THE GUARDIAN

Volume 43, Number 2

University of California, San Diego

Thursday, April 2, 1981

This is the second in a series of articles by staff writers Lisa Sullivan and William Hamilton on the rape epidemic that has swept over UCSD.

Two stories, one focusing primarily on

reaction to the first story Monday, and the second about legal precedents and the role of the campus police department in publicizing and dealing with the rape problem, are in today's issue.

Rape epidemic: angry group meets with police

Demand that police release rape figures

BY LISA SULLIVAN AND WILLIAM HAMILTON Staff Writers

Publicity generated by Monday's Guardian articles on the campus rape epidemic have brought two quick responses. First, the problem is evidently worse than

Two more women have come forth with the information that they were raped, and several other unconfirmed reports of attempted rapes have been transmitted to the paper, adding to the 12 known since

And an "emergency" meeting of about 35 men and women and police representative Sgt. Clark Martin was conducted by concerned members of the philosophy department Tuesday.

We need to know, for example, where these things happen, and under what sorts of circumstances. From the stories we've been told, things are happening in broad daylight, in the parking lots and in areas where there have been other people around," said Barbara Winters of the philosophy department.

'We need to know something about those things in order to be prudent, at least, in our

behavior," said Winters.

"We as the police department do not report any crimes. We report nothing. Unless the newspaper hears about it from another source, and then comes to us we will not do that," Martin said.

If a rape victim asks the campus police not to publicize the report, the police department will not disclose details of the incident, he added. "The victim's rights certainly have to be protected.

"We have a form that we will have a victim fill out if she chooses not to make a police report," he said.

A rape victim who would like to alert the campus police about the attack on her without filing a complete police report can obtain the form at the Health Center. It asks for no names or dates, but only the information which the victim would like to divulge.

Martin also cited police statistics on rape which he claims are contrary to those reported in the Guardian.

In 1980-81 so far this school year we've had three attempted rapes and one rape. In 1979-80 we had three attempted rapes. '78-79 we had no incidences reported. And back in '77-78 we had two rapes reported on campus.

"Those are the statistics as reported to us, the only ones we have concerning rape. As you can see, that's quite contrary to what the Guardian reported this week," said Martin.

The article stated that "the Campus Police Department disclosed last Friday that one actual rape and two attempted rapes have been officially reported at UCSD."

Guardian reporters learned from other campus officials that there have been at least 12 rapes, or attempted rapes, please turn to page 8

Duarte case: police must publicize rape

BY WILLIAM HAMILTON AND LISA SULLIVAN Staff Writers

Amidst cries of negligence and concealment of the rape epidemic, the most severe criticism is of officials who refuse to tell what they know about the problem.

A morbid precedent forcing revelation of rape information has arisen from an incident at San Diego

State University in 1974.

Tanya Gardini, then a first-year student at SDSU, was raped and murdered in her dormitory room at Zura Hall by a Navy enlisted man, who subsequently confessed. He is currently serving a life term in

The decedent's mother, Yvonne Duarte, filed suit in Superior Court on Oct. 14, 1975, naming the State of California, CSUSD and Does I-X as defendants.

The complaint alleged that prior to the rape and murder of Tanya, the university was aware that there existed a chronic pattern of assaults, rapes and other attacks on women in the university community, and that not only was the situation alarmingly epidemic, but it was also escalating. Despite this foreknowledge, the

plaintiffs contended, the university failed to take responsible precautions to reduce the hazard and to protect the residents in the univerity dorms, or to warn the students or train them to protect themselves

The plaintiffs further complained that not only were the university and the campus police department aware of the increasing pattern of violence and rape on campus, but that they actively engaged in a pattern of covering up these crimes so that the true extent of the violence on the campus was not publicly known.

It was also contended that the university negligently represen-ted the safety of its campus and dormitory in its residence hall publicity and by its failure to apprise students of the true security situation.

The university filed demurrers which were sustained without leave as to all causes of action. Duarte and her attorney appealed.

In March of 1979, Appellate Court Judge J. Staniforth, writing the majority opinion reversing the Superior Court dismissal judgement, made the following comments about the circumstances and allegations in

It is alleged that the university please turn to page 6

Police want out of demonstrations

Chief French says deans should patrol disruptions

BY JENIFER WARREN
Staff Writer

Campus Police Chief Hugh French suggested Tuesday that his department get out of the business of policing student demonstrations.

"We, as police officers, had very few alternatives to the way in which we handled the Mandeville situation," said French, referring to the forcible removal by campus police of students staging a peaceful protest at Mandeville Auditorium last October.

"That same scenario might have been very different had it been handled by student affairs admini-strators and I'd just as soon get out of that business, French said.

The Chief appears to have considerable support from students and administrators who believe police need only be summoned should a demonstration become inflammatory.

"My experience over 30 years has been that students on campus in these demonstration situations will listen and react more favorable to student affairs administrators than to law enforcement officers," said

Vice Chancellor of Student

Affairs Richard Armitage. "I would really endorse the idea of reducing police involvement at demonstrations and increasing the administrators' role if we were sure to have trained security forces quickly available, in case danger to life, limb or property should

arise," said Armitage.
And Associated Students
Commissioner of Student
Welfare Reggie Williams sees no need for police presence at demonstrations which are peaceful in nature.

"In a situation where there is a threat of destruction of property or the possibility of harm or a riot erupting, I see a legitimate place for police,

said Williams.
"But if there is no evidence of violence or criminal activity, there is really no reason to have them (police) there, especially taking pictures and committing other antagonistic acts."

But French and his suggestion have some vocal

opponents.
"I don't want to see student affairs monitoring please turn to page 11

Armitage assures Daycare posts

Will fund two CETA workers; gets Reg Fee support

Vice Chancellor of Student Affairs Richard Armitage has given his assurance to Daycare Center supporters that registration fees will fund the center's two CETA positions facing the Reagan

budget guillotine.
And Reg Fee reversed its decision not to fund the two positions at its last meeting in March.

Without the two positions, the center could lose state funding contingent on its child-adult ratio. The state provides most of the center's budget.

The Reg Fee committee voted in early March not to fund the two positions, but Armitage said yesterday that he was "amazed" at that early decision, and decided immediately to over-ride thier recommendation (they are his advisory committee). "Why the hell hold a

referendum if you don't pay any attention to them?" he said.

A referendum on campus three years ago found overwhelming student support for both current and increased levels of funding by Reg Fee for the center.

Armitage's decision has

been endorsed by the Reg Fee committee, which reversed itself Thursday of the 10th week last quarter.

"A lot of factors caused us to change our mind, committee chairwoman Cathy Valerio said.

For one thing, everyone on the committee was there the second time.

"For another thing, the committee knew that Armitage was going to fund it, and that played a role in making up a lot of minds.

There was also a lot of pressure from people at that meeting to fund Daycare. I think they were raly rude, because we weren't even going to consider Daycare that day, but we could have considered it again later.

"Anyway, they knew they had the money," Valerio added.

A crowd of parents turned up at the meeting, asking for reconsideration of the committee's early decision not to fund the CETA workers.

Graduate Student Council Chairman Christopher Ajagu wrote a letter to the Daycare parents deploring their please turn to page 22

-Commentary

Union leaders rein in rank-and-file activism

BY PATRICK MARSHALL SAN DIEGO — When executive officials of the AFL-CIO gathered in a Florida resort hotel last February, much of their talk focused on the hard times expected under a stridently pro-business Reagan Administration. Their answer to these troubles, as announced by AFL-CIO president Lane Kirkland, was that labor should be more active in

national party politics. If the convention had been held in San Diego instead of Florida, and if the executives had ventured down to San Diego's bustling shipyards, they might have found an even greater threat to their leadership than that posed by an anti-union administra-

Workers at San Diego's giant National Steel and Shipbuilding Company (NASSCO) have, for the past (NASSCO) have, for the past economy gets tight, they year and a half, been start telling us how we've

-letter-

Apartment sign-ups a mess for students

Another university dministrational department has finally outdone the Financial Aid Office in its ineptness and ability to create chaos. I am referring to the dispensing of 'Reservation Contracts' for the summer apartments at Third College several weeks ago. I have included the quotation marks because what was actually distributed could never be termed a contract. Let me describe to you what the original Housing Office instructions were as to the distribution of contracts:

-Go to the Housing Cashier on Wednesday, March 11, and starting at 9 am, reservation contracts will be given out;

-The contracts will be given out on a first come, first serve basis, starting at 9 am; —The apartments must be

secured by a deposit of \$45, payable on that day, when the contract is given out; -The first 172 men and

152 women who secure the contracts are guaranteed a space as long as they continue to qualify for the program, return the contract on time, and pay the final \$300 by June 5. Now, let me describe what

actually occured. Because of the popularity of the apartments and the reasonable rates charged for summer rent, students began lining up outside the Housing Office two days prior to the day the contracts were given

The housing administrators, because of the visibility of a line of students outside of their office, handed out index cards the afternoon prior to the day stated in the instructions outlined. To compound this grave opportunity to acquire a violation of stated policy, the students were told that, in addition to writing down their own name, address and phone number, if they knew anyone else interested in the

embroiled in a struggle with management over wages, safety conditions and other

And the young and largely third world workers at NASSCO — along with a growing number of workers in other unions around the country - consider their own national leadership to be as much an enemy as the company management.

"The International is supposed to be like a lawyer for us," says Ironworker Manual Escavara, in halting English, "but when you need them they kick you in the butt. They're just there to take our dues.

"Kirkland and the other leaders at the national level have lost touch with the workers," explains Miguel Salas, the 28-year-old leader of an activist group of Ironworkers. "As soon as the

apartments, they could put their name down, too. And not to exclude all flagrant errors committed by the Housing Office, the students themselves to a \$45 deposit at that time, but could pay the deposit by Friday, March 13. Putting it lightly, the Housing Office really blew it this time. Let me summarize the chronology of their mistakes:

-Chose the dates for giving out the contracts one week prior to finals, hardly a time in which students can 'camp out' for housing;

-Gave out the 'contracts' one day prior to the advertised day;

-Let one person sign up for others who may be interested in spirit, but were not there in body;

-Did not require those signing cards to commit themselves financially with a \$45 deposit at that time.

Clearly, another procedure must be used to handle the problem of contract distribution. The procedure must give all students an equal opportunity to acquire an apartment. A lottery system, or room draw, is one possible

As for compensation for those students who were denied an equal opportunity to acquire an apartment, I ask for the following: that the Third College Townhouse Apartments, Muir Apartments or Warren Apartments be opened up to those aforementioned students, on a lottery basis.

I would also like to urge other students, who also feel they have been denied a fair summer apartment, to also seek compensation for the loss they have suffered because of the incompetence of the Housing Office.

Lisa Roche

just got to cooperate with management. In the end, it's the rank and file that suffers. And the rank and file is developing anti-union tendencies, because they're seeing that their unions aren't doing anything for

While diminishing success in contract negotiations, coupled with seemingly endless charges of corruption leveled at major union officials, has bred increasing apathy among workers across the nation, the greater challenge to national union leadership is coming from the young activists like Salas who believe strongly in the labor movement but feel that its leaders have betrayed the principles of unionism under trusteeship, all of its affairs are handled by the

"We're seeing a widening split between the young and old union leaders," says Amy Gladstein, a New York labor lawyer. "And increasingly, the conflicts are ending up in the courts.

West Coast labor lawyer Dan Siegel has also seen a surge of conflicts between locals and their national organizations, which have substantially altered the very structure of some unions. "Ten years ago there

wasn't enough trusteeship

activity to keep a lawyer busy

union have been abused.

AS Constitution outmoded, does not represent students fairly

My involvement with the AS over the past 15 months has brought me to one overriding conclusion: Fundamental changes in the institutions and processes of student government are essentia

The present structure is simply incapable of generating and sustaining serious analysis and commitment, a sense of purpose and possibility, to the objective of furthering student participation in the governance of this university. For this reason, I am presenting to the student body a proposal for a whole new Constitution for the Associated Students.

I would like to outline my reasons for coming to the conclusions I have about the current AS structure, and explain how my proposed Constitution would address

1) The lack of representation in the present Associated Students.

Currently, AS officers are selected in ways that students do not recognize as reflecting their central reason for being here. Unquestionably, the vast majority of students place primary emphasis on their relationship to the academic discipline they have chosen to pursue. While this may at first seem self-evident, it should be recognized that UCSD students have consistently displayed a level

of commitment and achieve-

ment that is indicative of a

much deeper concern for the academic side of life than can be simply presumed. Fundamentally, what is

needed is a student government that in its very structure reflects the students concerns and commitments-a government that reflects their priorities. For this reason, I am proposing the selection of AS Council representatives by academic major. Every academic department or program regularly offered as a major area of study would be guaranteed one representative. A maximum of six could be selected depending on the number of students in that major. This will both expand the size of the AS Council and greatly enhance its degree of representation. 2) College representation needs to be bolstered.

The present structure does not provide for significant participation of college representatives despite their numbers on the Council. I emphasize that this is a structural weakness and not a flaw in the character or quality of college representatives. Nevertheless, recent AS governments have consistently bemaoaned the lack of active college representation of the AS

The new Constitution would expand the number of college representatives from three to four. More importantly, the Constitution provides for reps from each college to be on all four

standing committees and insures that a college rep will chair those committees. Thus, college reps will be placed into positions of leadership and authority, facilitating their active and informed participation.

3) The lack of coordination between the several areas of student participation in

Student control, participation and authority is dissipated by a structrual failure which does not provide for effective coordination between the various areas of student governance. I am thinking specifically of the Student Center and Registration Fees as well as various committees dealing with the administration of services (e.g. Housing and Food Services Committees).

The new Constitution would create a standing committee of the AS Council to deal specifically with student participation in governance. One of the committee members would serve on the Student Board, another on the Registration Fee Committee. This would provide the necessary institutional structure for coordinating the student government with the two major areas of student control over the administration of services and facilities.

appropriate division of functions between a legislative please turn to page 3

AS Constitution in need of revamping

continued from page 2. administrative body.

Thursday, April 2, 1981

There is a need for a highly representative body with ultimate responsibility for allocating student funds and passing other legislation on issues of concern to students. Simultaneously, there is a need for an executive body comprised of highly function specific positions with responsibility for administrating and coordinating broader issue areas that effect students. The current AS structure combines and confuses

these two functions. Finally, there is need for a high degree of coordination and cooperation between the legislative and executive bodies. The new Constitution would address these needs by establishing a bi-cameral government structure, with both an AS Council

and an AS Cabinet. The Council is comprised of academic major representatives and college representatives. The Cobinet consists of commissioners selected to deal with specific issue areas. Coordination byetween the two is effected by a committee structure within the AS Council where Cabinet members have full voting

This highlights some of the major problems with the curent AS structure and how they would be addressed by the new Constitution. I am committed to making substantive change so that future AS governments can get the process of student governance back on the right track. I urge all of you to set aside negative feelings about

continued from page 2 when the International feels that a local is getting too active on its own and is

Department of Labor statistics confirm Siegel's impression that Internationals are increasingly resorting to trusteeship by their national organizations. Just after the recession in 1973, the number climbed over 200. And by 1980, more than 230 locals were being placed under trusteeship each year — an increase of 62 percent in only 10 years.

'The imposition of trusteeship is a drastic step,' says Siegel, "and when the International does it simply generate a lot of hard

unions — the Ironworkers and the Machinists — were placed under trusteeship. Salas, who had been fired from his position as Ass't position of the local in elections last December. trusteeship and seize control the day before he was to take

Bourg, attorney for the International, trusteeship was imposed for several

to maintain control it can

Hard feelings were in clear evidence when, last January, NASSCO's two largest Business Agent of Ironwor-kers Local 627, ran for the top Salas won the election only to see the International impose

According to Victor Van

Union leaders curb activism

"One major reason, says Van Bourg, "is that the local conducted strikes without approval of the International, which they must have. Another reason is that we had serious questions about the election in December. Two thousand out of 3,200 Ironworkers in the local didn't vote.

According to Van Bourg, the most pressing reason for trusteeship was that the elections did nothing to cure problems of factionalism in the Ironworkers local. "So many different groups were running for leadership that Salas was elected on only 300 of the 1,200 votes cast," said Van Bourg. Salas believes that the real

reason for the trusteeship was that the international has had a cooperative relationship for years with NASSCO and waited to make certain there would be no strikes in September when contracts come up for renegotiation.

This is the only shipyard in the nation with an Ironworkers local," says Salas. "Even the other unions tell us that the way the Ironworkers got into the yards at NASSCO was through sweetheart deals designed to keep the metal trades out.

Whatever the International's motives for placing the union under trusteeship

the action only served to unite the workers in the vards - and not just the Ironworkers and Machinists.

"No union member likes to see his union put into trusteeship," says Jerry Day, Chief Steward of the Carpenters union. "All the unions are supposed to have a democratic process. They're supposed to belong to their members and work for the worker. That isn't what's going on here.'

But while trusteeship are on the rise, that's not the only tool many national unions have been using to keep rebellious locals in line. Robert Fram, spokesman for one of the largest and most active dissident factions in any union — Teamsters for a Democratic Union (TDU) points out that trusteeship can often backfire on the international

Since trusteeships can only be maintained for 18 months, as stipulated by federal law, a strong activist organization can just use that time to organize better, he says. "The trusteeship alienates a lot of the drivers. When they lift it, there we are, with more members than

According to Fram, the Teamsters leadership has found other more subtle ways to maintain control. "The rank and file doesn't get to elect its own national

Department of Mathematics announces new courses for Spring

Math 163 — History of Mathematics MWF 9 am, APM 2313 Anil Nerode

Intended for undergraduates with at least one term of calculus. The course will be taught from the original sources in translation, starting from Babylonian, Egyptian and Vedic times (5000 B.C.) to 1800 A.D. Authors studied will include Euclid, Archimedes, Bhascara, Al-Khwarismi, Omar Khayyam, Oresme, Galileo, Cardano, Cavalieri, Descartes, Barrow, Newton, Leibniz, the Bernoullis, Euler and Lagrange. The unifying themes will be the histories of algebra and analysis. Half of the lectures will be actual mathematics of the times with homework problem sets in the spirit of the time. There will be three exams

The text is: D. Midonick, The Treasury of Mathematics, Philosophical Library

vor Thomas, Greek Mathematical Works, vols. 1 & II, Loeb Classical Library

Math 263 — History of Mathematics MWF 11 am, HSS 2154 Anil Nerode

Intended for graduate students in the mathematical sciences. This course will be devoted to the history of mathematics in the 19th century from the original sources, with emphasis on the history of the foundations of analysis and of the foundations of commutative algebra. For algebra, the authors studied will be Lagrange, Ruffini, Gauss, Abel, Galois, Dirichlet, Kummer, Kronecker, Dedekind, Weber, M. Noether, Hilbert, Steinitz, Artin, and E. Noether. For analysis, the autors studied will be Cauchy, Fourier, Bolzano, Dirichlet, Riemann, Weierstrauss, Heine, Cantor, Peano and Hilbert. If time permits, a sketch will be given of the history of probability and statistics from

The texts are: Birkhoff, Source Book in Classical Analysis, Harvard University Press. Edwards, Genetic Introduction to Algebraic Number Theory, Springer-Verlag. Bourbaki, Elements d'Histoire des Mathematiques, Hermann (Paris). Dieudonne, Abrege d'Histoire des Mathematiques, Hermann (Paris).

Sex ed. for young may help us

Depression of children a real sin, Calderone says

BY PAUL FARWELL

"Johnny," says the woman waiting in line at to be a sexually responsible spouse." the supermarket, "You know that's not for here; it's for the car and for when we get

The three-year-old sheepishly pulls his hands out of his pants.

While this may sound like an unusual parental response to a child's masturbation, Dr. Mary Calderone, noted psychologist/sexologist recommend that parents allow their children to masturbate - but she adds, not in inappropriate places.

Calderone addressed this and many other topics in the area of childhood sexuality during her lecture Tuesday night, "What Made You The Sexual Person You Are Today?" that was designed to help college students understand the roots of their own

While Calderone spoke on a "topic that is (traditionally) untalkable," she handled it with flair, managing not to discomfort the large crowd composed mostly of middle-aged couples assembled in the Revelle cafeteria.
"What we are given at birth is for use then,

in an appropriate way," Calderone said, summing up her basic assumption that humans are born as sexually active beings. Furthermore, she stated, "I can't believe the 'right' way to handle (this inherent sexuality) is to 'knock it out' of the baby's system.'

Calderone advocated a more extensive program of sex education than is presently taught in the public school system, since children now reach sexual maturity earlier than in the past. In fact, she said, a child is now often capable of reproduction at nine or

Calderone criticized the lack of communication between parents and their children. "We as parents," she said, "don't realize that we are raising a son or a daughter

She later noted with humor that parents

hemselves often cannot communicate between themselves, and that "if sexual partners can begin to talk (between themselves) in terms of verbal intimacy it is easier to communicate with the child later

Several times during the lecture, Calderone criticized the Moral Majority. She often called members "liars" who "destructively oppose" sex education.

Apparently, the Moral Majority ran a full-page advertisement in an Arkansas newspaper claiming that SIECUS (Sex Information and Education Council of the United States), Calderone's organization, was teaching children to masturbate in the classroom, teaching them to mold penises out of plasticene and to make homosexuals out of

Calderone later quipped, in indirect reference to the Moral Majority, that deprived children often grow up to be deprived adults who gain satisfaction out of depriving their own children of sex education.

Several times, Calderone stressed that interference with a child's sexual development creates problems in later life. To Calderone, sex is analogous to language: "Every time we punish our child for doing a sexual thing, it's really as if we were saying to a child that's learning to talk, 'shut up.' And if we keep punishing that child, he'll never learn

Calderone brought up several other interesting facts from her research on sexual

Rape info lawsuit at SDSU

continued from page 1 failed to warn and concealed the true state of affairs concerning rapes and assaults upon students. A reasonable inference here is that no security devices were instituted, let alone minimal safety precautions such as waring off the degree of danger. The University allegedly has superior knowldege and also the means of inistituting some reasonable protective measures.

"Tanya herself, it is here represented, could not purchase and install security devices or hire a private police force; she could not possess a dog or firearm.

"An obligation arose to provide such protective measures as were within the university's reasonable capacity to thwart or diminish the possibility of a forseeable rape.

... The university failed to take responsible precautions to reduce the hazard and to protect the residents in the university dorms or to warn the students or to train the students to protect them-

"Duarte's reliance upon their (the university's) false representations and the approximate dangers are appropriately alleged.

The State's demurrer partially relied upon its immunity as a sovereign entity.

"The doctrine of sovereign immunity-the concept that the king can do no wrongmust in this last quarter of the 20th century be viewed in light of the Supreme Court's expression in

'When there is negligence, the rule is liability; mmunity is the exception!"

The Court found that the complaint correctly alleged that the university had a 'duty of care to provide reasonable security from foreseeable criminal acts against student tenants by third-party intruders," a duty arising due to the fact that they were "on notice" as to the likeleyhood of potential harm to persons who essentially submitted their security to control by the

The implications of this case are important for the UCSD community, because similar contractual obligations arising between resident students and the University of California as a result of living in campus dormitories exist, as well as does the potential for a similar lawsuit.

Duarte has been remanded to the Superior Court for settlement judgement. The disposition of the Court may have far-reaching aftereffects on policies of the nation's colleges and universities where security matters are concerned and may well redefine the obligations of the university to ensure the safety and security of its own.

Women's Auto Mechanics

Taught by Vicki Hayes Every Saturday 10:00 am to 2:00 pm Only \$2.00 per session! Sponsored by the Women's Resource Center.

Meet at the Women's Resource Center at 10:00 park by the International Center. Learn how to give your car a tune-up, oil change, etc., and learn basic mechanics and upkeep for your car.

There will be nine sessions. Come to 3 or come to all 9. For more information, call the Women's Resource Center at 452-2023, or Nancy Helgeson at 455-0689.

Faculty and Research Specialists Do you have answers to the following questions? You may use your books. Proposals due May 1, 1981.

- 1. What will be the effect of oil deregulation on California's
- 2. Given the state's natural resources, what is the maximum population California can support?
- taking into consideration total food and profit value.
- 4. How do other industrialized, capitalist countries (e.g. Germany) finance mass housing?
- 5. What large scale applications of solar energy are possible for California (aside from residential)? 6. What actions could the state take, including legistaltion and general strategy, that would assist enterprises, including our ports,
- that are engaged in international trade? 7. What are the health effects of solid waste disposal? How may it be used as an energy source, and what other alternative
- uses exist and are feasible? 8. What actions has California taken to support its small businesses? What additional actions could be taken?

If you have other/better questions with different answers, feel free to write to us. Your ideas will be evaluated by the California Policy Seminar, a joint UC-State Government program. The most promising proposals will be considered for funding at \$50,000 over a two year period.

For further information, call (415)642-5514 or write to the California Policy Seminar, Institute of Governmental Studies, 109 Moses Hall, Berkeley, CA,

Crowd meets with police

continued from page 1 unreported, since January, and five in March. Martin admitted the possibility of at least five rapes in March. The article did not accuse the police of witholding information about officially reported rapes.

The Guardian has since learned that a woman jogging by the Mesa Apartments on the morning of Oct. 8 (6:30 am) was attacked and forced to orally copulate with her

According to the victim, who wishes to remain anonymous, the incident was reported to campus police, with no request that it be kept quiet. However, when a neighbor phoned campus police just four hours after the incident to see if police knew about it, they denied ever hearing of it.

Also, a juvenile suspect, implicated in area-wide sex crimes, was arrested and convicted in connection with assaults and rape, at least three of which occurred at UCSD, according to Sgt. Tipton of the SDPD North County Juvenile division.

Tipton is especialy concerned about the increase in sex crimes in areas adjacent to the campus.

The risks of child molestation is of special concern, given several uninhabited areas routinely used for egress by children walking to school. Several indecent exposures have already occurred.

According to Tipton, the woman at Mesa was raped in territory that is part of the campus police beat. The initial report was made to the campus police, and then to SDPD, he said.

Sgt. Larry Kenney of the SDSP's sex crimes division, says that information about rapes at UCSD should be forwarded to his department, as most attackers are unaffiliated with UCSD.

How many reports had been filed with his department since September by campus police? 'None so far," Kenney

Building Security

Although there are four officers probing campus buildings each evening to make sure that doors are tightly locked, Martin said, "I don't believe there is one building on campus that is

The police report all broken locks to the maintenance department each week, "but they are not going to get fixed until the people from the department go over there and say 'Damn it, we want out door lock fixed.

Martin believes that enlarging the campus police staff would not be a costeffective solution to the rape epidemic, but said that the department plans to add a full-time crime prevention officer to the staff.

Even with such an officer, Martin stressed that the please turn to page 12

Brown proposes limits on regent stocks

Bill would outlaw regents owning stock held by UC

BY RICK DOWER

Thursday, April 2, 1981

Assembly Speaker Willie Brown, embroiled in a battle to become an appointed UC regent, Tuesday submitted a bill to outlaw regents from holding any investments that the University also has an interest in.

Brown's legislation, announced during a capital press conference, states that a regent shall not have an ownership interest in any corporation or business in which University funds are invested.

"That's the price you pay when you're in public office," Brown said.

The University of California currently holds a vast retirement and endowment portfolio of mostly blue chip stocks worth around \$1.5

The stocks are in major companies such as IBM. Exxon, Standard Oil. BankAmerica, AT&T. General Electric, Dow Chemical, General Mills and other corporate giants.

A number of UC regents also have substantial holdings in some of the same companies, according to financial disclosure documents on file with the Fair Political Practices Commis sion (FPPC).

Brown's proposal coincides with the April 1 deadline for the regents to file their annual disclosure statements with the FPPC.

Brown said he wasn't sure of the magnitude of the problem and conceded regents probably do not violate the conflict of interest ethics code.

UC's investment policies are formulated behind closed doors and regents usually voluntarily abstain from voting on stocks in which they have a conflict of interest.

Still, Brown, who has sat on the regents investment committee since his Septem-

ber appointment to the board by Gov. Brown, said regents should not be allowed potential advantage to the university. influence their own invest-

"We (the regents) do some incredible investing," Brown said. "At one breakfast meeting I attended we moved around \$300 million in stocks in just a few minutes."

He suggested there are enough investments opportunities in the US that the

ments' value through their

position with the university.

regents should have no trouble finding adequate investments not related to

Brown still is bound to be opposed to the regents, who fought strenuously against the FPPC rule, requiring them to disclose their financial holdings, that took effect last year.

Ironically, Brown himself has been identified by the FPPC as having a potential conflict of interest between his roles as a high-paid San

Francisco lawyer and a state legislator for representing his clients before public

One of those clients is the Carter Hawley Hale Department Store chain, whose chairman of the board is Regent Edward Carter.

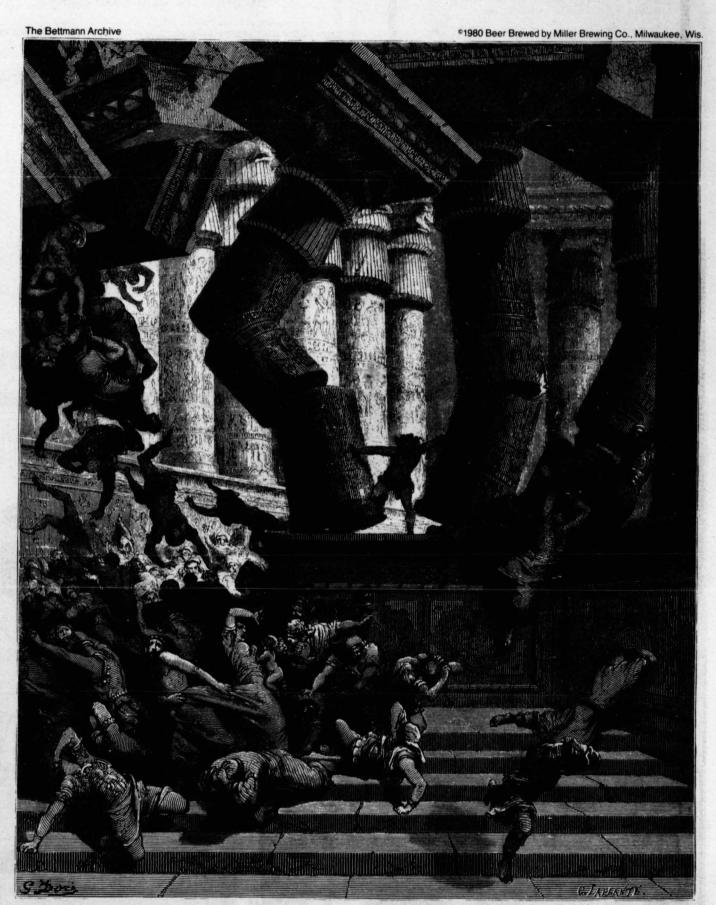

Brown is also trying to become the first legislator to fit on the Board of Regents as a long-term member, despite the Attorney General's findings that it would be unconstitutional because of a

possible conflict of interest.

Among other reasons, the Attorney General said that the Governor cannot appoint a legislator to be a regent because it could be used as a political payoff for helping the governor.

Brown shrugged off any comparison of his own alleged conflict of interest with what his regents bill seeks to accomplish.

"They're not even in the same ball park," he said. "In no way is there any

Rape epidemic: 'emergency' talk

35 complain about police, campus prevention efforts

obtain solid evidence of an attack before they can make until we are satisfied that 99 an arrest. "Unfortunately," he said, "Ninety percent of the evidence in a rape case is of the philosophy departon the person and the ment.

your body. We're not going to try to kid you that there's not a certain amount of indignation that goes with the examination you go through at the hospital." But counseling services, he said, are provided during the

Adequate lighting and the people responsible for perhaps by the university. adequate lighting present another problem at UCSD. Rape Prevention Education Koerper said at the meeting.

RPEP members took out of operation.

When Koerper reported Koerper said. this to the Physical Plant, she said, "we were told we did not have the expertise to know functioning or not function-

campus architect Chuck Powers, who is working on

police department must ing is that this committee go on these tours quarterly, percent of this lighting is fixed," said Barbara Winters

"An emergency phone "It's on your clothes and on system is also in the works," said Winters. "All pay phones will be converted to a system by which the emergency number 911 can be dialed without the insertion of a coin."

Several people at the meeting urged that more selfdefense courses be offered on campus, to be subsidized

Currently, there is one selfdefense course offered at UCSD, subsidized in part by Program Director Joan RPEP. The course costs \$30 and can only accomodate 15 students. If there is enough "lighting walks" last year demand from students and counted over 200 fixtures willing to pay, there might be second course added,

The California State Employees Association has completed plans for a free whether a light was course on self-defense. according to staff member Marietta Williams, and will These back reports are ask Chancellor Atkinson for now being searched by extended lunch breaks so tht they may attend this course.

The need for a wellorganized well-funded escort

service was another focal point of discussion at the

Joe's Escort Service, an ASfunded organization providing evening escorts for women on campus, was forced to stop service last quarter due to inadequate

AS advisor Randy Woodard says that \$10,000 would be needed to reinstitute it.

The Office of Graduate Studies and Research is considering the appropriation of \$3,000 toward a new escort service.

Koerper's program also had budgetary problems. It needs money from the Registration Fee Committee, which meets today at 3:30 pm to discuss the allocation, and from the Council of Provosts.

Reg Fee chairwoman Cathy Valerio said yesterday that her committee would probably approve the request.

RPEP is currently funded by the Law Enforcement Assistance Administration which will fold as a result of a last-minute Carter edict in Rapes

At the meeting, Martin, who says he has never dealt with a rape victim, answered questions about rapes and one rape reported to the police in the last six weeks.

Marti released some deatils at the meeting of each of the attempted rapes reported this Feb. 13, at 5:05 in the

afternoon, a woman in the University Events Office was almost raped by a Black make, 20-25 years old, about 6'0" tall, 150 lbs, wearing white shorts and a T-shirt. March 18, at 8 pm in the

lower Muir parking lot 2-B, a woman leaving her car was assaulted by a man with a gun tucked in his pants who told her to get back into her car. She resisted and hit him with her keys and he said, "Oh, excuse me, I didn't know you were..." and then

March 21, about 11:45 am in the wooded area across from the Central Library, a woman walking to her final exam that Saturday morning was attacked by a man with a knife. The woman was able to struggle loose but the

"In all three of these (attempted rape) cases we have no leads and no further suspect information than what they've given us," said

The rape occured March 12, at 12:45 pm behind the Basic Science Building when a woman was viciously beaten and raped by two men described by the victim as a male Mexican and a male

Cultists studied

The spring quarter 'Adventures in Research' lecture series will get underway Wednesday, April 8, with a talk by Bennatta Jules-Rosette, chairperson of the department of socilgy. Jules-Rosette will discuss

'A Comparison Between African and American Religious Cults" in an illustrated noon lecture in Conference Room 111A, Administrative Complex.

Jules-Rosette earned her doctorate in social relations at Harvard University and has spent considerable time doing field research on religious movements in the African countries of Zaire and Zambia. More recently she has spent time in the San Francisco Bay Area doing research on American religious cults.

Her talk is prt of the continuing "Adventures in lecture series Research' which gives the university community and the general public an opportunity to learn more about current research projects at UCSD.

Three more talks are scheduled for the spring quarter. On April 22, Dr. Moira Roth of visual arts will discuss comtemporary women's art; on May 13, Dr Gilbert Hegemier of applied mechanics and engineering sciences will talk abut structural safety and earthquakes.

turn dance into visual poetry. Since its beginning eight years ago, this company has become one of the most successful and exciting touring companies in the nation. The core of their dancing is classical ballet, but they take this one step further, adding to their balletic technique a more innovative style of modern

Michael Uthoff, artistic director of the sixteen member company, has propelled the Hartford Ballet into high standing in the American dance world. He has contributed to their repertory with intelligence and sensitivity. Uthoff is a native of Chile. He danced formally with the Joffery Ballet and the Jose Limon Dance Company. His choreography reflects the diversity of his background. His dances show a unique sense of style and understanding, not flashy or indulgent, but rather content to stimulate. The dances range from light shadowy enigmatic suites to more bold forms of dance with clear cannonic

The Hartford Ballet, set for patterns reminiscient o

> Sunday night the Hartford Ballet will perform four pieces. Two are choreo-graphed by Uthoff, one by Lotte Goslar and one

Balanchine. One of Uthoff's pieces, "Tom Dula," is a narrative ballet based on the Victorian tragedy of Tom Dooley. Dooley was hanged for the murder of his former lover when everyone suspected his jealous fiancee committed the crime. Here Uthoff has combined drama and dulcimer music into the dance. Goslar's choreography in "Leggerios" is, on the other hand, light and humorous. He has written a scenerio for Beet hoven which is witty and occasionally slapstick

God, Devil Drink Beer

Thinking no thoughtsother than what's for dinner, Satan removed the pencil sharpener from his left horn, rubbed the newly honed point with a fingertip and then leaned back in his chair, pleased with himself. God shot a glance at him and smiled bemused with his friends unconceiled narcissism and then returned to the boxing match on the TV. A glabby Muhammad Ali, attempting yet another comeback, was getting the hell beaten out of nim by a twelve-year-old girl in pigtails who was bashing him in his puffy face with a Raggedy Ann doll. God pulled a slug from his Coors and snapped the cable remote to channel L3, to a movie called Invasion of the Velvet Fog, starring Mel Torme as a lounge singer who goes beserk after overdosing on steroids. On the screen,

Bare Wires/ Ted Burke

Torme was eating the pant leg of a pair of dacron pants while Joan Blondell cringed n the corner, screaming for

'Whatcha watchin," asked Satan, leaning over for a better view.

"Some shit," replied God,
"was watchin' Ali get his
from a cute little tyke, but this is better, some cheapo special." He leaned back in his chair, finished off the Coors, and then crushed the

can by stomping on it.
"Fuck man," said God. noting that the can wasn't completely flattened, "can't seem to get the hang of that. How the fuck to you do it?"

Satan snapped his fingers and lit a Sherman off his

"A snap," he said, "just a matter of the right leverage. Watch." He took a Budweiser can he'd been dumping his ashes into and set to the floor, scanned it for a few moments, and then rose his right hoof over it. After balancing himself for a few seconds, he dropped the hoof suddenly, crushing the can under it. The can made a whooshing noise as air gushed out of the opening. God walked up and he and Satan looked down at the can, which was a flat as a table

"Well shit," said God, as flat as flat gets." slapped Satan on the back. 'Scratch, my man, frankly I think your technique has something to do with your shoes. I can't get much leverage with these." He lifted up his foot to show him a Goodyear sandle.

"No wonder," sid Satan, his head engulfed in blue cigarette smoke as the Sherman between his thin lips thrust forward, "look at those things. Remember, those things came from tires, so of course their round and not flat. Your dogs have to be wearing something flat on the bottom, something as flat as you wanna make that

Scratching his white shock of a beard, God nodded, gave a laugh and looked at his

'Rock Show' has good tunes

as Wings rocks into an

Way back in 1976, Paul McCartney, after years of hope, rumour and waiting, finally decided to bring his band Wings on a two-month

North American concert tour. It was the first time Amrican audiences had seen the rock superstar on stage since the legendary final live Beatles concert in San Francisco's Candlestick Park ten years earlier. Hopes were high for the 'Wings Over America' tour and Paul didn't let anybody down. It was a coast-to-coast sellout and a slick, razzle-dazzle musical showcase for McCartney and

Now, five years later, the motion picture documentary of the tour, Rock Show, is at last flashing across screens nationwide as produced, naturally, by McCartney's own MPL Communications. Though it sometimes doesn't work as film, Rock Show is bubbling over with such incredible energy, good spirits and great music that it turns the handicap of its fiveyear delay into an asset, thus doubling its impact. The movie is as fresh, lively and entertaining as the months during which it was filmed, a true testament to the timelessness of the McCart-

Rock Show begins where the stage show begins. Layers of colored smoke and waves of bubbles set the proper fantasy atmosphere

opening medley of "Venus And Mars", "Rock Show" and "Jet." McCartney, his hair uncharacteristically long (past shoulder length), is all bouncing smiles in his best Beatle manner. His wife Linda, thankfully, doesn't have much to do but sing harmony, play the synthesizer and knock a tambourine and drummer Joe English is similarly left out of the limelight, but McCartney doesn't hog the show.

Guitarist Denny Laine is spotlighted in two nice solos including "Go Now" bringing back memories of his Moody Blues days. Ironically, Jimmy McCullough who solos on "Medicine Jar" about drug

addiction, died of an overdose three years later.

But audiences then and now are paying to see Paul McCartney, MBE, ex-Beatle and walrus, who soon scores version of "Maybe I'm Amazed." A wash of pastel blue and pink spotlights. shadows and silhouettes, glitter and satin, this is music for the eyes. The midpoint highlights are the five Beatles songs performed, including "Yesterday" and 'Blackbird" by McCartney one acoustic guitar, one soft spotlight and an extremely

grateful audience. "We'd like to do a song now that goes back into the mists

of time," says Paul before ripping into a rousing version "Lady Madonna." Onstage explosions and strobe-like laser help bring "Live And Let Die" to life and later during a second encore, a laser-animated blue mist enhances "Soily," the only 'new' song performed in the concert. Only two songs are

performed from McCartney's first four solo albums, the bulk of the material coming from Band On The Run, Venus And Mars, old Beatle albums, and the thenrecently-released Wings At The Speed Of Sound disc. An album from the tour, Wings Over America, was released that year in time for Christmas though not all the songs on the three-record set are in the movie

Visually, Rock Show (filmed by thirteen camera men), has a lot of focus problems and too-close closeups of the noses and eyes of audience members. The editing is quite predictable, but then there weren't many options to go to. There is nothing new here, but as rock documentries go it is straight forward, energetic entertainment from one of the legends in the business. Rock Show is a splashy, quick-

These three sides of Paul McCartney were photo-graphed by wife Linda.

friend. "Well, whatever. The motherfuckin' union makes me wear these things. Standard uniform's gotta be worn when I'm on call.'

"but fuck it. Lets pop another couple of brews and watch the flick. Both of them walked across

the living room to the kitchen and hauled two Millers from the refrigerator. They popped them, licked the foam from the rims of the can in tandem, and then walked back to the TV, settling into the cusions after pulling their chairs closer to the screen. God turned up the sound, as he was hard of hearing.

Ten minutes had passed in the film since the both of them began crushing cans and a good part of the plot had elapsed. Torme, having devoured all the stretch pants in Las Vegas, had grown to an incredible size and was now shadow boxing against the side of Caesars' Palace, using the spotlights

provided by obliging police who wanted to check it out.

God sat up just then as though catching a jolt, cupping his hand to his ear. 'Hear something?" he asked. Puzzled, Satan closed his eyes and listened, filtering money back" from the pantless men. A voice, weak and faint like fine print drifted in on the breeze.

"Always get calls during the best part," huffed God, turning to Satan, "can you tell who it is?' Satan threw his hands

around the back of the chair and reclined, careful not to stab himself with his arrow tipped tail. "It's your son," he

God made a pained expression. "Shit. Probally wants money... 'You gonna answer?'

"Fuck no! I told him that if he's gonna travel without saving up from a decent job he'd have to rough it.'

"You mean he should apaid the two dollar fine.

Both of them chortled for

awhile and then returned their stares to the tube. The cast names were being superimposed over a fading image of the huge Torme placing a truck tire over the finger of a half-nude statue of a woman that used to adorn the roof of a strip joint before Torme tore it down and hauled it into the middle of the avenue. While thousands of people screamed in horror, Torme said "I do thee wed' and began to sing "Express Way to Your Soul," his voice booming for miles across the flat Nevada desert.

God snapped off the TV. "Let's eat some grub," he

"Skeet," said Satan, "I feel like Mexican food.'

God waved his hands 'Gives me heartburn Chinese is more my speed.

'Have it your own way,' said Satan, tying his tail into a Boy Scout know. "Let's just grub and get back to work.'

PARKING PERMIT INFORMATION

sponsored by: committee for world democracy and third world studies

with asucsd-allocated student fees

Unless you feed a meter, no matter where you park on campus you must have a parking permit. Student "S" permits are available from 9:00 am to 3:00 pm at the Central Cashier's Office, Building 401, Warren Campus. The cost of an "S" permit is \$17.50 and the permit is good through June 30, 1981. Student permits are valid only in yellow striped spaces.

If you have any questions about parking or are interested in joining a carpool or vanpool, or would like to get information on San Diego Transit or North County Transit, stopy by the Parking & Transit Systems Office at 400 Warren Campus or give us a call on

campus extension 4223.

CHECK IT OUT

Tess: Natassia Kinski, as Tess of the D'Urbervilles, is a woman who any decent man would give his soul for. With dark, expressive eyes and full mouth, she is the soul of this movie, the reason it ultimately succeeds. Of course, Roman Polanski — in a radical departure from his usual type of movie does a fine job in bringing the Thomas Hardy novel of love and hypocrisy to the screen. The rank injustices of late 19th century England blend well with the beautiful, enduring countryside. But if Kinski didn't exist. Polanski would have had to invent her. If the actress playing Tess isn't someone the audience can care for, no one would sit through this three-hour retelling of her travails at the hands of lustful, heartless men and an uncaring society. By all means see

this, the best movie of 1980.

Ordinary People: Robert Redford did a masterful job in putting together this film adaptation of the best-selling novel about hard times in suburbia. Mary Tyler Moore, a sweetheart in TV land for so long, plays the bitchy mother in a family that starts to disintegrate following the drowning death of a favorite son. Donald Sutherland is her sympathetic husband, trying to hold the family together. Both are good, but Timothy Hutton, as the younger son who blames himself for his brother's death, and Judd Hirsch, as the psychologist who tries to keep Hutton from cracking up completely, are the best. In all. this is a satisfying, emotionally

unflinching look at life.

"A Boy and His Dog" — Harlan Ellison's award-winning speculative fiction story of love and survival in a mean future world is brought to the screen by L. Q. Jones, Don Johnson is the boy, Vie and Blood is the telepathic dog. Together they make their way through the brutal postmeets...a girl, who holds the promise of love - possibly - or death. The simple Vie is faced with choices. The action is exciting, the satire of modern life vicious. Altogether, a fun movie to watch.

"The Postman Always Rings Twice" - Jack Nicholson elemental and vicious. Jessica Lange is sluttish and vicious. Together they overcome the problems with incomplete plot that plague this Bob Rafelson film remake of the 40-yearold original. The story itself comes from a novel by James V. Cain, one of the original hardboiled fiction writers, and concerns a drifter who falls in love with the passionate young wife of an old Greek restaurant owner. Together, they plot the old man's murder, but fate and their own incompetence threaten their plans. Too bad Rafelson left out such little things as the end of the story...

Poetry shows 'Way of Day'

Women swimmers post a good showing at nationals

Kavanaugh, Groos make 'All American'

The women's swim team finished their 981 season during spring break with an admirable performance at the AIAW Division III Swimming and Diving Nationals in Cedar Rapids, Iowa.

Despite stiff competition from 97 teams, two UCSD athletes returned to San Diego as All Americans. Diver Maureen Kavanaugh and butterflier Sandy Groos both distinguished themselves in their respective

Davanaugh, a freshman with an extensive background in AAU national level diving, placed seventh in the one-meter diving competition and managed to capture a strong fourth place in the three-meter

Groos, a strong performer throughout the season, placed 14th among a field of 40 competitors in the 200 fly with a time of 2:15.6. "The pressure was there, but I felt really good throughout my race," said

One of the more diappointing moments of the meet involved the disqualification of the UCSD 800 free relay team.

Swimming in the finals of this event, the

relay swimmers managed to drop four seconds from their preliminary time to clock an 8:16.4. But their 14th place finish was nullified when an official ruled that one of the swimmers had left the blocks early.

Mary Thorsness helped to brighten team spirits with her strong performance in both the 500 and 1650 frees. Thorsness clocked a 5:21.3 in the 500 free, good enough for a school record, and finished the 1650 in a time

UCSD swimmers in both the 400 free and the 400 medley relays narrowly missed the 16th place position needed for All-American honors, but they nevertheless had outstanding swims. Swimming on both relays were Groos, Jackie van Egmond, Claudia O'Brien and Vicky Barker.

O'Brien and Barker both clocked their best times on the 400 free relay for a 3:50.9 pace and another school record.

According to swim coach Bill Morgan, the women were slow to start, "but now they realize how close they were to being among the top swimmers in each event. Next year, we know we'll be in contention for the top 10 positions in some events.

HOUSING FOR 1981-82

LANGUAGE HOUSE

Open House

Thursday April 2, from 3 to 6 pm

The Language House in Beagle Hall is having an Open House for anyone interested either in the activities of the House or in living in it. Each of the languages (French, German, Spanish) will have food and liquid refreshments in the suites. Different types of entertainment are being planned.

LANGUAGE INSTRUCTION AT UCSD

From 4 to 5 pm there will be a panel discussion with: Professor James K. Lyon (Chairman of Literature) Professor Leonard Newmark (Chairman of Linguistics) Ms. Hannelore Malone (Coordinator of Educ. Abroad)

After brief presentations about their respective roles in the language teaching program at UCSD, there will be an opportunity to learn more about what each of these programs has to offer. Refreshments will be served.

EVERYONE IS WELCOME!

The Language House is located in Beagle Hall on Revelle Campus.

Annual crew classic will showcase national rowers

Hundreds will fill Mission Bay Saturday

BY BOB McSPADDEN Sports Editor

Thursday, April 2, 1981

If you have never seen the major college powers from east and west go head to head in competition, this Saturday will offer a very competitive lineup in the 1981 annual San Diego Crew Classic.

UCSD's men's and women's crew teams will share the waters of Mission Bay with some of the nation's best squads, including threetime champ Harvard and its arch-rival Yale.

Also in the field will be the rising powers of the University of Pennsylvania, Northeastern, Brown, UCLA and USC. To round out the field are several of the finest rowing clubs from various

Sports writers wanted now

All sports writers for The Guardian are encouraged to attend the weekly staff meetings on Wednesdays at 3:30 pm. If you have written for the sports section or would like to in the future, please contact Bob McSpadden or leave a messate at The Guardian offices (452-3468).

Strokes, the Washington Rowing Club and the Egyptian Rowing Club.

The Tritons' best mark since the start of the annual regatta in 1973 was a third place in 1979 by both men's and women's lightweight

Coach Jack Vallerga

explains the importance of the Classic: "The regatta has become the unofficial start of the rowing season. Although many coaches believe that this event is scheduled too early in the season, very few turn down an invitation.

The sport is distinctive in that medals are given for first place finishers only. The more powerful eastern and western schools will compete for the Copley Cup, while schools equal in size and strength to UCSD will vie for the California Cup.

hit the water in the first scheduled event, the women's novice eight, slated for 7 am. Other events include the women's lightweight eight, the men's Frosh and the men's novice.

Vallerga is optimistic about his crew. "Our best chances will be in the men's and women's lightweight eight division," he says. "We have an excellent chance to make the finals in either event, but schools like Washington State and the University of British Columbia have much greater depth than us. It should be a very interesting day.'

Both the men and the please turn to page 22

Intercollegiates organizing

An "important" meeting to organize intercollegiate athletics will be held Monday by coaches John Block, Doug Dannevik and Bill Morgan.

The meeting, which begins at 9 pm in the north conference room, will be 'informational"; attendance is encouraged by the coaches.

Union leaders seek to curb activism

continued from page 3 leaders," says Fram. "Yet it's those leaders that have control over contract negotiations. Once they approve a contract it takes

two-thirds of the membership to vote it down."

Thus, finding the necessary votes to turn down a decision of the executive board can be next to impossible. "(Teamsters president Frank) Fitzsimmons has rammed contracts down our throats through

times," says Fram.

But while national labor organizations increasingly resort to trusteeships or more subtle procedural rules to keep younger union activists in line, the signs are clear

this minority rule several

that opposition to such control is growing fast.

And according to Frank Holowach, who was elected as Vice-President of Ironworkers 627 under Salas, the current recession may even be a hidden boon to activist elements in labor.

"OVer the last 30 years the unions have gotten flabby," says Holowach. "But now the chickens are coming home to roost — there's no more cushion for them to fall back on. They can't go into negotiations getting better contracts year after year, and they've lost touch with their own workers. Now they're just an empty shell, without substance, and ready to

Students listen intently at Tuesday's "emergency" rape crisis meeting.

women race in the basic Olympic course, which is 2,000 meters for the men and 1,000 meters for the women. Teams receive an invitation based on their performance the previous season, and both east and west are represented by at least their six best schools.

Patty Wyatt, organizer of the entire event, explains, "We're looking for a very competitive day. There is a lot of power and prestige that goes along with the Classic." A better chance to see such an impressive gathering of universities may not come again until next year's San Diego Crew Classic.

Courses in Classics Spring, 1981

Professor Charles Chamberlain MWF 9-9:50

A close study of the three great epic poems from antiguity: Homer's **lliad** and **Odyssey**, and Vergil's **Aeneid**. (In translation.)

"Classical Theories of Language and Rhetoric" Professor Kathryn Shevelow Tu/TH 2:30-3:50

This course will examine the development in the ancient world of theories about the nature and function of language, focussing on the arts of oral persuasion, from their roots in magic and erotic discourse to formal rhetoric. Beginning with the Sophists, we will discuss the evolution of ancient conceptions of logos (word, speech, reason) and their social, political, literary and philosophical significance to classical Greek and Roman civilizations.

"Colloquium on Early Christianity" Professor Alden Mosshammer Mondays 1-3:50

A study of the origin and growth of the early Christian Church from New Testament times to the Council at Nicaea (A.D. 325). Topics include a critical study of the New Testament writings as the source for the life and teachings of Jesus, expansion of Christianity in the Roman world, organization ad theology of the early Church, and development of early liturgical forms. The course will meet as a seminar with weekly meetings for discussion of assigned topics.

NOTE: all of these courses count toward a Classical Studies major or minor.

FINANCIAL AID 1981-82

Continuing students can still apply for financial aid for the next academic year, 1981-82. However, to be considered for financial aid for all 3 quarters, your financial aid file must be completed by July 1, 1981. The completion of your file will be determined by the Student Financial Services Office. It will be your responsibility to respond promptly to any request for additional documents or information from your Student Financial Services Office. If your file is determined to be incomplete as of July 1, 1981, you will not be considered for financial aid for Fall quarter, 1981. All files completed after July 1, 1981 will be considered for Winter and Spring quarter financial aid only.

DO IT NOW!

Federal cuts in financial aid programs will limit funding for 1981-82. If cuts are very large, late applications will not be fully funded.

Guaranteed Student Loan applications for 1981-82 should be available on June 8, 1981.

Calderone speaks on sexuality issues here

continued

female experiences vaginal lubrication in the womb;

 Little children often achieve full orgasm during masturbation;

 Female infants are often more attracted to ictures of girls than of boys;

 A fetus's sense of hearing is quite fine; it can be affected by violent parental squabbling before birth.

Calderone was introduced by David McWhirter, assistant clinical professor phsychology at UCSD.

Calderone received ample applause and remained after the lecture to answer questions from the audience.

Questions ranged from homosexuality to Brooke Shields posing for Calvin Klein jean commercials. One older woman even offered her own proposal for teaching sex education: obstetricians and pediatricians should be taught child psychology in medical school, she said.

On the whole, audience members wee positive about Calderone.

"The topic was very timely and well presented," said one woman, who asked to remain anonymous.

Another said, "I advocate talking openly about (sex education); I think it's healthy."

An older anonymus male commented that a lecture on childhood sexuality would have been impossible several years ago.

Only the topic of incest created visible discomfort in the audience. Otherwise, no one appeared to be offended by Calderone's lecture.

from the audiseveral years ago. on the several years ago. on the several years ago. on the several years ago. on the topic of incest true.

offended ure.

Canole, UCSD poet, reflects upon the 'Way of the Day'

to think in straight lines and divisions, and use the phrase "night and day" to describe polar opposites or antitheses.

Taoism thinks in circles and considers night and day a whole made of two balanced halves, so the day becomes the Day, symbolizing a "unity of opposites" rather than a conflict of opposites. This is what effective communication means achieving an equilibrium and understanding that unites two different views without the need to change either one. The change may come as a result of mutual understanding; but if the change is forced before the two sides have communicated properly, no true equilibrium can result.

I said that *The Way of the Day* is a book about reflections. It is a reflection, in the contemplative sense of the word, on living as an activity (rather than a passivity). It makes the proposition that many of the

attitudes and approaches at which we labor in the West are mere illusions. Like Alice in the garden, we keep heading for what *seems* like the right goal but is in fact only a reflection, and we feel frustrated when we find ourselves back where we started.

The book speaks against one Western approach to success and happiness: the obsession with being the highest achiever and having the greatest external signs of success. A need for these suggests an insecurity within that craves external reassurances. The way of the Day is to work towards an inner security that has no need to advertize itself and can be quiet, mild, serene, unfazed in the face of threats and irritations. "Reflectors live a life of balance, taking nothing to excess./ When you are balanced, changes cannot disturb you.'

Reflectors are mentioned frequently in the book. This

is the name given to people who recognize that they are not living at a fixed pole where there is no movement, but on a moving circle, the earth, which includes opposites in its cycle. They know that life is more about traveling than arriving. "By not seeking the end, you will always be growing." This is what it means to reflect the way of the Day.

This limitless attitude is reflected in the book. Like a circle, it has no clear beginning or end, yet it coheres. In several places it suggests applications of the philosophy to politics, but for the most part it invites us to interpret the sayings according to our individual lives. It is not a dogma, because a dogma has limits. Rather it is an attitude of flexibility that can have limitless applications. You can find The Way of the Day in the Bookstore. Open it and you might find a reflection of yourself in the words.

Imagine yourself getting your best job offer

before you even get your BS or MS in Computer Science or Information Systems.

Talk it over with us - Friday, April 17, 1981.

That's the day a Hughes Representative will be on campus with all the facts, to answer questions for DP seniors and graduates.

With your training, you can start part way up the ladder of a software career: programming, analyzing, designing, or implementing business systems on a big Burroughs B-6800.

We're involved — and you can be involved — in reorganizing our main data base, debugging and updating programs, and writing new reports and procedures to advance our already advanced automated manufacture of fiber optic connectors, flex circuitry, and printed circuit boards.

You know COBOL and some ALGOL. You're acquainted with Burroughs hardware. So you're a candidate!

Join us at our small but growing Hughes division in Orange County, where so much is happening. Then, if you want to continue your education at UC Irvine or elsewhere, we'll foot the bill.

If you can't come to an April 17 interview on campus, please call Carl Weaver at (714) 549-5795, or write to him at: Hughes Aircraft Company, Connecting Devices Division, Professional Employment, 17150 Von Karman Avenue, Irvine, CA 92714. But better yet:

For an April 17 interview on campus, sign up at Career Planning & Placement, Revelle Center, Humanities Lib. Bldg. #1058.
