or finish the page

Rosemarie is silent with us til Aug 11

the lines completed lines
Jackson was to be next page

on the white line novel

ROSEMARIE included
read some pages on next

to
Aug 5

I'm fifty eight before I DIARY become
shall I set it right here my dearie
Hannah I wondered about myself quite
a lot

in it so is second place the obscure
call Rosemarie Waldrop just I'm
tired once more before the ending
of this particular novel phase
because she is ending
her troubles

like out to the edge me
or so I thought until Sunday night
when we meet her again somewhat
tired as I am

always tired of important
people who do not
scream
until
they want something else done to them
with it

so I dont like powerful women
who dont show any opinion because
one of James ^{boy} lines is finished its all
OK

with me
only I am tired so what I dont believe
in anything
lower the line else
or pickles either somewhat

As oriented
someplace is a regular oh he so it
haunt

to ~~A~~

is that scribbling one page last for us
without some commentary on the titular
shear so it must be James' book
after all. All books are including
the fact being published etc.
Mannah doesn't count by me as in
the offering this one three this one
is three & four I am unpublished

Mannah if you want to be Vicki

when I quit writing this history
include poems but I won't be very
well known she's scared until I die

so I may please. Mannah that

absolutely true stupid see it
much public acclamation in your
old age better possible see I'm
hurting myself by writing anyone
about Rosemarie Waldrop who
signs

this page

so it is settled the phone between
us on Sunday night who is in
agreement only with us stupid

Bernadette's two children
scared of my impetite party
at this pen's place I was
unfinished the article

Leave ATM for Mae

until I tested this some page
by the cigarette tired machine

to

on the left in the box clever
which I was also smoked
so I'm writing about included
August my mind thinking
and then some
more until Tuesday
evening which I must period piece
my mind is drunk and has
several passages withit sometime
if you're very tired end this piece
until Sunday night which I
was tried to help myself some
at my birthday's place I was
eaten by an lamb chop
forbidden which I was tried to
help on the unbelievable ship
this page until Monday which
is severed in half by the instant
by the instant
by them I tried
I tried to help me Sunday night
Saturday which is it whichever
by the instant period

Monday

so close its page put the pen
in the cover and put it under
the book and so is on the ashtray
left by unspoken word I am unlooked
unleashed

to
renew

I was following my instructions
stepped close to top of the page
and scream for the pen is
locked in the my drawer
in it ended the page. so it is
is that a funny very ending
pen is leaked out by the
uncover top and in the
drawer which is on my left
in this cardboard period piece
So I've no left pen that I
can write with until Sunday
night or it until remember
Monday night ended this
page put the pen is away
undercover and don't leaked
in some top bottom drawer
so where is the left or it is
in the brain left hand
operates the mind which it
is ever fasting PLL iod
my pen laughs at it because
it is laughing at it myself
for continuing this page when
it is ended before but some
periods are in it of the dot kind
dot kind kind in the pen place
is it whichever is it only February
tells us why I write in the
dathroom until Monday night
very awkward sentence or the
pen please unfinished novel
of the type which it in style
language and some periods

to

so its language the same game
without the periods in it all
is it must be typed before November
and written it us tale of the
language says in the Washington
field of the Douglas impiest

we are told and he wasn't even

Richard outset in the bravous pine
in the wood at the Geneva conference
in the Richard's house those
work with done it was an. I was
scared important retreat sundance
for the majority of the white folks
is its ended long ago with
memories of the Richard's type
who is in the pines who is the
pines in the pines pines trees
who is ended this piece of the
brainwork of the empty dont
laugh pines who is in the
pines some secret wish to return
to the sundance once before my
mother dies before the book is
ended this page left or is ended
two I'm sorry about the pines
influence. Richard so I'm writing
this who is scared when the
tree fell from the pine forest
this page is ended very soon which
is whatever the persons wants
or it is intended to be alone
1984 written it is the ended story

to

I was an unknown agent for the Richard Anarchy who is complete on the eleventh page and I ended with it on these words in the pocket place the pen stupid and the thousand dollars written notebook is with it in the back pocket please we lose our material so it is the ended page before we sleep until Monday night so it is succumbed to the written word very tired and it is then written daily

it hurts that the signal to quit on with the ended place ended so the pen is leaked so forget it its all over before we began and it is Richard's place. We are in it now we lost a fortune stupid that it last week so it is tired very and the pen is drunken running out I was hysterical just once

Hannah they were frightened of it will send them a letter too crosses is over stupid by the cross page is out by our taking the chance to roll over the cigarette machine on the Bruce hunts left hand page I was secretly opinioned and the right hand ledge and the write on the ledge on the right hand page ledge i sit still through meetings without them across the table in the insidery of the Wash Post on the Star which ever it is srs I'm hinting I was to be included in the Washington trip but Abigail watch was cancelled on the back page this on the next page that I was insured by it until srs its hinting that I must be included if only on one sheet on the James shits on the next page on the next wishful thinking is over with I must forget the Hannah they're terrified Boston trip incl until February incl or inst Hannah that's James way of writing in our I don't feel hour of the need

I don't like James

who has played his money full of the points

important to

next page eleventh is very scared count them back until Mon I was sacred writer inst on the knowing why inst I broke the rule twice as before I did it ver scared srs its a compliment to us both if we can be ver scared together

I broke the line took its Washington trip is cancelled to be after one big social event srs they were scared try to be ver careful and Washup behind socialism the ears for the betime so I didnt said I'd anger anything at all until it was over with one phone call waits for the two books end used for the two books enclosed is on the latter below the piece writes below the same is right about

James calls

James knows is right about the piece Hannah the Indians were complaining about us not working No the for them entirely I was needed & became with

and James is needed also but he won't
write about
with it

he won't turn up the goddam page
this is hurts or so by the goodnight
I switched styles in the middle of
a paragraph stupid to be very
careful with the Indians on the
game

reserva time on the reservation
staid at the mother's poor sock is
also don't drinking until Wed night
because I was cholded up with it
fall into sleep and don't buy the
pen until tomorrow night the
feeling is different with each
paragraph stupid and they feel it
or so time it is

W
O Clock

by the watch by the bedside table
or the information is awful
quiet

on the left side of the brain
wear a watch or the ticking clock
is on the outside table or goodnight also

it was quieting time half watch checked
have ago when we dading we hurts
that's the same signal Be Graded the
loop for it twice so same me twice
see Richard also with Nijole's pamphlet
when you return or also quiet

on the bottom of the page hurried
so I'm lacking some very test fuel
on the inside bolt or the inside
bolt is offered no change in the
weight scale or tied tonight
who Rosemaire wouldn't wouldn't be
some small words or lost or the

Indian front or the Richard's porch
or the language selfish people
who didn't help come enough
or the inst category or the flushful
Row Silliman is keeping his word
sleep or the sleep bluishful or the
more clarify church sign or the
inst beginning without thinking
Some right Hemisphere trouble
on the page or scuttle with it
or the passive word or the better
sector or the uneven page or this it
hurts

or September novel

or keeping write
or indeed inst
or teach me too soon or below the line

or goodnight pass it belongs on
the previous page and that instantly
with it socialism signed on the
Bruce hits on the first novel lovingly
on the close the page stop the meeting
form on the included below
full of shit because I am writing
with it constant as a record of
the ^{bein} mind on the after thought
or the fallity finish the page
before we fall over asleep as its
read as its read included
save some space for Monday
night on the page included above
is over twenty ~~so~~ it takes six
months pages long its sketched
a book time or secure this page
also give up sometime behind
the hits on the ball games over
over the hits over the Treasury
hill

I was included

put me name sign bottom of
page I am sign cross + T of Hannah

so I've written a book stupid over the
summer months and don't believe it
was night complaint when I have no
place to write except loose leaf
pad which scares me scared writer finishes
so put the book away before it is
finished it all again say goodnight also
and tucked in by very furious man
night I have no writing out the down
page night space cant you put
the form in August on the line
above

this is written in novel
without a care to spend his little
enclosed space typewriter so give
yourself a break and go away with it
some space ~~on the typewriter~~ ~~but~~

so if you were honest you'd refill the
entire page with every words like
Rosemary does working until 80 pages
at one Hannah that's non down after

HMMh

the period

so that's or period some space on the
typewriter hits us to mend us
only with it pause or stop put
dot

cant you take the hint and finish
stopping the pen signed the page
and cross the to street or across
Sunday night the blank space
which is the pad also is finished
you must copy this down so its the
typewriter problem on the typewriter
so skips the same space and
take a chance writing some
novelists do until dawn so pages
left so if you're very scared
you should write another page
book JUST TO LEARN ENOUGH

so its institutional thinking that READ
NEWSPAPERS I dont like neither does
anyone we know including the James
inst or instly instart instantly
as to be included Haxnet I caught
Bure just one sucking out Indians
newans with ind it a some period

A prime period
