Good news for tourism

Industry records 22pc climb in tourists' figure

by JAMES KILA

THE GOOD news for the tourism industry in PNG is that until October 1995, the number of tourists was 14,303, an increase of 22 per cent on 1994, and if one projects the '95 figure on current trends, the total number of tourists in 1995 will be 17,164 as against 11,151 in 1994. This is an increase of 6,013 and an increase of 35 per cent in one year.

This figure were contained in a paper presented by the Tourism Promotion Authority at a seminar in Port Moresby in November 1995.

The highlight of tourism activities during 1994 and 1995 was an upsurge of the Japanese holiday makers. During this period, 870 Japanese visitors spent about K3 million in PNG. Previous survey results indicated that the total foreign exchange receipts from tourism as recorded through tourism expenditure, amounts to more than K45 million per annum. This, he said, proves that even

a marginal increase of 1,000 tourists per annum could bring an additional K5 million to PNG.

The increase of over 6000 tourists in 1995 represented an increase of K30 million to the local economy.

Presently, the tourism industry exists on several complementary levels. Resorts and live aboard boats which accommodate the up scale market, often specialising in meeting specific interests of the tourists. Madang Resort, Walindi Plantation Resort, Jais Aben and Abua Lodge are examples of this level of tourism that tends to cater for the specialised traveller. Existing in a second level of tourism are entrepreneurial guest houses and resorts that cater for the budget-minded tourist.

The resorts and lodges have begun to serve yet another purpose.

Cont on page 2.

PNG has a lot of tourist attractions which includes this tree kangaroo and ...

The Teptep guest house, designed in traditional style and built with traditional materials.

Executive luxury at a very down to earth price.
