In all my discussions of
this issue with the very
talented I had not previously

found this that the very
many suggest I should this policy

~~that morally unacceptable~~

scientist may have to plead

guilty is that their belief in

Letter to N.Y. Times.

Propaganda has been defined
as the gentle art ^{that seeks to} of ~~unpersuading~~ ^{unpersuade} our
friends ~~without necessity~~ ^{and} our
enemies, ^{but will not} ~~both~~ ^{both} Russia and we
have been practicing this art in the
past 10 years with great success. ~~But~~
~~they have~~ ^{but} ~~not~~ ^{are} ~~not~~ ^{not}
~~the~~ ^{the} ~~best~~ ^{best} ~~of~~ ^{of} ~~the~~ ^{the} ~~world~~ ^{world}
a problem to the world and that
both Russia and we are in trouble. —
When in trouble the best recipe is
"The truth, the whole truth and
nothing but the truth." What is
the truth?

The cold war ~~which~~ ^{which} ~~is~~ ^{is} ~~the~~ ^{the} ~~most~~ ^{most} ~~serious~~ ^{serious}
way back before we come close
to the stalemate between the
strategic striking forces of Russia
and America and it is still with
us. It reminds us to the fact
that when a strategic stale-
mate both Russia and we have
the same ~~what~~ ^{an} ~~or~~ ^{overriding}
what interests ~~and~~ ^{to} ~~to~~ ^{preserve} /
with respect ~~to~~ ^{to} ~~what~~ ^{we} ~~have~~ ^{have}
to that part of the world which we
control, the status quo. There may
be other. Looking at the world as
a whole there are territorial
changes that we would like to
see take place before we
could be happy about recording the
present map and there are other such
changes which Russia would like
to see take place. But neither we nor

Russia would be willing to
pay the price in economic sacrifices
- ~~let alone in loss of life that~~
~~the~~ that it would take
to bring about these changes
through armed intervention.

I am disregarding here
the additional element - the
~~danger of an all out war~~
loss of life that even a localized
~~war~~ or armed conflict would
entail and the danger of an
all out war. - America
and Russia are not rivals
in trade. There is no compe-
tion ~~for~~ between them
for any ~~essential~~ ~~importa-~~
~~table~~ ~~or~~ really essential
raw material. For the time
being both Russia and America
have more of that than they can
use and by the time a deal gets
score we can have a routine
trade from coal at ~~or~~ a
slight increase of cost.
~~What then~~ these being the facts
of life what are we ~~not~~ ^{going} to do.

Stop bank tests, freeze
the stock piles of bombs and
then will the world of bombs ^{be}?
I do not think so. This is ^{what} ~~the~~ ^{is} ~~the~~ ^{is}
proposes ~~and~~ ~~this~~ ~~is~~ ~~what~~ ~~we~~
~~should~~ ~~do~~ ~~take~~ ~~from~~ ~~old~~ ~~text.~~
