/AIDS threat.

HIV/AIDS is a critical development issue which can have major economic and social costs if left unaddressed. Development expenditure for the National Aids Council is budgeted at K10.5 million in 2005.

Funding has also been provided in the 2005 Budget to provide for initial costs associated with the PNG Australia Gas project, for which front end engineering and design has recently commenced.

Sir Moi Avel and Secretary for National Planning and Rural Development, Mr Valentine Kambori at Budget Lockup conference.

This is potentially a very large project, which will bring substantial benefits to Papua New Guinea. The progress in this venture reflects the Government's efforts to build the economy and the increasing confidence in Papua New Guinea's growth prospects.

The Government strategy is to create an enabling environment that will support private sector growth. The three main elements to this strategy to

■ Providing an efficient, effective and affordable public sector and

■ Creating a competitive and dynamic private sector.

The 2005 Budget continued with the prudent fiscal policy of the past two years with a deficient target of 1 per cent of GDP as foreshadowed in the 2004 budget, a steady reprisoisation of

expenditures in line with the MTDS and the continuation of a stable tax regime.

The domestic debt strategy aims to lengthen the maturity of debt to minimise rollover and interest cost risks, while the external debt strategy aims to rearrange the composition of the external and domestic debt ratio, to around 40.60 in the medium term, and to restructure the currency composition of external debt in order to minimise foreign exchange risk exposure.

During 2005 the Government will continue with the Inscribed Stock program to lengthen the maturity structure of government debt. Financial institutions and investors will be given a pre-announce schedule of Inscribed Stock tenders for the financial year.

The Government will also introduce a debt switching program to

complement its debt management strategy in 2005. Under this program holders of Treasury Bills will be allowed to switch to new Inscribed Stocks at the weighted average market yield bid at the auction.

The switching program aims to lengthen the maturity structure of public debt thereby reducing rollover and financing risks.

These initiatives should strengthen government's financial position in 2005.

The 2005 Budget foreshadows a major policy initiative to be undertaken during 2005. The right-sizing program which follows from the Public Expenditure Review and Rationalisation work that has been occurring in 2004, will review the structure of government agencies with a view to making service delivery more affordable and more efficient.

## Infrastructure to be rehabilitated

The Government has allocated K176,261,900 to rehabilitate and maintain the transport infrastructure in the country, Treasury and Finance Minister, Bart Philemon, has said.

Mr Philemon said the government direct contribution to the Development budget including money through tax credits will be K392 million in 2005, a substantial increase on the allocation provided in recent years.

Transport infrastructure is recognised as one of the seven expenditure priorities in the MTDS focusing mainly the Highlands Highway.

The main thrust of the current transport infrastructure program is to enable rural development through service delivery and expansion in the agriculture sector.

This is in line with the Government major policy directive, the export driven economic growth strategy.

Mr Philemon said the Highlands Highway supplementary tax credit will be renewed for a further three years to support road maintenance, providing better transport infrastructure to facilitate the distribution and marketing of rural products.

The government key impact programs are:

■ Highlands highway maintenance and rehabilitation will get K108.1 m

■ Infrastructure tax credit highlands

highway - K50.0m

■ Other roads and bridges maintenance and rehabilitation -K199.2

■ District Road Improvement Programme -K20.0m

■ Airport Maintenance and Upgrading-K14.5

■ Maritime infrastructure development -K38.0m

**Export Promotion and Income Earning Opportunities**

■ Provincial Economic Impact Programme-K10.0m

■ PNG Gas to Queensland Support -K2.0m

■ Petroleum Industrial Park-K0.7

■ Marine Industrial Park-K0.6

■ Agro Industry Development-K8.0

■ Agriculture Research K9.6

■ Tourism AwarenessK2.0

**Public Sector reform and Governance**

■ Provincial Services cadetship K0.3

■ Enhance cooperation Program K502.7

**Access to Basic Education and Health**

■ Human resource development (phase 2) K17.4

■ Health sector improvement program K20.1

■ Funding for aids council 10.5m

## HIV/AIDS awareness allocated K10.5 million

The Government has allocated K10.5 million in its 2005 Budget to assist the National Aids Council with its awareness campaign on HIV/AIDS.

Finance and Treasury Minister, Mr Bart Philemon said HIV/AIDS was a critical development issue which can have major economic and social costs if not address properly.

In the 2005 budget the Health Department is allocated K229, 415 million, from 2004 allocation of K208,540m.

The expenditure framework has now shifted to direct service delivery for rationalised and efficient system, achieving the objectives of the National Health Plan.

The health sector is governed by the National health Plan 2001-2010

which aims to guide programs and activities to improve rural health.

This year the emphasis for the sector remains primary and preventive health care as highlighted in the Medium Term Development Strategy.

The overall goal of the National Strategic Plan is to reduce the HIV/AIDS prevalence rate in the general population to below 1 per cent and at least 1 per cent by 2008 to improve care for those infected and to minimize the social and economic impacts of the epidemic on individuals, families and communities.

Using the Medium Term Expenditure Framework the Department of Health has improved expenditure Planning in the sector through effective resource costing and allocation.

# Agreement signed to fight disease in Western Province

**TOK PISIN** Agrimen long pait agensim ol sik insait long Westen Provsins

An agreement, which aims to fight a disease in Western Province was signed between PNG Sustainable Development Program Ltd (PNGSD) and Australian Doctors International Inc. (ADI) on October 29 2004 in Port Moresby.

The Chief Executive Officer of PNG Sustainable Development Program Ltd, Mr Robert Igara said the company, through its community sustainable development program has approved K247,000 funding to assist the Australian Doctors International implement its ongoing Bednet distribution program in Western province.

He said the purpose of this assistance is to purchase and deliver to Kiunga the treated mosquito nets capable of maintaining its potency to kill mosquitoes even after it is thoroughly washed.

According to Mr Igara, it is a significant and strategic project in Nomad area of North Fly District.

"We are making a greater effort to suppress and eradicate malaria," Mr Igara said.

He said the company would provide the funding and ADI would coordinate the implement the project with other established development partners in the province such as the Catholic Church and the provincial government. He added that ADI would also bring in Australian volunteers for the project.

Mr Igara said the company has committed K15 million over the next five years to support CSDP funded projects throughout the country. Of this amount, K1 million each year will be spent on projects in other parts of the country. CSDP supports sustainable projects that range between K50, 000 to K250, 000 and are focused on benefiting the whole community.

Mr Robert Igara and Mr George McLelland seal the agreement with a handshake.

Nomad has been an area of interest to the company that will benefit directly from this health outreach program, as it is an isolated, less developed region in North Fly District accessible by air.

"We are reaching an area that is heavily populated with more than 15,000 people and has not received social development services such as health and education," Mr Igara said. He added that with the low development indicators experienced in the area especially in the 90s, "we are trying to give them an equal opportunity."

The Nomad Bed Net distribution project will have the following benefits:

■ Reduction in morbidity and mortality associated with Malaria and Filariasis.

■ Improve the general level of health in the community, particularly among the young people taking the community being able to take advantage of education and other developing opportunities.

■ Increase awareness and understanding among communities of the cause and prevention of the disease.

The assistance is timely as the level of morbidity and mortality associated with malaria and filariasis is high.

According to the Nomad Bednet distribution project brief, ADI reported that a survey of grade 9-10 children in Western Province revealed that 40% had filariasis germs burdens. The infection causes kidney diseases, liver damage and immune suppression making the sufferer susceptible to other infections such as tuberculosis and elephantiasis. It depresses children's health, growth and ability to learn and adult's ability to work."

Through this program, ADI will also provide the infrastructure, logistics and assistance to the provincial governments health workers to achieve some of its health goals.

ADI is a non-government organization established to provide health and medical services to people in need throughout South East Asia and the Pacific. All its activities are funded by donations from individuals, corporations and community organizations.

Mr George McLelland who is Treasurer of ADI said: "It is our desire that the people of Nomad will be well equipped to move towards the total elimination of filariasis and the eventual demise of malaria in the region."

## PNG Govt signs partnership arrangement with development partners in health

The Department of Health receives commendation from the Minister for National Planning and Rural Development for its pace in implementing the Government's Sector Wide Approach (SWAP) initiative.

SWAP is a method of a good working relationship between government and development partners, a mechanism for co-ordinating support to public expenditure programs, and for improving the efficiency and effectiveness with which resources are used in the sector.

The Department of Health has already established the Health Sector Improvement Program (HSIP) under the sector wide approach where funding from development partners are pooled to support the Department's priority programmes.

Minister Moi Awei at the signing of

partnership agreement with the Government and Development Partners on the 15th of November congratulated the Department saying Health has taken the lead in implementing government directives for a 5% development growth in the next five years.

The occasion was witnessed by Minister for Treasury and Finance, Bart Philmon and Health, Melchior Pep.

Among other actions the Department has taken so far in translating the first Government's Medium Term Development Strategy (MTDS) for improved services particularly in rural areas is the development of the Medium Term Expenditure Framework (MTEF).

Under MTEF the Department has prioritised its programmes in accordance to resource availability to the most crucial areas of health care.

The signing of the agreement was not a legal document but an arrangement where the PNG Government with Development Partners can collectively participate to how best they can address health issues with resources at their disposal.

The first three Development Partners to sign this agreement were AusAID, NewZealand Aid and Unicef. Sir Moi signs on behalf of the Government.

The Development Partners provide 80 per cent of the total development budget for PNG on an annual basis.

"I am delighted to hear that National Department of Health is now trying to resolve and implement the 'How to get there' question, in light of the enormity and urgency of the health challenges facing PNG today," said Sir Moi.

Sir Moi outlined that under the agenda for recovery and development, the sectoral policies and expenditure

priorities for the health sector are:

1. To focus on primary and preventive health care;
2. To ensure cost-effective delivery of public health programs using the priorities set by 00medium term expenditure framework;
3. To progress implement towards full sector-wide approach;
4. To adopt a multi-sectoral approach to HIV/AIDS, recognising that it is a key development issue in PNG; and
5. To ensure consistency for the National Health Plan and the Medium Term Development Strategy.

"The National Department of Health is aware of these priorities and also well ahead in implementing the medium term development strategy and the reform program of government," said Sir Moi.

Sir Moi Awei said the overall objective of co-operation under this partner-

ship arrangement is to implement the National Health Plan, Health Medium Term Expenditure Framework and the Health Annual Activity Plans through a sector-wide approach that will address the health sector as a whole in planning and management, and in resource mobilisation and allocation.

The partnership arrangement reflects the commitment of all parties and is the foundation of which sector co-operation is built. It outlines the procedures for co-operation among health partners but will not change any pre-existing bilateral or multilateral agreements.

Meanwhile, Minister for Health Melchior Pep in acknowledging Sir Moi's accolades said his department is a pace setter and also a key player in implementing government policies and in reforming the sector to be more proactive an deficient in providing basic health services to the people.

TOURISM

# PNG to open Regional Tourism Office in Aussie

The Government has approved the establishment of a Tourism Promotion Authority Office in Sydney, Australia next year.

In announcing the National Executive Council approval, Prime Minister, Sir Michael Somare, said K4 million has been allocated towards this project.

He said the establishment of the regional office in Australia was part of a wider and specific marketing and promotional strategy, as

Australia remains the single largest source 'market' for Papua New Guinea's inbound tourists.

A further K2 million has also been allocated in the development budget for the development of tourism industries in the country.

Sir Michael emphasized the importance of tourism and added that it is a vital economic sector for the country in the long term, and must be nurtured and developed so ordinary citizens can gain meaningfully in future.

# PNG represented at World Trade Market

Papua New Guinea can expect more tourists from Europe in the near future, following the successful staging of the 25th jubilee World Travel Market (WTM) in London early this month.

Chief Executive Officer of the Tourism Promotion Authority, Peter Vincent and his marketing manager, Jim Yonapiti represented the country at the PNG booth.

PNG's marketing representatives in the Baltics and Scandinavia and Germany, as well as the Trans Niugini Tours and Air Niugini representatives in the United Kingdom, including Papua New Guinea High Commissioner in London, Ms Jean Kokedo and her staff, took part at the travel exhibition.

Information on various aspects of life in Papua New Guinea was exchanged during the exhibition. Papua New Guinea was grouped with Cook Islands, Tahiti and Fiji at the South Pacific Village at the WTM.

Meanwhile, investment opportunities in the country's tourism sector will be show-case during the PROFIT Tourism Investment Seminar in Nadi, Fiji in February next year.

This follows a successful two-day workshop led by PROFIT Pacific team coordinator, Robert Cleverdon in Port Moresby recently.

PROFIT is funded by European Union to promote partnerships between Pacific enterprises in the tourism related industries.

## GOOD GOVERNANCE

## PNG PS initiatives presented at C'wealth countries seminar

Papua New Guinea can continue to actively participate in its public sector reform initiatives following its participation at a recent Public Sector Reform Management seminar held in Wellington, New Zealand recently, Chief Secretary to the Government, Joshua Kalinoe has said.

Mr Kalinoe said PNG was represented by Joseph Sukwianomb from the Public Sector Reform Management Unit of the Department of Prime Minister and NEC.

He said PNG submitted the need for a strong, continuous communication and networking between the countries of the commonwealth as there is a lot that countries can learn from each other.

"Mr Sukwianomb presented Papua New Guineas recent achievements in its reforms which included the concept payroll system, merit based appointments for top public servants, financial reform, the setting up of the performance Management Unit, Service Improvement Programmes (SIP) and capacity building for local level governments," Mr Kalinoe said.

The seminar was held from

Chief Secretary Mr Joshua Kalinoe

October 17th -29th 2004 and was attended by some 25 participants from the Commonwealth.

The Seminar titled: Supporting Public Sector Reform 2004 was aimed at upskilling citizens from the Commonwealth countries who are involved in educating and raising public awareness about reforms.

Participants assisted in the setting up of the Commonwealth extranet, an interactive Internet services that will be developed with assistance from the Commonwealth and Victoria University of Wellington.

PNG has been nominated as one of the moderators for the project.

The project is being set up to extend and enrich the public sector reform initiatives between and within the commonwealth. Access to information, and technical support services can be accessed through the Internet services provided by the Commonwealth," Mr Kalinoe said.

Mr Kalinoe expressed the Departments gratitude to NZAID for its assistance in funding Sukwianomb's airfares to New Zealand.

## Kua attends Pacific Island Fellowship Program for Public Sector reformists

Director General of the Public Sector Reform Management Unit, Bill Kua, is one of the four senior Pacific Islanders attending a school of governance in Australia.

Mr Kua was awarded the scholarship to participate in the 2004 Pacific School for Governance - (ANZSOG) an AusAID sponsored program.

Mr Kua commenced his assignment last month and will return to PNG in late November.

This particular fellowship is arranged as part of an agreement to facilitate public sector reforms for the Pacific Island nations by the governments of Australia and New Zealand.

Apart from PNG, other participating island nations include Solomon Islands, Samoa and Vanuatu.

The period of the fellowship is for three months of residency in Australia.

An arrangement has been made for Mr Kua's attachment with the Department of the Premier and Cabinet.

He will be on this arrangement for

Mr Kua

two months, then he moves on to the campus-based programme of study and research with the Faculty or School of Governance, University of Melbourne.

The Pacific Island School for Governance (ANZSOG) is a new school of governance sponsored jointly by both the governments of Australia and New Zealand who have made a commitment to providing high quality education for senior public servants.

Mr Kua is one in the first group of scholars accepted to attend this course under the Prime Ministers program.

## Fourth CESIP workshop for Southern Region

The fourth Regional Training Workshop for Local Government leaders in the Southern Region was held at the Granville Hotel from 25th-29th October, 04.

The objective of the workshop is to empower community and Local Level Government leaders with information, knowledge and skills to enable proper management and administration of local governments and to strengthen leadership at the sub-national level to improve service delivery.

Acting Director General of the Public Service Reform Unit, Mr James Malagepa, said during the first five years (1997 to 2002) and even up to now, many LLG leaders have been experiencing difficulties in understanding the organic law, the structure embedded in it, and how the new system is to be administered at local and ward level government areas.

He said the Organic Law made substantive changes to the government's power structure, the division of functions, rules and responsibilities, financial and staffing arrangements and the establishment of a new management system at the provincial and local government levels.

The theme of the workshop is "Strongpela Lokol Gavman I rot blong kamapim tru gupela sevis

Central Province Governor Hon. Alphose Moroi escorted by acting Director of PSRMU Mr James Malagepa at the opening of the CESIP workshop for the Southern Region.

insait long wanwan komuniti blong yumi".

The purpose of the workshop is to empower community and Local Level Government leaders with information, knowledge and skills to enable proper management and administration of local governments and to strengthen leadership at the sub-national level to improve service delivery.

About 50 participants attended the workshop which included LLG Presidents, LLG Managers, District Administrator, Provincial Administration staff and representatives from Central Province, Milne

Bay Province, Gulf Province, Oro and Western Province.

Facilitators were from the Department of Prime Minister & NEC, Department of Provincial and Local Government Affairs, Department of Personnel Management, Department of National Planning & Rural Development, Department of Finance, National Economic and Fiscal Commission, Department of Education, Department of Health, Village Courts, Service Improvement Program.

The workshop was officially opened by Governor of Central

Province, Alphose Moroi.

Mr Moroi announced his government strategies to direct all resources to consolidate tangible developments in all the wards and local level government in the province.

He said the administrative structure now advocated by the current provincial administrator will see a revamp local level government administration that will attract the best technical and professional officers as well as staff ceilings that will fully facilitate all sectoral activities in the Local Level Governments and wards.

The Governor said, the trade-off will see a down sizing of staff and resources at the provincial headquarters at Konedobu

The 2005 budget for the wards and LLG in Central Province will be reflective of priority developments that will come from ward development plans.

"It is our greatest belief that only through such an approach the spirit of the reforms can be captured which will result in real development in the province", he said.

He expressed disappointment that the Treasury and National Planning Department give low priority to development projects in the wards and communities and so much effort and attention is being given to sustain Waigani.

"Strategies must now become the order of the day as we must move to rationalise and down size the Waigani public service and shift attention to the wards and LLG areas where development should be taking place to capture the true spirit of reform," the Governor said.

He commended the PSRMU and organiser of this workshop for their insight and urged them to work together to advance the thoughts and issues from today onwards for the effective implementation of the reform process in the southern region and in the country as a whole.

## HEAD OF STATE - GOVERNOR GENERAL

# GG commends churches for health services

Sir Paulias Matane

**Governor-General, Sir Paulias Matane has commended the Catholic Church of Papua New Guinea and other churches for their contribution to the life of the people and development of the country both in the work of bringing the Gospel to the people and in providing education and health care services.**

Sir Paulias made these remarks at the graduation of the Catholic Theological Institute at Bomana, this month.

He said the churches contribute just fewer than 50 per cent of the health facilities available for the people,

and the more remote is the area, the more likely it is that one of churches is provided.

The Churches also provide 24% of all health staff for the country.

"Such pride however will only be authentic if along with it, there is a commitment to being part of your Church's future contribution to the nation, if it encourages you to have confidence in your future ministry in its value for your people and indeed for all our people," Sir Paulias said.

"You the graduands need to have confidence in your future. Your Church and your/our nation: he you to have that confidence", he said.

# Sir Paulias calls for improve road for farmers

**Governor General, Sir Paulias Matane, has called on national and provincial leaders to make road maintenance a priority to ensure that agricultural products get to the markets.**

Sir Paulias said developing the agricultural sector was an integral part of the country's economy and paramount to sound economic growth.

Sir Paulias made the remarks while opening the Morobe Provincial Agriculture Show with its theme "Feed to Farm".

"We must grow more food for our ever increasing population. As our villages, towns and cities either increase in size and population, there is an increasing need for farmers in

the rural areas to increase their production of food crops," Sir Paulias said.

Sir Paulias said Papua New Guinea is capable of growing just about everything that it needs to feed its population and we should be making every effort to make sure this does happen.

"Reliance on imported food products must gradually stop, and local production of quality foods increased"

However farmers are unable to grow food if they can't get it to the markets that require it. Roads in most cases are the only economical and practical way to get agricultural products to the people who want it.

He said the challenge is to become self-sufficient in food production.

# Vietnam Ambassador presented credentials to GG

**The Governor General, Sir Paulias Matane has received the Letter of Credence from His Excellency, Mr Tran Duc Luong of the Socialist Republic of Vietnam on his appointment, as the Ambassador of the Socialist Republic of Vietnam to Papua New Guinea.**

In presenting his credentials His Excellency, Mr Tran Duc Luong said Vietnam and Papua New Guinea are both developing countries sharing many historical and cultural similarities that could serve as a basis for further strengthening the bilateral relations. Vietnam's foreign policy upholds the principle,

"Vietnam is ready to be a friend and reliable partner of countries in the international community, striving for peace, stability, cooperation and development in the region and the world over," Mr Luong said.

He said Vietnamese Government

and its people consider Papua New Guinea as a close friend and always cherish to further enhance the friendship and cooperation between the two countries in both bilateral and multilateral frameworks.

Sir Paulias accepted Ambassador Luong when he presented his credentials at the Government House in Port Moresby on November 9, 2004.

"Papua New Guinea and Vietnam have enjoyed warm and friendly relations since the establishment of diplomatic relations in 1989," Sir Paulias said.

He said Papua New Guinea and Vietnam are third world countries, and share similar problems and challenges in their stride to improve the lives of the people of both countries. Both countries can learn and gain from each other's experiences.

Sir Paulias said the current government of Papua New Guinea has had to address some of the most dif-

His Excellency Mr Tran Duc Luong and Governor-General Sir Paulias Matane.

icult economic issues faced, since Independence over twenty-nine years ago. Despite these hardships, Papua New Guinea has had to endeavor to preserve our nation's sovereignty, strengthen national unity and develop the national economy and improve the living standard of our people.

"The Government therefore is desirous to enter into cooperative framework arrangements with your country in order to increase the level of bilateral trade and investment as well as technical cooperation and training for the mutual benefit of both countries," Sir Paulias said.

"On regional and international

cooperation, I likewise share your Excellency's views with satisfaction that Papua New Guinea and Vietnam have cooperated and worked closely with each other, at various regional and international forums, including the United Nations, Association of South East Asian Nations (ASEAN) and the Non-Aligned Movement on major issues of common interests. I am confident that with the concerted efforts by our two governments, the friendly relations and cooperation that exist between Papua New Guinea and Vietnam will be further developed and advanced into next century," Sir Paulias said.

# GG urge public to help volunteer groups

**Governor General, Sir Paulias Matane, has reiterated his call on the public to give financially or in kind to voluntary organizations in their work to serve the people in the country.**

Sir Paulias said organizations such as Cheshire Home in Port Moresby, Soroptimist International, Women & Children Support Centre, Well Clinic at Angau in Law, the St John Ambulance and others are operating with support from kind business houses and the public in the country and donor agencies.

The Governor General, Sir Paulias Matane, who is Patron of the PNG Red Cross Society was speaking at the Miss PNG Charity Quest early this month.

He said this year the society was privileged to have seven determined young women who have used their talents and dedicated their time to raise funds for the purpose of the PNG Red Cross Society to carry out its work.

It takes great courage and determination to be a contestant and these seven young women made it a commitment to help those in need.

"I would like to encourage that each of them is a winner because you have chosen to undertake the challenges of the quest to instill confidence in your public lives."

The funds generated by the contestants form a significant part of the society's budget required each year to operate the institution in its various programs and services.

His Excellency Mr Tran Duc Luong presenting his credentials at Government House while Director General, Foreign Affairs Protocol Division, Pidwini Tauvali looks on.

## B'ville peace process dependent on B'ville Constitution: Sir Rabbie

The National Executive Council has endorsed the Joint recommendations, and authorised the Bipartisan National committee to move ahead with the aspects of the Draft Bougainville Constitution.

The Bipartisan National Committee on Bougainville recently visited Bougainville for the last round of consultations with Bougainville leaders before the Bougainville constituents Assembly finishes work on the Draft Constitution.

Minister for Foreign Affairs and Immigration, Sir Rabbie Namaliu said the National Government is committed to its side of the Joint Recommendations developed by delegations from the National Government and Bougainville, led by the Minister for Inter-Government Relations, Hon Sir Peter Barter, and the Governor of Bougainville, Hon. John Momis, when they met in Madang and Port Moresby during the middle of October.

Sir Rabbie said "If the Bougainville Constituent Assembly takes a similar view, then most major questions concerning the Bougainville Constitution's consistency with the National Constitution will be out of the way.

This week's meetings will be able to concentrate on other important issues.

"These include some which have critical, practical implications for good governance and the successful implementation of autonomy, such as the need to reduce and manage conflict, not entrench or reinforce social divisions, and for the institutions of government to be modest and affordable, and not use up funds which are needed for such other vital purposes as restoration and development.

"The Bougainville Constituent Assembly's response to these and other issues will have a very impor-

Sir Rabbie Namaliu

tant influence on international perceptions, the Minister said.

"Members of the United Nations Security Council will see the outcome of the Bipartisan National committee's engagement with the Bougainville Constituent Assembly as a measure of our shared determination to move on will all deliberate speed and finish the job.

"The meeting in Buin will have a very substantial influence on the decision they make when we go back and request that the United Nations Observer Mission in Bougainville (UNOMB) be extended so it can fulfil its agreed responsibilities, including its role in monitoring conditions in the lead-up to elections under the Amendment to the National Constitution implementing the Bougainville Peace Agreement.

"At a time of very great pressure on the resources available to support

United Nations peace-related missions, when budgets are tight, the outcome of this week's meeting of the Bougainville Constituent Assembly is very important indeed, the Minister said.

Foreign aid donors will also be watching to see what the implications are for the investments they make through the aid they provide in support of peace-building, good governance and development in conditions of normalcy.

The Minister said "Another very significant factor in shaping international perceptions and decisions will be of a quite practical kind- what is actually being done to prepare for holding elections.

"This is not just a matter of getting the electoral machinery moving in high gear.

"The Electoral Commission has already taken some important initia-

tives in this regard. Ensuring there are free and democratic elections is even more a matter of creating appropriate conditions on the ground.

Completing the agreed weapons disposal plan and destroying the last few guns still held in containers so communities feel secure and free has a crucial role to play.

"In this regard, too, Buin, is at the centre of attention.

Decisive action to get rid of the guns still held in the area would bring the percentage of guns destroyed after being put away and stored under the supervision of UNOMB close to 100%.

The Minister said, "Finalising the Bougainville Constitution an completing weapons disposal are two of the most important challenges facing

the peace progress at this time. Finishing both in Buin this week would send a very strong signal to the international community.

"While there can be no guarantee, it would encourage the United Nations to maintain its support of other aspects of the Bougainville peace process and the transition to autonomy by continuing UNOMB, so UNOMB can keep on helping mutual confidence and security on the ground as efforts to meet such challenges as opening up the "No-Go-Zone" keep moving ahead.

A great deal depends on what happens in South Bougainville this week.

"The challenge of keeping the Bougainville peace process on track and moving ahead is in Bougainville leaders' and communities' hands.

## Rehabilitation of maritime aid system

The Prime Minister, Sir Michael Somare, has announced the National Executive Council's approval for the Government to provide the counterpart funding for the Rehabilitation of the Maritime Navigational Aids System project.

Sir Michael said that NEC has also awarded the Phase One civil contract to Nawac Construction and the Australian Maritime Services Joint Venture at a cost of K14.20 million.

"The project involves the procurement of 160 short, medium and long range lights nationwide, divided into three phases. Part One will include work on light-houses in Milne Bay; Phase Two will cover the New Guinea Islands region will Phase Three will cover

the mainland coastline from Vanimo to Daru," Sir Michael said.

The total cost of the project will be K94m, consisting of K57m loan from the Asian Development Bank and K27m counterpart funding from the PNG Government, at an average of K5.5m per year.

"The Government provided counterpart funding of K4.684m in the 2004 Budget for Phase One and Two, and K5.5m is being proposed for funding in the 2005 Budget as agreed to with the ADB.

"Sea transport has a huge impact on our economy and our prosperity. The improvement of our national lighthouse infrastructure and maritime maps will also greatly improve the safe travel of ships, passengers and goods in our waters," Sir Michael said.
