One Sentence Descriptions: Entertainment & Leisure

Entertainment/Leisure **Gryphon Software Corporation** **Gryphon Bricks**	Gryphone Bricks is a brick building software program that gives users of all ages the ability to create virtually anything -- real or imagined -- using over 300 brick styles and a palette of 12 colors.
Entertainment/Leisure **Columbus Research, Inc.** **Health Track**	Health Track helps the fitness novice to the experienced athlete achieve fitness goals as the user builds a medical and fitness history complete with reports and graphs.
Entertainment/Leisure **ElectriCiti, Inc.** **PowerGrid Journal**	PowerGrid Journal is a hybrid paper and electronic technical journal integrating the World Wide Web and traditional four-color paper publishing.
Entertainment/Leisure **GreyStone Technology, Inc.** **MagBall Entertainment System**	The MagBall Entertainment System integrates PC-based interactive software with advanced virtual reality hardware to produce competitively priced high-end virtual reality entertainment. The MagBall game provides the user with adrenaline pumping action and competition without violence. The Andromeda virtual reality platform provides realistic interactive virtual reality interface without the need for a head-mounted display or a motion platform.
Entertainment/Leisure **International Space Enterprise** **Planet Surface Explorers**	Product uses cutting-edge NASA-developed technologies to simulate the experience of operating a robotic scientific rover on the surface of the Moon or Mars, using prototype six-wheeled rovers and a PC-based control system.
Entertainment/Leisure **Presto Studios, Inc.** **Buried in Time: The Journeyman Project 2**	"Buried in Time" represents the next stage of interactive entertainment; you become the lead character in an engrossing science fiction epic which combines incredible computer-generated environments of past and future, live actors, and an incredible soundtrack in a time travel mystery as rich and complex as any feature film or novel.
Entertainment/Leisure **SporTell, Inc.** **SporTell**	Sportell Inc. is a software developer with proprietary software for the distribution of sports information, product and advertising to the consumer through it's computer-based interactive multimedia network. The system integrates a variety of services into a "one-stop-shop" setting attracting customers to use the system.

One Sentence Descriptions: Entertainment & Leisure

Entertainment/Leisure **Media Minds** **PictureAlbum**	Software which takes digitized photos and tranforms them into exciting albums for business or consumers
Entertainment/Leisure **Goldwin Golf** **AVDP>System**	The AVDP>System is a finely tuned system of balancing the weight of the major components of the club to create maximum performance with the minimum swing effort.
Entertainment/Leisure **CasinoWorld Holdings, Inc.** **Virtual Casino World**	Online client/server multimedia gaming system that provides a real-time virtual casino on the Internet.
Entertainment/Leisure **Integrated Audio Solutions** **SPA500**	The SPA500 integrates several audio components into one product.
Entertainment/Leisure **Wintriss Engineering Corp.** **OPSIS 5000L Vision System**	The OPSIS 5000L Vision System senses the position of bullets striking the video target of an interactive firing range real time scoring informatin is provided to the shooter.

One Sentence Descriptions: General Business

General Business **American Digital Network** **ADN InterComm**	The focus of American Digital Network's InterComm service is to provide businesses with streamlined corporate communications by integrating new advanced products and technologies which are being developed in the computer, telecommunications, and Internet industries into their existing network infrastructure.
General Business **Aptex Software, Inc.** **VITAL ResouceMiner (TM)**	VITAL ResourceMiner (TM) advances the quality of educational instruction as the first electronic solution to automatically align curriculum, correlate instructional materials and individualize instruction providing faster, more accurate and objective results than previous methods at significantly lower cost.
General Business **ATCOM/INFO** **Internet & E-mail Kiosk**	The ATCOM/INFO kiosk is the first product to provide the business traveler with fast and easy access to E-mail, the World Wide Web and information about local attractions. The ATCOM/INFO hotel room solution provides all of the above services as well as access to word processing, spreadsheet, and presentation software.
General Business **CareMed Corp.** **Med Profile**	Med Profile is a computerized medical information system that will transform a medical office into a more effective, paperless, profitable, organized & optimal one. It is a very comprehensive software system that reduces overhead significantly and increases income ethically.
General Business **ENCAD, Inc.** **NovaJet Pro 50**	Targeted for the graphic arts profession, the NovaJet Pro 50 comes standard with an innovative new motorized media feed and take-up system as well as our factory integrated, refillable ink reservoirs that hold 500 ml of ink for hours of unattended operation.
General Business **Epic Solutions** **HUG'em**	HUG'em applies cllient/server processing techniques and digital imaging techniques to provide an economical and easy to use system to manage visual and textual information for social welfare agencies.
General Business **Green Flash Systems** **Web Garage**	Web Garage is an electronic directory of auto related services. Web Garage is a sophisticated, cost-effective resource for advertising automotive service businesses.

One Sentence Descriptions: General Business

General Business **Guardian Program, Inc.** **Video Record Management System**	Guardian Program will protect millions of children & elderly from abuse, give parents/guardians peace of mind, protect care providers from false accusation and wrongful imprisonment.
General Business **HealthCare Information Systems** **CO/MED**	Co/MED is a pocket size, hand held computer that collects clinical information at the point of care, outputting complete medical records and analyzable data for export to existing systems
General Business **HighText Interactive, Inc.** **Statistics 2.0**	Using multimedia, sound, video animation, interaction, artificial intelligence & real-world examples *Statistics 2.0* presents all the topics normally seen in a one-semister college course.
General Business **Horizons Technology, Inc.** **THE Bagel**	An economical way to distribute marketing informaiton, sales information, products, technical support, and evaluation products all at the same time.
General Business **Lightspan Partnership** **Lightspan Adventures**	Lightspan's innovative reading/language arts and and mathematics software for children in grades K-6 is used in the school and in student homes, creating a School-Home connection which fosters parent involvement, communication, and successful application of skills and knowledge.
General Business **REMedia** **Animals in Danger**	Provides an innovative way for children and adults to learn how animals and their habitats are threatened and how they can be saved.
General Business **SCS Corp.** **I-2 System**	Based on a proprietary communication protocol, patented memory technology and revolutionary manufacturing process, SCS' Interactive Identification **(I-2) System** provides unprecedented levels of security, accuracy, and efficiency for automated indentification applications by allowing the simultaneous programming and scanning of flexible, durable identification labels that hold 1K of read/write memory and are small enough to fit beneath a garment seam.

One Sentence Descriptions: General Business

General Business

WordSmart's Verbal Impact is the most in depth and comprehensive learning system for vocabulary ever presented in CD-ROM format.

Smartek Educational Technology, Inc.

Verbal Impact

General Business

At Sputnik Translation Services we perform high quality scientific and technical translations by means of using the latest innovative technology and the development of our own computer aided tools.

Sputnik Translation Services

General Business

ScoreCarding is a prescription for creating action contracts, thus, changing the way people interact and/or process to greater leverage or influence outcomes.

Strategy Resource Group

ScoreCarding

One Sentence Descriptions: High-Tech Electronics

High-Tech Electronics **AEM, Inc.** **AEM High Rel-Fuse**	Micro fuses for satelites.
High-Tech Electronics **ANDATACO** **Enterprise Storage Packaging**	Enterprise Storage Packaging (ESP) is the industry's first intelligent enclosure that pro-actively alerts system adminsitrators of possible failures before they occur with visual, audible, e-mail and web-based alarms; by fixing a problem before it occurs, administrators minimize system downtime and thereby increase data accessibility and user productivity.
High-Tech Electronics **Applied Digital Access** **Remote Module**	ADA's Remote Module is an intelligent network interface unit installed at the network boundary between a local telephone company and end-users that performs autonomous, non-intrusive and continuous circuit testing and fault localization and transmits this informatin in real-time to ADA's T3AS for processing to Sectionalizer expert system software.
High-Tech Electronics **Comstream** VSAT*Plus II*(TM)	The VSAT*Plus II* is an innovative satellite networking product that enables people in the developing world with no existing telephone capability to gain telephone access to the rest of the world thereby accessing medical aid, educational programs and life support services.
High-Tech Electronics **Cymer Laser Technologies** **ELS & EX 5000**	The 5000 series lasers are KrF excimer lasers for microlithography, and ensure high resolution and accuracy, increased wafer throughout and great process yield for semiconductor manufacturers while meeting all industry and regional safety and design guidelines for semiconductor process equipment.
High-Tech Electronics **Energy Compression Research** **Pulsed Microlaser**	ECR's pulsed microlaser is a diode pumped, solid state Q-switched Nd:YVO4 microlaser capable of delivering precise pulses of unsurpassed speed and power that is being adapted for numerous instruments, biomedical, defense and industrial applications.
High-Tech Electronics **ERISS Corporation** **Workforce Information Network (WIN)**	The WIN is a revolutionary online system bringing together workforce development agencies, job seekers and employers to a single, focused area for labor information and exchange.

One Sentence Descriptions: High-Tech Electronics

High-Tech Electronics **Hughes Network Systems, Inc.** **On-Star**	The OnStar system combines high vehicle electronics integration, GPS location technology, digital memo pad and cellular phone voice and data transmission to provide the driver with the following service offering: automatic airbag reporting, theft detection and tracking, route guidance, door lock and unlock, vehicle locate digital memo recorder and a handsfree voice activated cellular telephone.
High-Tech Electronics **I-BUS Systems** **IFTA (Integrated Fault Tolerant Architecture)**	The IFTA (Integrated Fault Tolerant Architecture) provides scalable fault tolerance in a conventional 19" rack mounted, passive backplane, PC-compatible chassis.
High-Tech Electronics **LAND-5 Corporation** **DS200 DIsk Array Subsystem**	The DS200 is designed for high reliability, nerve center, data storage and management. The disk array is a 19" rack mount unit that provides 45GB (billion bytes) of storage in 10-1/2" of space. The DS200 can continue to run even in the event of a failure of a hard drive, power supply and/or fan. The Disk array is rated Best of RAID for 1996 by Network Computing Magazine and was tested against 22 different manufacturers with 26 points tested.
High-Tech Electronics **Overland Data, Inc.** **LibraryXpress(TM) LXB**	LibraryXpress(TM), the automated DLT(TM) tape library system from Overland Data, has established new standards for scaleable storage. It is a truly scaleable library that eliminates the physical limitations of conventional library designs. The LibraryXpress LXB generates an automated storage capacity of up to 400 GB with a data transfer rate of more than 10 GB per hour. Users simply snap on additional modules when required to create a single library of up to multiple terabytes capacity.
High-Tech Electronics **PCSI** **PAL Phone**	The PAL phone is a cellular telephone with wireless data transmission and two-way paging/messaging capabilities integrated into a single handset. With the PAL you can make and receive telephone calls, send and receive e-mail, access the Internet and Intranets, check stock quotes, airline schedules, weather, movie listings and more.
High-Tech Electronics **Proxima Corporation** **Desktop Projector(TM) 9100**	The Desktop Projector(TM) 9100 is the most compact high-resolution LCD projector and is compatible with all popular workstations and PCs, capable of displaying images from 640x490 to 1280x1024.
High-Tech Electronics **Proxima Corporation** **MediaExpress(TM) System**	The MediaExpress(TM) electronic presentation system enables users to project files that are created in any application, on any computer system, simply by inserting a disk into the projector -- no computer or cables are needed

One Sentence Descriptions: High-Tech Electronics

High-Tech Electronics

SAIC

HIPROTECT II

Covert monitoring system for remote archeological sites. Integration of COTS components to produce cost effective system for detection, display, and recording of intrusion. Wide variety of sensor and telemetry options allows custom configuration for individual sites and provides high level of security at modest cost.

High-Tech Electronics

Space Electronics

Latchup Protection Technology

Space Electronics Inc. Latchup Protection Technology Microelectronics Family allows space programs to use state of art commercial devices by using an innovative protection and packaging technique

---

High-Tech Electronics

Space Electronics

RAD-COAT(TM)

RAD-COT(TM) is an innovative breakthrough in microelectronics packaging for commercial space, utilizing a high-density, insulating conformal coating material developed by Space Electronics Inc.

One Sentence Descriptions: Life Sciences

Life Sciences

CardioDynamics

BioZ System

The BioZ System is a noninvasive hemodynamic monitor that operates under the principal of Thoracic Electrical Bioimpedance (TEB). It only requires the application of 4 dual electrodes to operate. Patients' hemodynamic status is continuously updated and data displayed on user friendly screens.

Life Sciences

designDESIGN, Inc./Quantum Design

MPMS XL

The MPMS XL is a magnetic property measurement system whose upgraded technology and intuitive housing design integrate into a product offering advanced magnetrometry research capabilities with an expanded international appeal.

Life Sciences

Gen-Probe

Amplified MTD

Gen-Probe's Amplified MTD is the first test which has been approved by the FDA for the direct detection of tuberculosis on sputum specimen from previously untreated and smear positive patients. While conventional methods of testing may take up to 8 weeks, this new test takes only 4 to 5 hours to yield a result, meeting the need for a quick and accurate test for tuberculosis.

Life Sciences

Invitrogen Corporation

FliTrx Peptide Library

Bacterial flagellin and thioredoxin are used to display random dodecamer peptides on the surface of E. coli to screen for potential ligands using a simple panning procedure.

Life Sciences

IRORI

AccuTag-100 Combinatorial Chemistry System

The AccuTag-100 Combinatorial Chemistry System provides a major advance in the new drug discovery process.

Life Sciences

Kinetikos Medical Inc. (KMI)

Universal Total Wrist

The Universal Total Wrist Implant from KMI preserves wrist motion and demonstrates consistent pain reduction which allows the patient to perform everyday tasks arthritis may have prevented them from doing previously.

Life Sciences

Laser Diagnostic Technologies, Inc.

AngioScan

The AngioScan is a confocal scanning laser ophthalmoscope designed specifically to obtain, without pupil dilation, digital ICG angiograms of the retina easier, faser, and safer than with conventional instruments.

One Sentence Descriptions: Life Sciences

Life Sciences **Medical Device Technologies** **Personal Alarm System**	The Personal Alarm System provides health care workers an inexpensive way to monitor their sterile barriers (specifically their gloves) for breeches.
Life Sciences **Mycogen Corporation** **NatureGard (TM) Insect Resistant Seed Corn**	Provides effective, economical, worker-safe control of European corn borer, a pest that has been difficult to control with chemical pesticides and causes annual damage to the U.S. corn crop estimated at more that $1billion.
Life Sciences **Novatec Laser Systems, Inc.** **LightBlade(TM)2**	The laser is the most technologically advanced refractive laser system that performs corneal sculpting under clinical trial, with a small area beam and with the feature of an active eye movement tracking, eliminating the need for excimer gas, which results in lower operating costs.
Life Sciences **OrthoRx, Inc.** **OnTrack**	The OnTrack system is the most effective, affordable and patient compliant non-surgical method for resolving patellofemoral dysfunction.
Life Sciences **QUIDEL Corporation** **QuickVue One-Step H.Pylori Test**	QuickVue One-Step *H. Pylori* Test from QUIDEL Corporation is a rapid immunoassay for the detection of antibodies to *Helicobacter pylori* is the first one-step, whole blood procedure that provides the physician test results within minutes.
Life Sciences **Recombinant BioCatalysis, Inc.** **CloneZyme Libraries**	These enzyme libraries allow researchers to access enzymes not previously discovered and the ability to quickly and cost-effectively determine if the enzymes contain activities which are useful for their specific process.
Life Sciences **Sutter Corporation** **WaveFlex C-F-T**	The unique design of the WaveFlex C-F-T finger actuators allows each finger to move independently, mimicking the way a therapist would move a patient's finger, into a true composite fist.

One Sentence Descriptions: Life Sciences

Life Sciences

VIA Medical Corp.

Blood Chemistry Monitor for Glucose

The VIA System is an automatic, patient attached, blood chemistry monitoring system utilized in a variety of hospital bedside settings, analyzing the most commonly requested chemistries. This unique closed system eliminates labor, blood handing and blood loss, while delivering results in just over one minute.

One Sentence Descriptions: Software

Software	
ACUCOBOL, Inc.	ACUCOBOL(R)-GT, the only programming language built with built-in graphical syntax, enables programmers to implement and deliver full-featured graphical user interfaces for their COBOL applications.
ACUCOBOL(R)-GT	

Software	
Applied Digital Access	Sectionalizer incorporate ADA's intelligent systems, sensors, and software to provide an expert system for telephone network management which automatically identifies problems in a telephone company's network and closes trouble reports on high speed data circuits that are caused by problems outside of the network resulting in lower network maintenance costs.
Sectionalizer	

Software	
Aptex Software, Inc.	Convectis is an innovative knowledge mining application which builds and strengthens the corporate knowledge base by intelligently and automatically categorizing and summarizing real time, high volume documents, thus freeing analysts from the labor intensive, time consuming and expensive manual task.
Convectis	

Software	
Cardiff Software	Teleform Elite reduces corporate dependence on manual rekeying of form data; it is the first program to read handprint, typed, check mark and barcode information from faxed, scanned or electronic forms.
Teleform Elite	

Software	
EnerAction, Inc.	FenSpec(TM) takes difficult to obtain technical building product data in static form in numerous formats and transforms it into significantly more useful dynamic information.
FenSpec(TM)	

Software	
ExperSoft Corp.	CORBAplus is a comprehensive implementation of the Object Management Group's (OMG) Common Object Request Broker Architecture (CORBA) 2.0 specification. CORBAplus is the first development system to bring two critical components to the CORBA environment: an industry-standard bridge between CORBA and Microsoft COM, and an event-driven distributed object model. The product also offers support for multiple languages (C++, Smalltalk and Visual Basic), a multi-threaded environment, and a suite of developer-oriented tools.
PowerBroker CORBAplus	

Software	
FutureWave Software, Inc.	FutureSplash Animator makes graphics and animations on the Web much faster than ever before. It allows the Web page designer and developer to create interactive interfaces, animated corporate or advertising banners, technical illustrations, educational graphics and entertainment visuals. Then integrate these attention-getting animations into HTML Web pages.
FutureSplash Animator	

One Sentence Descriptions: Software

Software **GreyStone Technology, Inc.** **RAGE-Real-Time Advanced Graphics Environment**	Advanced visualization and real-time simulation technologies come together to make RAGE(TM), a revolutionary, cost-effective training and command decision-making product that creates a realistic, 3-dimensional, interactive, virtual environment by representing live and simulated entities in a battlespace and by providing the capability for a commander/operator to move around freely in the environment.
Software **Horizons Technology, Inc.** **Power!Video(R) Pro**	Power!Video is the highest quality, software only video compression and playback product available for both the PC and Macintosh.
Software **Intervu Inc.** **Intervu MPEG Player**	InterVU MPEG Player is the firt MPEG Plug-in for Netscape (both Windows and MAC), the first streaming player for MPEG, the first player to offer first frame preview, the only streaming MPEG player that can download the originally recorded file and play it back in full quality from the hard drive, and it can stream both video and audio from an MPEG file.
Software **MicroVision Development** **WebExpress for Windows**	WebExpress opens the door for virtually anyone to create pages for the World Wide Web by providing visual page design with the simplicity of a word processor, results which look just as they will in a web browser, and eliminating the need for an understanding of the underpinnings of HTML coding.
Software **Molecular Simulations Inc.** **WebLab Viewer**	WebLab View from MSI is a new software tool for viewing and understanding chemical information, and sharing information across the Internet.
Software **Morris-Vance & Associates/Cykic Software** **HYPE-IT**	The HYPE-IT Internet/Intranet server is a fully integrated system that combines standard HTTP, *FTP, Telnet, and SMTP server functions with a complete website development environment and web administration system. Run on both Windows NT & POS platforms, HYPE-IT includes a powerful relational databse to allow developers to quickly and effectively produce any database related client/server applications using the Internet.
Software **MultiSource** **DataCom 2000**	DataCom 2000 is the only integrated data, communication, time management, and image processing software program

One Sentence Descriptions: Software

Software **NeoCor Tech LLC** **Neocor Japanese Translation Suite**	Neocor software is the only complete Japanese solution for business users outside of Japan who need to communicate in Japanese including: running on U.S. Windows, fonts, dictionaries, bi-directional translation, Japanese word processing, etc.
Software **QUALCOMM** **Eudora Pro v3.0 MAC**	Eudora Pro v3.0 improves efficiency and productivity in sending, receiving, composing and managing email over previous version of Eudora and competing email solutions in today's market.
Software **Systran Translation Systems** **SYSTRAN PROfessional for Windows**	SYSTRAN PROfessional for Windows, which represents a new era in natural language machine translation, provides the most language pairs, the highest translation accuracy (as determined by the Department's of Defense's Advanced Research Project Agency) and the largest dictionary coverage (including domain-specific topical glossaries for 20 different industries) of any machine translation software.l
Software **TriTeal Corp.** **TED - TriTeal Enterprise Desktop**	TED is the only product that unifies the client/server computer market under a single desktop environment, delivering both legacy and newly developed applications to users regardless of their underlying computer platform.
Software **Vista Information Solutions** **Starview**	Starview combines Microsoft Windows ease-of-use with Vista's risk management report system to give customers complete control of the most comprehensive, accurate, and current environmental hazard database.
Software **Wright Strategies** **FormLogic(R) 2.0**	FormLogic 2.0 is a groundbreaking, yet cost-effective software solution for the rapid development, deployment and management of mobile computing applications.
