A posthumous award will be presented for Conrad Limbaugh, Marine Diving Specialist, who had completed ten years of service before his recent death in a diving accident in France. His widow, Mrs. Nan Limbaugh, will accept the award. Faughn and Blei will not be present to receive their awards; they are at present stationed in Bangkok, Thailand, with The University's Naga Expedition.

Presiding at the ceremony will be Mr. John C. Dullaghan, Assistant Marine Superintendent. Dr. Roger Revelle, Director of the La Jolla campus, will present service awards and retirement certificates. Following Dr. Gould's speech on "The Image of a University", several of the offices and laboratories on the campus will be open to visitors. Among the features of the open house will be a demonstration of the RUM (Remote Underwater Manipulator) Vehicle developed by Dr. Victor C. Anderson of the Scripps Institution of Oceanography's Marine Physical Laboratory.

University Service Day is sponsored by the La Jolla campus, Chapter 104 of the California State Employees' Association, and the Oceanids, women's organization of the Scripps Institution. Refreshments will be served.
