

Second Department in SSE Established

August 9, 1960

Final steps have been taken toward the establishment of a Department of Physics in The University of California's School of Science and Engineering, La Jolla, Dr. Roger Revelle, Director at La Jolla, announced this week.

The Department is the second to be established in the new School, Earth Sciences being the first. The Department of Physics will enroll its first graduate students at the start of the school term next month. Approximately 25 such students will be enrolled. For comparison, enrollment of graduate students in oceanography at the Scripps Institution during the past year was 45.
