

## **Rusty Rhodes to speak on the assassination of RFK**

**October 28, 1975**

Rusty Rhodes, executive director of the Committee to Investigate Political Assassinations, is scheduled to lecture at the University of California, San Diego at 8:00 p.m. Tuesday, November 4 in the Mandeville Auditorium.

The committee which Rhodes heads is "a group of concerned citizens with a two-fold purpose: to research and investigate JFK's and other assassinations and to report their findings to the people through lectures and the media." His topic for Tuesday evening is "A Decade of Conspiracy: From Dallas to Watergate." Tickets are \$2.00 for general admission and \$1.00 for UCSD students.

According to Rhodes, in the three year period which followed the murder of President Kennedy and Lee Harvey Oswald in Dallas, Texas, 18 material witnesses died - six by gunfire, three in motor accidents, two by suicide, one from a cut throat, one from a karate chop to the neck, three from heart attacks, and two from natural causes.

An insurance actuary, engaged by the London Sunday Times concluded that on November 22, 1963, the day Kennedy was shot, the odds against these witnesses being dead by February, 1967, were one hundred thousand trillion to one.
