

Staff members and students attending the Second Annual California Genetics Conference at Lake Arrowhead Feb. 22-24

February 18, 1963

Staff and students from the Department of Biology at the University of California's San Diego campus will attend the Second Annual California Genetics Conference at Lake Arrowhead February 22-24.

A postdoctoral student at MM, Dr. Paul Sypherd, will present an invited paper at the session entitled "Studies on Enzyme Repression."

Dr. Sypherd is conducting research at UCSD under a National Institutes of Health postdoctoral fellowship.

Staff members who will attend the conference include David M. Bonner, Chairman of the Department; assistant Professors John A. DeMoss and Stanly H. Mills; and postdoctoral fellows Elias Balbinder, Stewart Ensign, Robert X. Hamburger, Willies Matchett, Donald A. Pious, Kenji Sakaguchi, Herbert Schulman, and Sypherd.

Also attending will be students Sam Kaplan, Dan Morris, Malvin Santer, Anne Schwartz, Michael Showe, Yoshitaka Suyama, Judy Wegman, and Alan Schwartz.
