THE CUSTOM XTRA GRIP HI-MILER!

ACTION TRACTION

The diagonal, broad, non-directional tread pattern of Custom Xtra Grip Hi-Miler tyres insures "keep-going" traction. Forward or reverse, in toughest weather conditions, through the worst surface conditions - these clog-free tyres with their husky shoulders keep going.

SUPER STRENGTH

These rugged Goodyear tyres are built with exclusive 3T processed cord, triple-tempered to make the tyre body extra strong. That means resistance to fatigue, bruises, cuts...and increased long-life reliability for users of Custom Xtra Grip Hi-Miler tyres.

EXTENDED TREAD WEAR

Goodyear's specially compounded Tracsyn tread rubber is used in the deep tread to resist wear, give economical long-term performance both over the highway and off-the road.

LOW NOISE LEVEL

The precision tread pattern design also resists noise buildup. Even at high speeds or on dry highways, Custom Xtra Grip Hi-Miler tyres run smooth and without excessive noise.

BRETT KENNY
PARRAMATTA

Injuries continue to bedevil this magnificent player. Last year he was criticised by experts who claimed his input wasn't what it should be. He will be out to make the critics eat their words this year. When fully fit, Kenny is the most gifted three-quarter in the world. If he can cast aside the injury problems he is the man to push the Eels back into the competition reckoning and take his place against his old foes, Hanley and Scholfield, when the Tests come round.
