# Health, Rest, and Recreation

**E**NDOWED by Nature with healthful climatic conditions, and mineral waters of great value in the treatment of many ailments, Murrieta Mineral Hot Springs is the Mecca throughout the year of large numbers of health seekers and health lovers.

Here many beneficial influences of Nature await you . . . restful environment, bracing mountain air, warm sunshine, tempered by fresh, cool sea breezes blowing in over the mountains from the Pacific Ocean, and the various treatments afforded by the hot mineral spring waters and mud baths.

Many people in good health visit Murrieta often, to get needed rest and outdoor exercise. Others, tired and strained from overwork, or suffering from various organic complaints, come to rest and take the treatments, which have become widely noted for their excellency.

In the almost universal quest for better health, many people have cast drugs aside, and turned to the methods of Nature. You can benefit through frequent visits to Murrieta . . . returning each time to your activities, rested, and with a new feeling of vigor and youthfulness, new energy and joy of living.

One of the Famous Curative Sanitary Mud Baths

## ACCOMMODATIONS

MURRIETA HOT SPRINGS is regarded as one of America's foremost health resorts, and thousands of dollars have been spent in providing comfortable lodgings, equipment, and conveniences for the many people who come here each year.

A new class "A," fireproof hotel, recently completed, offers facilities and service comparable with the better class of metropolitan hostleries. Rooms are attractively furnished, and are provided with hot and cold running water, private showers and toilets, electric lighting, and steam heat. More modest accommodations are also available in our two other hotels, which are comfortably furnished. In addition, detached cottages and bungalows are provided for those who prefer them. Electric lights and modern plumbing are provided throughout.

Every effort has been made to provide not only comfortable and pleasing accommodations, but quiet, restful environment as well. Large palms and shade trees, well-kept lawns, and shaded walks surround the buildings, which are conveniently grouped near the offices, dining room, and bath houses.

## CUISINE

Good, wholesome, tastily prepared food is served. Menus are varied from day to day, and we always aim to serve our patrons with the best the market affords. Fresh

# MURRIETA MINERAL HOT SPRINGS

# Hot Mineral Spring Baths

meats of excellent quality. Pure milk from our own dairy. Fresh butter and ranch eggs. Plentiful variety of fresh vegetables in season.

The dining room is large, light and airy, and is surrounded on all sides with large screened windows.

## TREATMENTS

The waters of the mineral hot springs at Murrieta are conceded by eminent medical authorities to surpass all others in California in healthful properties. Recommended in the treatment of neuritis, rheumatism; and ailments of the stomach, bladder, liver, and kidneys. Many other organic complaints are benefited. Weak eyes are often strengthened.

Hot natural tulle mud and hot mineral water baths, combined with the drinking of the mineral waters, form the basis of our treatments. The sulphur, lime, iron, magnesia, soda, arsenic and other mineral elements found in these waters have for centuries impregnated the tulle mud with their healthful virtues, making our famous mud baths Nature's own poultice, very beneficial in drawing impurities from the system in a natural way.

Doctor of Osteopath in charge. Latest improved and complete equipment for electrotherapeutic and hydrotherapeutic treatments.

Bath houses are well planned, and in charge of experienced masseurs and masseuses. Separate department for ladies. Sanitary, modern plumbing throughout.

A new class "A," concrete bath house, with all modern equipment is now open.

## ENTERTAINMENT

Thoughtful provision has been made for recreation and amusement, and there is always something interesting to do at Murrieta.

Pleasant, shaded spots about the grounds invite quiet afternoons with your favorite books.

**HIKING:** A trip to Cold Water Springs in Murrieta Canyon is always attractive to Nature lovers.

**SADDLE HORSES:** Ride horseback over mountain trails. This healthful sport is more popular now than ever before.

**CROQUET:** Mallets, balls, and court kept in good condition for use of our guests.

**TENNIS:** Cement tennis court. Bring your own racquets.

**SWIMMING:** De luxe outdoor swimming pool, supplied with fresh, filtered mineral water.

**GOLF:** Sporty eighteen-hole miniature golf course.

**HUNTING:** Doves, quail and rabbits, in season.

**BASEBALL GROUNDS.**

**BILLIARD ROOM.**

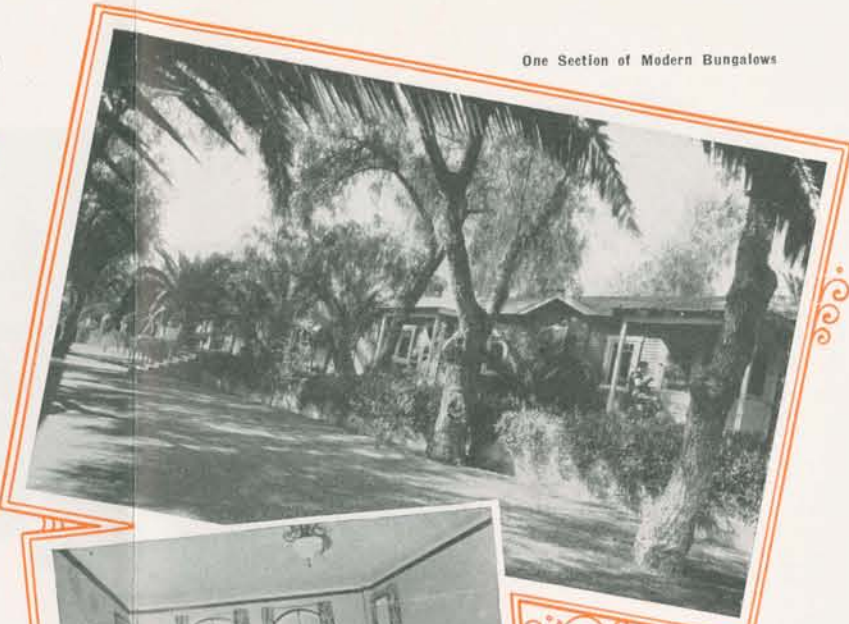

**DANCING:** Informal, three nights a week except Sundays. Delightful music by Murrieta Hot Springs Orchestra.

**CONGENIAL COMPANIONSHIP:** Often you will meet old friends, or make new ones, at Murrieta.

**CHILDREN'S PLAYGROUNDS:** Swings, slides, see-saws, flying rings, and sand pile to keep the kiddies happy.

**BOXING ARENA** and training quarters.

## ANALYSIS OF WATERS

The largest and hottest of these springs is the Siloam. It will boil an egg in ten minutes. Its waters are 170 degrees Fahrenheit. Subjoined is an analysis of the spring.

	Constituents, per 100,000	Grains Per gal.
Sulphate of lime .....	2.14	1.25
Carbonate of lime .....	.69	.40
Carbonate of magnesia .....	Trace	Trace
Iron .....	.52	.30
Soluble Silicate .....	6.00	3.50
Chloride of Sodium .....	60.10	35.50
Carbonate of sodium .....	2.83	1.65
Hydrogen sulphide and carbonic acid.....	5.15	3.00
	<hr/> 77.43	<hr/> 45.10

Murrieta Hot Springs is **not** a sanitarium. Patients in helpless condition positively **must** be accompanied by a competent nurse—same sex as patient preferred.

There are no facilities for the care of persons suffering from tuberculosis or other contagious diseases, and they positively **cannot** be furnished accommodations, or admitted to the grounds or bath houses.

The management reserves the right to exclude any undesirable persons.

Nature's laboratory is where the medicinal properties of our mineral waters are compounded . . . Therefore your nature should readily respond to these treatments.
