

Ryan to give seminar on January 26, "The Molecular Basis of Mutation"

January 18, 1962

Dr. Francis J. Ryan, one of the nation's leading authorities on genetics, will give a seminar on "The Molecular Basis of Mutation" at the University of California, San Diego, at 4:00 p.m. Friday, January 26.

Chairman of the Department of Zoology at Columbia University, New York, Dr. Ryan is the author of a book, "Cell Herekity." He is an authority on the molecular nature of mutation of the genetic information. He will be addressing a Biology Seminar in Room 2164, Sverdrup Hall.
