

## **Milner B. Schaefer elected chairman of panel**

**July 7, 1964**

Milner B. Schaefer, Director of the University of California's Institute of Marine Resources, San Diego, has been elected Chairman of an Expert Panel for the Facilitation of Tuna Research of the UN's Food and Agriculture Organization.

The panel recently held its first meeting in Rome. There are 11 tuna research scientists, representing, in addition to the United States, Japan, India, France, Spain, Australia, Nigeria, Portugal, and Norway.

The formation of the panel is an outgrowth of the World Scientific Meeting on Biology of Tunas, held in La Jolla in 1962.
