

Revelations

A Revelle College Publication - University of California, San Diego

vol. 8, No. 1 September 1981

WELCOME BACK

All members of Revelle College are invited and urged to take part in the events of Welcome Week. Though many activities focus on acquainting new students with campus resources, all of the events are designed to bring people together.

Welcome Week offers an opportunity for new students and faculty to meet faculty, staff, and continuing students. It's a chance for everyone to get to know each other, to join in the scheduled activities, to go to the beach, or just relax and have fun before classes begin. Check the calendar of events in this newsletter and come!

DAY AT THE BAY: MISSION BAY AQUATIC CENTER

Spend a day at the UCSD water sports facility in Mission Bay, on Saturday, September 19 from 10am to 3pm. Students from all 4 colleges are invited to an orientation at the facility, featuring mini-courses in sailing, windsurfing, canoeing and kayaking, boat displays, a ski show, rowing center tours, and a complete introduction to all the Aquatic Center programs. Take a swim, play some volleyball, or enter the canoe races. Pizza, salad and soda will be sold and free transportation will be provided. If you would like a free ride on the bus, just meet in front of the Bookstore beginning at 9:30 a.m. Busses will leave every half hour until 12 noon. The last bus will return students to campus at 3 pm. Also, if you have a car and would like to give other students a ride, meet in front of the Bookstore anytime between 9:30am and noon. The Aquatic Center is located on Santa Clara Point next to Mission Bay. Maps are available in the Provost Office. This is your opportunity to become acquainted with the variety of sports programs offered at the Center such as sailing, waterskiing, canoeing, kayaking, scuba diving, windsurfing, rowing, and surfing. Bring your swimsuit and just enjoy the water.

COLLEGES TO COMPETE

On Friday of Welcome Week, following the BBQ, all four colleges will compete in the 3rd annual UCSD Un-Olympic Games. Competition will consist of entertaining events like tug-of-war, egg toss, and pie eating contests. Everyone with any amount of skill and/or enthusiasm (including spectators) is needed to push our team towards victory. Revelle students have won the Un-Olympics the last two years. Unfortunately, sometime last year students from one of the competing colleges dashed into the Provost Office and stole the "Golden Shoe" award right off the wall. This year with the help of all of you we will again win the shoe and guard it in a safe place this year. We will begin to organize our teams at the noon BBQ on the Plaza on Friday, September 19th and walk over to the field near the gym together.

CAMPUS-WIDE STUDENT HANDBOOK AVAILABLE

For those of you who did not attend freshmen orientation this summer, the campus-wide student handbook can be picked up in the Revelle Community Center or in the Revelle Provost Office. The handbook gives details of all campus-wide activities and services available to students.

MESSAGE FROM THE PROVOST

To returning students, welcome back! The University has a new Vice Chancellor-Undergraduate Affairs and a new Vice Chancellor-Health Sciences. But there's little change in the glass cage known as the Provost Office at Revelle. We do have a new receptionist. We all had a nice summer. How about you? To our starting students, we are all smiles and open arms. Now, you've heard that Revelle is a tough college. So it is. From time to time, you might feel that the rigid requirements are too much for you. Bear with them and enjoy them. Those who make it through Revelle look back with satisfaction and tremendous pride. You will also. In the meantime, come to the Revelle staff whenever you need help or consultation. A lot of smiling and laughing is done by students and staff over here in the Provost's Office. Something must be going right.

Chia-Wei Woo
Provost and Professor of
Physics

CHANCELLOR'S RECEPTION

Chancellor and Mrs. Richard C. Atkinson and ASUCSD President Jules Bagneris have invited all new Revelle students to a garden reception at University House on Sunday, September 21st from 4:30 P.M. to 6 P.M. University House overlooks the ocean and is within walking distance from the University. Resident students may plan to walk over to the reception in groups with their R.A.'s. We suggest that commuters meet at the Revelle Community Center at 4 PM and walk over with the Interns. Since the grounds will be used for the reception, there will be no parking available, except for disabled students. We suggest that people with cars park on the main campus and take the short walk from there. Please let us know if you plan to attend by signing up during Welcome Week at the Revelle Community Center. Refreshments will be served and the UCSD Jazz Band will entertain. College staff, Vice Chancellors, as well as faculty who teach introductory courses will also be on hand to welcome you.

REVELLE SEMINARS OPEN TO REVELLE STUDENTS

During the Fall Quarter nine faculty members will be offering informal seminars to small groups of 10-12 Revelle students, which focus on their area of special interest or research. Each seminar will meet an average of three times, be held in an informal setting, and will be completed before midterms. Originally conceived for Freshmen, they are now open to continuing students. Revelle seminars are now included in the Schedule of Fall Quarter Classes. You can enroll in them through the regular preregistration and Drop/Add process. No grades will be given, but they will appear on your transcript based solely on attendance at all three sessions. Some spaces are still available, and waiting lists are established for others. Some will begin as early as September 21st, so if you want to get in one, ADD it to your schedule through the regular Drop/Add process during the first week of classes. Please refer to the last page of this newsletter for a complete list and description of each Revelle Seminar.

WEDNESDAY, SEPTEMBER 16	
8am	<u>DORMS OPEN</u>
9am	<u>REVELLE FRESHMAN ORIENTATION</u> Second day of a two-day session.
9-10am Gym Steps	<u>JOG AND SEE UCSD</u> 1, 3, and 5 mile jogs for the beginner to serious runner. PE staff will lead you in different routes each day to familiarize you with the campus. Meet at the gym steps.
9am-1pm HL 1402	<u>OASIS DIAGNOSTIC TESTING</u> An opportunity to test your proficiency in writing and reading in order for you to know your strengths and weaknesses. Also, to learn of academic support services available in these areas during the academic year. This is NOT a placement exam.

Fri 10/16 Rev. Cafe.	<u>REVELLE CASINO NIGHT</u> Our Provost and other faculty and staff will be dealers. Revelle Program Board will furnish refreshments. Black Jack, Craps, Wheel of Fortune and others. Try your luck! Free
THE REVELLE COMMUNITY CENTER	
The Revelle Community Center will be set up as a special Orientation Information Center. Reservations for the trip to the San Diego Zoo and Balboa Park will be available there, as will updated schedules and information on all Welcome Week events. It's the place to come when you need information, help, or just a place to relax and rest your feet.	
<u>COMMUTER LOCKERS</u> Commuter lockers will be available for rent out on the Plaza during the Welcome Week BBQ. If you don't get one then, you can come to the Dean's Office on Monday, September 21, and rent one. The Rental fee is \$3 per year for a small locker and \$6 per year for a large one.	
<u>KEEPING BUSY . . .</u> You'll have time throughout the week to settle into dorms, purchase parking permits, pay fees, buy books, settle business with housing, and landlords, make sure you have your financial aid, establish checking accounts, and maybe even explore a little of the surrounding community.	

REVELLE SEMINARS OPEN TO REVELLE STUDENTS

- A. EXPERIMENTAL FRONTIERS IN GRAVITY RESEARCH.
(Present experimental studies of gravity include a search for gravity waves, measurements of small departures from Newton's law of gravitation constant, G. In addition gravity measurements are important in determining the properties of the earth and in prospecting for oil and other minerals). Prof. Goodkind
Starts Sept. 22, 2 PM Revelle Provost Ofc.
- B. FRUITS, NUTS AND BOLOGNE...ARE WE WHAT WE EAT?
(Exploring the notion of food and health. Some insights into the physics and metaphysics of what we eat. Fad diets, megavitamin therapies, weight loss, and food and culture will be examined). Prof. Saltman.
Starts Sept. 21, 3 PM Revelle Provost Office.
- C. LOVE AS PHILOSOPHY, RELIGION, AND ART.
(A discourse about the understanding of platonic, christian and medieval ideas of love as relevant perspectives for contemporary man's emotionality. Focus of discourse: Eros in Plato's "Symposium"; Agape in the New Testament; Minne (courtly love) in knightly love songs). Prof. Wierchin.
Starts Oct. 1, 7 PM, Revelle Provost Office.
- D. RUNNING AROUND UCSD.
(In this seminar the students will be introduced to the great variety of running trails around UCSD (between 2 and 10 miles). Guest runners from the Provost's Office and from the Departments of Chemistry, History, Biology, and Economics will also participate). Prof. Halkin.
Starts Sept. 23, 7 PM, Revelle Provost Office
- E. THE CHEMISTRY OF NATURAL PRODUCTS.
(The philosophy and practice of chemical research on substances of nature will be presented in general and the contributions from the speaker's research laboratories will be portrayed). Prof. Wenkert.
Starts Sept. 22, 4 PM Revelle Provost Office.

- F. COMPUTER MUSIC.
(The nature and methods of computer music will be discussed both from a technological and from an aesthetic point of view. Examples of computer music and a visit to the UCSD Computer Music Facility will be featured). Prof. Moore.
Starts Sept. 23, 3 PM, Revelle Provost Office
- G. ASTRONOMY.
(An informal talk followed by slides and pictures, and then a tour of the labs in the Center for Astrophysics and Space Sciences. One week a visit to 3rd floor labs for the Space Telescope, stars, galaxies, and quasars. Next, 4th floor labs for X-ray astronomy, and finally, 2nd floor labs for the planets). Prof. Burbidge.
Starts Sept. 21, 3 PM, APM 2A Room 4882.
- H. APPLYING THE LASER: NUCLEAR FUSION TO EARTHQUAKE PREDICTION.
(This seminar concerns several applications of lasers from their use in measurements of strains in the crust of the earth which might lead to earthquakes to their use in producing controlled thermonuclear fusion as an energy source). Prof. Lovberg.
Starts Sept. 21, 3 PM, Revelle Provost Ofc.
- I. HOW THE OCEAN MIXES.
(Life in the ocean requires oxygen and nutrients, which must be mixed from above and below, respectively. Oceanographers have widely different opinions on how the mixing takes place based on different interpretations of the same evidence. It will be argued that the mixing is due to rare patches of turbulence). Prof. Gibson.
Starts Sept. 24, 1 PM, Revelle Provost Ofc.
