Dear Mrs. Szilard,

Ferrard and I were very sorry  
that you did not come to the M. J. T.  
Conference, because we were looking  
forward to seeing you.

The celebration was great fun, but  
extremely exhausting, since it went on,  
relentlessly, for nine days.

Thank you, very much, for what you call  
the "real" copies of Leo's book - like and our  
friends have like it, very, very much.

Our best wishes to you both.

Ever yours, Leona Zacharias.

Dear Dr. Szilard:

I want you to know that every attempt is being made to acquire appropriate facilities and a secretary, in furtherance of your activities, however, it appears that a few days may pass before I'm able to find the most suitable accomodations.

Nevertheless, I wish to say that my primary interest is the writing of your memoirs, which you mentioned during one of our conversations, and for the sake of the coming generations I think that this endeavor holds highest priority. I feel so strongly about this that facilities and service will be made available at no cost to you. This, I feel, is the least I can do in gratitude for your service to the country and the world. Honor me by accepting my humble offer.

Most respectfully yours,

Daniel J. Zapalski

Dear Mr. Zieler,

This is in reply to your letter of March 18, in which you write that the microscope will probably be delivered within three to four weeks. On the assumption that the microscope be in fact delivered not later than two months from the date of this letter, I would appreciate your leaving your order standing. If you are not able to get a definite commitment on delivery within two months, please let me know and in that case we might then have to decide to cancel the order. Please note that this order is for me personally and not for the University of Chicago.

I have mailed a personal check for the darkfield condenser, which is now in my hands.

Sincerely yours,

Leo Szilard

Dear Mr. Ziffren:

James G. Patton wrote me that he sent you a telegram before leaving for Europe, advising you that Harrison Brown of the University of Chicago and I will contact you when we are on the West coast. I am enclosing a memorandum dated March 27, 1950 and a copy of a letter to Grenville Clark which will give you some idea of what this is all about.

I will write you again when we know when we are going West and inquire if we can see you at that time.

Very truly yours,

Leo Szilard

Lieber Herr Szilard!

Ich möchte Ihnen heute etwas über das Echo mitteilen, das Ihr "Memorandum über die Förderungsmöglichkeiten der biologischen Forschung in Deutschland" bei den Mitverfassern der Denkschrift "Biologie" gefunden hat.

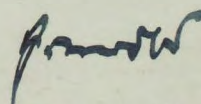

Die von Ihnen aufgezeigten Wege haben eine sehr interessante Diskussion ausgelöst. Während die Realisierbarkeit Ihrer Vorschläge zur Grundausbildung von Biologen wegen der besonderen deutschen Verhältnisse auf einige Skepsis gestossen ist und deshalb die Ansicht vertreten wurde, dass die in der Denkschrift "Biologie" geplante Ausbildungsreform als erster Schritt zunächst geeignet sei, hat Ihre Idee der Abhaltung von Sommerkursen nahezu uneingeschränkte Zustimmung gefunden.

Wir haben uns deshalb vorgenommen, in der nächsten Zeit über Ihre Anregungen, vor allem über die Einführung solcher Sommerkurse auf den neueren biologischen Forschungsrichtungen in einem Kreis von besonders daran interessierten Herren ausführlich zu sprechen. Sie möchten daraus entnehmen, Lieber Herr Szilard, auf wie fruchtbaren Boden die Vorschläge Ihres Exposés gefallen sind!

Ich möchte Ihnen deshalb nochmals sehr herzlich für Ihre Darstellung danken und bin

mit den besten Grüßen

Ihr sehr ergebener

(Dr. Zierold)
