BCL plans to get rid of mine assets

by ROSALYN ALBANI

BOUGAINVILLE Copper Limited (BCL) is looking to get rid of its assets on Bougainville worth approximately K200 million.

These assets include buildings, plant, machinery and equipment which, since the withdrawal of company personnel, have either deteriorated, been damaged or pilfered.

BCL's Chairman, Barry Cusack, in his report carried in BCL's Annual Report-2000 said it would not be a simple matter for the company to dispose of its assets on the island.

He reported that last year the Board had stated that it was unlikely that operations at Panguna could be resumed in the short to medium term.

Mr Cusack said coupled with dialogue held with the government on the matter, added that he would move at the annual general meeting (AGM), scheduled for the end of April, that the Board be authorised to dispose off the Bougainville assets on such terms as it saw fit.

The chairman told *PNG Business* newspaper that a slow approach, but one consistent with ongoing peace efforts had been taken as it didn't wish to interfere.

However, he added that BCL was confident that these efforts had advanced sufficiently, hence the decision.

Mr Cusack said he expected that shareholders would be disappointed.

"...The shareholders will naturally be disappointed.

"But the reality is it will not open in the short term. We have waited almost 12 years, we must now address this issue," he said.

In other develop-

ments, Mr Cusack reported that BCL had taken advice from a number of experts on both liquidating the company and making investments in interest bearing deposits.

"The board has decided to recommend to its members that it be authorised to seek alternative investment opportunities such as investment in equities including companies with projects in PNG.

"The aim is to grow the value of the company rather than maximise available cash.

"This new strategy is not contingent on BCL disposing of its Bougainville assets, however having made a decision to do so, it no longer has the requirement to preserve cash to allow it to undertake a mine restart feasibility study," Mr Cusack said.

He added that the timing also coincided with a period of falling interest rates in PNG.

"Investment in listed companies particularly those selling commodities in US dollars, is a hedge against any further decline in the value of the Kina," he said.

BCL's managing director, Peter Taylor, in his remarks reported that BCL's main source of income remained on cash investments in PNG.

Mr Taylor said interest rates remained high for most of the year despite the Kina remaining relatively stable and a generally better economic outlook under the current government initiative.

"Interest rates are falling considerably and can be

expected to stay at much lower levels this year if current fiscal policy is maintained," Mr Taylor said.

With regards to the moves to dispose BCL's assets and diversify its investment portfolio, the managing director said:

"This is likely to have the effect in the short to medium term of reducing cash flow in favour of capital growth.

"Considerable work has already been undertaken investigating potential new investments," he said.

He further commented that should the AGM adopt all recommendations put before it, the coming year should see a considerable increase in activity as the company moves to activate its new strategy.

"...the provisions for landowner compensation and contingencies is being maintained.

"A move into a portfolio of shares will see the company begin to follow a strategy of growth outside Bougainville," he said.

Chinese visit to enhance trade relations

A CHINESE business delegation will be in the country on April 19-22.

Their trip to Papua New Guinea comes as an initiative of the PNG/China Business Council.

The delegation will be lead by the Vice Chairwoman of the China Council for the Promotion of International Trade (CCPIT) and the China Chamber of International Commerce, Zhou Min.

While in the country it is anticipated that the delegation will meet with various organisations and representatives.

tives in both the government and private sector.

These include the Port Moresby Stock Exchange (POMSoX), Commercial Bankers Association (CBA), fisheries, Investment Promotion Authority (IPA) and the shipping industry.

CCPIT and PNG/China Business Council have over the years enjoyed very good relations and operates under and pursuant to a Memorandum Of Understanding (MOU) executed in Beijing and in Port Moresby in 1998.
