A Precious Past, A Golden Future

The heady days of the gold-rush, the excitement of precious mineral discoveries, the euphoria of striking oil for the first time.

As Papua New Guinea's grown and developed, we at Shell have been proud to play our part. As you might expect from

the country's oldest and best-known fuel supplier, we at Shell are proud to supply the oils and lubricants that power the huge machines of the Mining Industry ... not to mention the trucks, ships and planes that carry PNG's precious mineral wealth to the waiting world.

Building on the past helps us look ahead. At Shell, we're proud that our investments and development programmes will also in a small way, help Papua New Guinea secure the golden future it so richly deserves.
