

ELECTION DAY IS NOV. 3, 1987, TUESDAY
DO NOT VOTE FOR EUNICE FLEMING & FRANK COOLEY

Eunice Fleming and Frank Cooley belong to the Big Farmers- Big Cattlemen complex which has been doing great harm to the people of Imperial County and particularly to the Brawley Union High School.

Now Frank Cooley is the manager of a cotton gin. The owners of the cotton gin belong to this complex. I did not bother to investigate who the owners are. But they will fire Frank Cooley if he opens his mouth and tells the truth. So he and his family will starve for he is just like the rest of us, who will suffer reprisals if we speak the truth.

But Eunice Fleming is another matter. She belongs to the family which received for many years \$115,000 from the Federal Government for not growing cotton. From the official government records, Jack Bros. & McBurney and Fleming & Jack received this yearly \$115,000. So you can see that Eunice Fleming profits from this big scale mooching.

Now Eunice Fleming and her family has a lot of farmland. This farmland escapes about 70% of its property taxes which the Brawley Union High School should get. Now I want the Brawley Union High School to take all its Junior and Senior students down to the Assessor's office in El Centro and look up the Fleming farmland. But Eunice Fleming will not permit that. So she must not be elected. At the same time the pupils can look up the Bruce Church farmland (before the curve on Hiway 86 near the Pioneers Hospital) which is selling for \$10,000 per acre yet is assessed at \$1,200 an acre. This is an absentee farmland owner who escapes 88% of the taxes that should go to the Brawley Union High School.

Only 10% of the farmland is owned by the residents like the Fleming family while the absentee landowners from all over the U.S. and foreign countries, own 90%. Fleming and the other millionaires, act as front men to protect these absentees so the people will not learn about the taxation swindle applying to all county activities and especially to the Brawley Union High School.

Then I want the same students taken about 15 miles East of Holtville on Hiway 8 (exit Brock's Experimental Farm) to see the East Mesa of 225,000 acres. This is supposed to be sold to little people at 160 acres for \$320. Those students who want to become farmers, can have a chance to get land to farm. But Eunice Fleming and the rest of the Big Farmers- Big Cattlemen complex, do not want the little people to get farmland and compete with the complex. They prefer that the Brawley High School teach the students about the Future Farmers of America which is a bunch of theory for the students need land to farm after they get out of school.

Now agriculture is the biggest and main industry of Imperial County. This complex of mainly absentee farmowners have set up a wage scale of 60 cents per hour paid to illegal Mexicans whereas the legal minimum wage is \$3.35 per hour. Now these Juniors and Seniors who want to become farmers, if the prevailing wage was \$3.35 per hour, would work at that wage and get the practical training of work whereas it is all theory in school. But Eunice Fleming and the complex do not want to pay \$3.35 per hour. That is another reason why Fleming must not be elected.

I have plenty more reasons but lack of space stops me. I have spoken the truth and there will be more reprisals against me. But you voters vote in secret and there will be no reprisals against you. DO NOT VOTE FOR EUNICE FLEMING AND FRANK COOLEY.

Ben Yellen, M.D.
