PATROL REPORT NO. 8 - 1973/74 POPONDETTA:

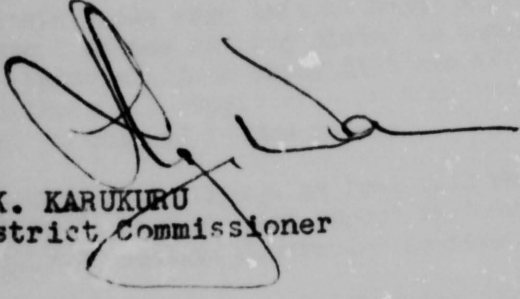

... Herewith please find your part of the above patrol report and situation report No. 1.

The patrol was mounted to assess the flood damage along the lower reaches of the Mambare river.

The Situation Reports clearly and accurately sum up the situation. The damage was not as extensive as was reported.

The patrol was in the area with a minimum of delay and would have been able to arrange for relief if it had been necessary.

A report on the situation was forwarded to the Director of Civil Defence and Emergency Services on the 10th December, 1973. (Copy attached)

J.K. KARUKURU

D.D.C.

REPORTED EMERGENCY SITUATION - FLOOD MARBARA RIVER

Further to my 1-1-9 of 21st November and reports by telephone Cillman/
Butler.

The combined D.D.C., Agriculture and Health Patrol proceeded to the
flood area and carried out investigations into the situation over the
next week or so. The water level in the Marbara River descended to
the stage where investigations in gardens could be carried out and the
Agriculture Officer reported that whilst matured taro and nearly
matured taro plants were destroyed and bulbs would have to be harvested
immediately before they rotted in the soil, in his opinion some of the
young taro would regenerate as well as some bananas and sugar cane.

Despite appeals by the villagers that they were short of food and
required supplementary Government rations, the Patrol found there was
ample maize, other bush foods and some vegetables available both in the
gardens that had been flooded and other gardens back on the hill slopes.
No Government rations were needed out.

The Health Extension Officer found that no signs of malnutrition amongst
children and no untoward outbreaks of disease were evident. Some high
protein foods were left at Marabar Anglican Mission Station under the
control of the nursing sister to assist with supplementary feeding of
very young children whose diet was affected by shortage of normal foods
and the small supply of emergency rations was retained at Iona Patrol
Post in case of future needs.

The Officer-in-Charge at Iona will watch the situation over the next
two to three weeks and report if there is any change in the situation
requiring Central Government action.

At this point it appears that the high level flooding is over and the
danger is passed. Flood levels at peak appeared to be two or three feet
higher than is usual and reached the highest level since 1946 or 47 when
it appears Government rations were issued.

B.N. BUTLER
District Commissioner

DEPARTMENT OF THE CHIEF MINISTER AND DEVELOPMENT ADMINISTRATION.

FILE: 67-3-2

District Office,
BARU. WD.

27th August, 1974.

The Assistant District Commissioner,
Sub-District Office,
BALIMO.

BALIMO PATROL REPORT NO. 1 of 1974/75.

Receipt of the above patrol report is acknowledged with thanks.

Mr. Bowane has certainly carried out his task satisfactorily and has shown great interest in all aspects of his job.

Being a Gogodala man himself he was able to understand the people's problems and gain their interest far more quickly than other officers.

The Gogodala Council should start supplying the tools now while the interest to work on the road is high.

G. MAHA
a/District Commissioner.

c.c.
The Secretary,
Dept. of the Chief Min & Deve Admin,
KONEDOBU.

Attached, please find a copy of the above patrol Report jacket together with four copies of Situation Reports No.1-2.

It is hoped that the people will not sacrifice work on their rubber blocks for working on the road. The Gogodala Council intends to employ people on a rotational system to ensure that everybody gets a fair share of wages and will still have time to grow rubber.

For your information, please.

G. MAHA
a/District Commissioner.
