

## **Media Advisory, briefing on neural network for prospective industrial affiliates**

**June 13, 1990**

Media Contact: Yvonne Baskin, 534-0362

MEDIA ADVISORY

EVENT: UCSD Institute for Neural Computation -- Briefing on UCSD neural network research for prospective industrial affiliates

DATE: Saturday, June 16

TIME: 9 a.m. to 5 p.m.

LOCATION: Center for Molecular Genetics, Seminar Room

PROGRAM: Dozens of industry representatives from the U.S. and abroad have been invited to listen to talks on research in progress by faculty associated with UCSD's Institute for Neural Computation. The Institute, in development for more than a year, was formally established in April and is now enrolling companies in its Industrial Affiliates Program. (See attached materials.)

Although the talks will be fairly technical, many key figures in the field of neural networks will be available for interviews during the coffee breaks and immediately after the symposium.

Reporters will also be able to get advance interviews with several key scientists who will be chairing sessions at the International Joint Conference on Neural Networks being held Sunday through Thursday, June 17 - 21, at the San Diego Marriott. These include:

Terrence Sejnowski --UCSD professor of biology and physics and director of the Laboratory of Computational Neurobiology at the Salk Institute

Allen I. Selverston --UCSD professor of biology

Halbert L. White Jr. --UCSD professor of economics

INTERVIEWS: For further information on the program or advance assistance in arranging coverage, please contact Yvonne Baskin at 534-0362.
