CHANCELLOR'S OFFICE

2008 MAY 21 A 9:40

May 19, 2008

Chancellor, Marye Anne Fox  
University of California, San Diego  
9500 Gilman Dr.,  
La Jolla, CA 92093

Chancellor Fox

On behalf of the volunteers and Board of Directors for San Diego LGBT Pride I would like to thank you for speaking at the Center's LGBT Community Coalition Breakfast on May 16, 2008.

As a sponsor of the event, we are committed to bringing important issues to light within the LGBT community. We appreciate the commitment of UCSD to the ideals of diversity both locally and internationally. Student diversity is an important issue in our community and the breakfast was the perfect forum for creating awareness and to inform our community how a diverse student body enriches the educational experience and the importance of diversity in determining the overall campus climate. Thanks to individuals like you we can say without hesitation that UCSD is supportive of the LGBT community and their concerns.

The theme for this year's Pride celebration, "Live...Love...Be", evokes the idea of a world where life can be lived to the fullest, where the foundation of unity, compassion and acceptance allows all people to choose who they love and be who they are.

We appreciate all of your contributions to the community and your continued support of San Diego LGBT Pride and the LGBT Community Center. Once again thank you for being one of the featured speakers at the May LGBT Community Coalition Breakfast

With Warm Regards,

Ron deHarte  
Executive Director

### Recognition & Resources for Our Graduating Activists

Thursday, June 5 2008, 5:00pm-7:00pm @ the new Cross-Cultural Center

The Campus Community Centers are hosting a dinner to recognize all of your hard work as activists in our community! We would like to honor you, and provide resources to help you continue your pursuit of social justice after graduation. Just because your years as an undergrad have come to an end doesn't mean your activism also has to end! Come hear from people who have kept involved in community work after graduating from UCSD - and share a toast of celebration.

*Wednesday June 4th, 7:00pm at Atkinson Hall*

How do borders produce gender and how are those dynamics affected by the seeming gender freedom online public space inhabited by "avatars"? How is gender nonconformity perceived and discussed in online spaces, in prisons, in borders? These and other questions are engaged in this performance by members of a quarter-long research group lead by UCSD's Micha Cordenas, Collective Art Practice: Performative and Networked Approaches to Challenging Power. Join the group for a sneak preview live performance in the main auditorium at Atkinson Hall at UCSD, Wednesday, June 4th, at 7pm!

### **CINEMANIA ANTHROPOIDEA presents Licensed to Kill**

*Thursday, June 5th, 7:00pm □ 9:00pm, Center Hall 216*

Based on probing on-camera interviews with seven men serving time behind bars, Licensed to Kill goes behind the media headlines of anti-gay murders in order to investigate their causes. The film examines the social, political, and cultural environments of these murders and poses the question as to whether homophobia in society at-large granted murderers a license to kill. UCSD Psychologist Michael Gorman joins CINEMANIA ANTHROPOIDEA on this occasion in order to discuss the film and relevant research on homophobia and arousal in men.

### **Guys Like Us Scholarships**

# Congratulations Graduate!

*With appreciation,  
from the Campus  
Community Centers*

To the crazy ones.

Here's to the crazy ones.  
The misfits.  
The rebels.  
The troublemakers.  
The round pegs in the square holes.  
The ones who see things differently.

They're not fond of rules.  
And they have no respect for the status quo.

You can praise them, disagree with them, quote them,  
disbelieve them, glorify them or vilify them.  
About the only thing you can't do is ignore them.

Because they change things.  
They invent.      They imagine.      They heal.  
They explore.      They create.      They inspire.  
They push the human race forward.

Maybe they have to be crazy.  
How else can you stare at an empty canvas and see work of art?  
Or sit in silence and hear a song that's never been written?  
Or gaze at a red planet and see a laboratory on wheels?

We make tools for these kinds of people.  
While some see them as the crazy ones, we see genius.

Because the people who are crazy enough to think they can  
change the world, are the ones who do.
