Casey spoke w. visions.
earth concept: duality
good + evil
in our mind.

Relationships created -
share what you know of
truth. Start where
you're at.

Karma is personal -
does not involve
others in the sense
that you don't have
to "hardly advanced"
to work out your
karma with one
particular person.

Unconscious -
negative thoughts
forms

super conscious -

master's in lower world

Subconscious mind
can be disciplined
as learning guitar

tend to be more

destructive or relation
to ourselves than as

unmindful
resonant
cultured } symbols - dream

atomic change - every 24
hrs

organic - 7 yrs.

~~about~~ 2 nites to ~~meditation~~

ago & say to myself

I heard this voice

(2 nites ago) telling

me why to ask healing

for. I mean I tuned
 in to that level of
 consciousness & went
 back to the last
 thing that happened
 in I in a meditative
 state.

The signals are
 changing. I now
 feel rain ~~the~~ down

~~the~~ energy in
 response to thought.
 I go also way of

Saw chair in

Sell chair? What
does air mean?
Clean it up?)

Sometimes I think
that what all
these ~~secrets~~^{bits} are
for - for me to send
energy to the
things I see &
clean them up,
via long distance
telepathic waves.

There is no
 distance, no
 space, no time,
~~Of course I clean~~

I thought "I
 Clean up the air
 when I clean up
 the pies, that's

 such a hit of

 Sometimes I

 I thought I

I don't want to write
 anymore. I'm
 still confused
 about signals,
 light dim -
 unless all the
 negative I get
 are really
 negative. In
 which case nothing
 I do is right.

Caught scavate
 today, it no good.
 I'm wasting light
 dim time & energy.
 When I meditate
