pressing from the rat
pressing - that all my
rational mind cannot figure
out. So we sit outside the
little office + I go in + the
lady Dr. inter-views me + I
say I fasted, (I'm eating
this sandwich as I talk,)
that it irritates me I'm
hungry, + she says what
kind of fast religious +
I say yes. + she asks me
some questions + says to me
you don't need a hospital.
By this time his cough is
"jet her in" fever + I say
thinking of pajama + a
warm well heated bed, yes
I do I have no place to go!
So she says ok we have a
day + night care center.

You can stay here a few
 days until you find a place
 to stay & ~~it~~ I think have
 a doctor of the medical
 division to have a day &
 night car under just like
 the psychiatric division.
 Ha. Little did I know.
 So they say OK - floor &
lunch & very relaxed & we
 get up stairs to a nice
chair - haver young Dr. come
 over to me & says Mr -
 the psychiatrist see.
 Bang. 'Hello! Me out!
 The fear of therapy looms
 strong ahead. And suddenly
 I start thinking of alternate
 places to go, where I have a
 nice friend who has a spare
 room on the upper east

seeds + I call the main
 answers + they're Stacy
 Europe + the room is
 being remodelled for a
 museum (but what about the
 rest of that beautiful empty
 apt) anyway she never get to
 call me back + it too late.
 I'm stuck. I start thinking
 of all the medical pros I
~~used to~~ know + call them
 but it too late. I'm in.
 So she pushes me into + what
 day it is + I look at him I
 mean doesn't he know? So
 I tell him the day + date
 which is correct + surprises him
 + then suddenly then this
 meeting I thought that the
~~next day~~ so I get this bed
 + there all this food in the

hidden box of cabbage cheese
 + canned (!) fruit salad on
 lettuce + milk, ordinary
beefsteak hash, 2 oranges +
 2 eat + eat + eat never
 missed the cannery or the
 prostering at all. That night
 I wash my hair in the
 shower + take a good look
 in the mirror + try to take
 the haunted ~~what~~ look
 out of my deep set dark
 brown eyes. I don't look
 bad. I'm delightfully
 skinny, I'm wearing old
 pants (+ she's there) with
 scars to spare except they're
 closed with the huge metal
 safety pin! + a red T-shirt.
 I don't have those fat pads
 on the side of my legs.

The next day I get up, change
 all the sheet ~~out~~ & flannel on
 the bed (the's way) + eat
 some more. I weigh in at
 95 lb. They do not take
 any blood a day urine to
 they never had and I'm
 huge of anemic with ^{uprising} ~~just in~~
~~the~~ ~~trunk~~. Don't ask me what
 they did, at yes, listened to
 my heart. It was beating.
 So then the Dr says come to
 the meeting, they can't
 figure me out, I guess I
 talk him about the metal
 there are ~~the~~ ~~the~~ I'm not sure ^{how much} lbs
 All around a table + me.
 And grand leaders + social
 workers + maybe a dozen
 more.
 The first thing they ask me

after introductions all round

6

↳ 5 To name the very president
of the United States! Backward!
Backward! I think, they're
backward, all right, & now
I mean I'll never get out of
here! So I give them a
little thing about how I used
to be involved in politics but
~~that was in my district~~
etc but lately I haven't
paid too much attention to
government politics but
meanwhile the life is
surviving & I say what the
name you have given, I
only say agree, & Humphrey &
then I stop ^{and} they say
Johnson, Humphrey & I but
that ok can't let of people
forget he was a VP but
I guess. So then it the

months of the year forward &
 I still think there's a catch so?
 of Wanda than thinking, am I
 sure it's not the astrophysical
 sign they want what comes
 first - last comes a gemina.
 but it really just the plain
 all month & in location as
 then as it they're noisy. So
 just it please what the
 difference between a stem
~~and~~ ^{the} rose & that really than
 my mind I mean do they
 know about my American
 beauty row fantasy? no
 but I let myself get a
 little poetic emotional
 days the than are wisdom
 on the stem of knowledge &
 beauty or ~~beauty~~, less
 that & they ~~fantasy~~ the

and ~~the~~

Emma says they say
 I'm a ~~the~~ well, they asked.
 So then they ask me if I
 don't think this illness
 has to do with the fact
 that I'm 47 years old + have
 no children. And I look
 at them again I say no,
 I cared about that a lot when
 35-38 say but I don't say
 more I'm a writer + I would
 want children now. They
 don't believe me. So I leave
 the meeting + I tell Q who's
 outside + he they order me
 the vice president of the
 United States backwards
 I B says at sheet + E
 laughs and I say they're
 all backwards. My hands
 bump me red nose. I

sleeps here one more night. Helen
 the deerskin is ~~was~~ down there
 in the ward for me. Well
 much more comfortable &
 I can sleep all day. I'm
 objecting to group meetings -
 but I go to one & the cat tells
 me I look like Bob Dylan
 on the cover of Highway 61.
 I'm flattered. Some go to
 the ward & all the beds are
 metal! Awk! and I want
 to go ~~downstairs~~ to the
 wooden beds in the day
 care center again even though
 I don't want meetings & I
 want to sleep all day. So
 I say can I please have a
 mattress on the floor somewhere
 that ok well me & Ily almost
 did in one of their little

appear but finally. (He's
 running around. The psychiatrist
 and the nurse on his
 hand 1 + m, bath 2 31 e
 are there, all tall & hard some)
~~→~~ I say OK if they cover
 the metal over with sheet
 I can get into a regular bed
 + what what happen + I
 go into in the hospital + good
 somebody, anybody tray +
 eat everything in it + extra
 milk + oranges + B has
 brought me all the
 health food + I go to sleep +
 the next morning at 9 AM
 Dr says do I want to get up
 + come to a meeting. I say
 no! They have the regular
 group therapy meeting every
 morning at 9 + that the

last thing I want. I want sleep.
 Eddie's lady psych. comes in
 she must as the want + she
 needs 010 I think (but meanwhile
 there movement to get a
 private church. I'll get and
 fastened a private church, I
 think, in fact the lady even
 says so, says she has passes, etc.
 So I get this private guy + he is
~~quite~~ ~~manly~~ ~~leaves~~ the
 upright coat + he + I know,
 I know, even before he says
 he doesn't need the money
 (!) so it up to me. But I see
 So I say all I care is no
 charge + he says up +
 I say no charge + he says
 well hee so I ~~then~~
 think about + decide I
 like the lady better, hea

pretty negative chap, so I see
 him the next day & tell him
 I want to see the road had on
 the set of wheels off & say
 he doesn't need the money
 & within days me to the 14th
 person & then I say
 BIC but he sends a bill for
 2 but I remember him &
 and pay me. 40000 So I take
 my chance with the lay
 his bases & that when
 the barge comes in
 Meanwhile B & C come every
 day bringing health food
 goods to supplement the
 hospital American food.
 I'm not eating meat but
 I eat everything else, that
 not dishes yet, things, &
 finally after my studies

grabbing any old tray (no one
 ever said a word + I must
 have eaten someone's food,
 not a word, thank you all)
 I find out you can order on a
 menu + I do. These
 breakfast etc. orange +
 meet glass. I gain 12 lbs in
 a week in 107. Then I gain
 10 more. alas. after 109 I'm
 not comfortable anymore
 but I keep on eating, +
 sleeping night + day (when
 must be quiet therapy) +
 I can't change my diet +
etc, by when have a
 washing machine on the
 floor + I buy me
 2 white night gowns
 planned from the 5 + 10
 or less money I got up

I take a shower & change the
 sheet & blanket & wash the
 night gown & pillow case
 & sleep & eat. And I'm on
 the men for a week. I would
 see me, & I call B & he calls
 glad & says I'll come
 home giving & I've spoken to
 my family & M.C. & that
 old & my mother goes home
 & M.M. calls & I call her, had
 better be not to call me
 please. I've ever forgotten
 her no. She's not a person
 anymore & she shame think
 servant about things on
 the hotel when she want to
 keep a person. She shame
 really think about that.
 The last 2 1/2 time I've
 had the matter about

* She says my headless
 I was at his lab's bus
 last summer & she
 used a metal instrument
 to cut the flesh & is ~~was~~
 what was the instrument
 & I say I don't know, a
 screw or a knife & she
 says ah! That if
 you don't like metal &
 I don't at all & that
 well that shows that,
 end of common coin
 with her. I mean
 Freudian! So second
 Chakra, if you mean
 what I mean

the metal, and if don't I want
 therapy, it takes the mind
 I say. But knows why they
 even better, all I do eat &
 sleep. (I wash, but they don't
 know that about the cloth,
 all the patient was cloth).
 I mean it only shows a day
 in the morning because when
 I wake up I still feel like
 my head is glued to the
 matters. And all to OK
 but the day before Thanksgiving
 when I'm sleeping & she calls
 me to see this her superior
 & I'm not thinking too
 much & handling some
 Coen to the phone or my
 pocket & he says how are you
 & I fool, don't trust a single
 one. Say OK, but still go

a little ~~quicker~~ reaction from
 metal. So had the gas time
 to start. I saw some the
 order, + charge! So I had
Suzellan that one. But
 they led us my half night
 again + in future + away.
 And the next morning + charge.
 I I asked that one but call R & E
 Co a name. They want to give
 me charge. But a letter
 must come on the next
 round + say let me check
 your names please my
 they all go to hell + so I
 Suzellan it but of course
 then on in success. All
 my job at all + I dropped
 + I lost I was dead. I get
 totally depressed + my
 next week start busy

+ I come down with a bang.
 I hate the burn in hell.
 I should have called the
 lady at home. I that
 night the best nurse
 on again + ched your
 mouth above I lastly
 burn in hell. Monday I
 suffered because of the
 stupidity. + Natty can get
 over that. But the next
 morning B + I see are there
 to see the lady before I
 to persuade her to take me
 off the charges + she don't
 but the charge is done.
 The next day is collapsed
 again. All sexual feelings
 (the best 2d feet in eyes)
 gone away + natty, her
 anger + misery left.

3 come to see me + he feel
 of energy + I get a little
 bad when he holds my
 right toe but he want
 money, my he, for me
 he very & do. So he's real
 upset about the therapy
 I come had sat to tell
 me what to do about it -
 I mean to know - I he
 says ~~he~~ was really intelligent
 but the you he therapy but
 I'm glad to see him, really
 glad. Name to see me +
 VIK & not not + I'm
 pissed off at them for that.
 Just now. They don't come to
 I'm ready to leave ~~to~~ I stay
 3 weeks. But the last they
 help me money around
 town to make sure I'm

feeling bad to substitute to
 go to the zoo with B + E +
 I look at the lion & say
 I am of the jungle, roar
 for me. And he roars.

And B says she wonders
 what kind of powers I gained
 & I don't answer. What can
~~you~~ do with power? All I want
 it for to heal my body.

I unhite with the tiger.

We don't talk. I start writing

this book. I hunt. I collect.

I read nature books.

~~I gain enormous power.~~

I sleep & eat. & finally I find
 a place in the country I can go
 for 10 days. We go. B + E + me.
