## SAN DIEGO

ONE might as well make a trip to the Holy Land without visiting Jerusalem as to make a western trip without visiting the world-famous city of San Diego, California, that beautiful city by the sea, where one will find—

The most ideal climate in the world.

Summer twelve months of the year and never a day hot enough to be uncomfortable.

An average of nine rainy days in the entire year and 356 fair ones.

(U. S. Weather Report for 25 years)

By nature the sportsman's Paradise.

A magnificent beach for surf bathing, sailing, rowing, fishing, hunting, golf, tennis, riding, driving, aeronautics, etc., under the most favorable conditions.

The epicurean can feast from morn till night and change his bill of fare each day.

Strawberries and small fruits every day of the year.

## U. S. GRANT HOTEL

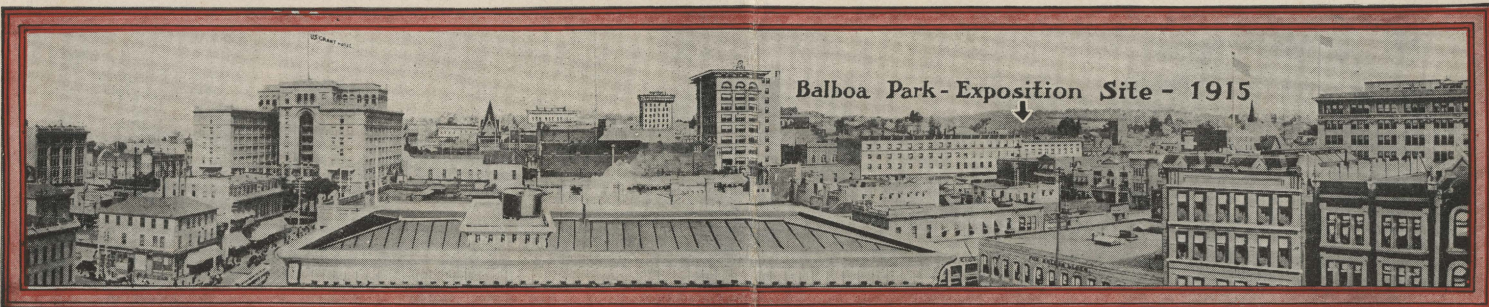

THE pride of all Southern California. This masterpiece of modern hotel architecture, absolutely fire-proof and as solid as the Rock of Gibraltar, is a hotel which will appeal to the most æsthetic taste, with every appurtenance as nearly perfect as human skill could make.

It is impossible to mention all of the special features of this hostelry, much less to dwell at any length on their many charms, so we only mention a few, and ask that you come and see for yourself:

Large Assembly Rooms, Spacious Corridors, Dining Salon, Rathskeller, Private Dining-Rooms, Cafe, Grill-Room, more than four hundred Bed-rooms, Bridal Chambers, most elegant Ball Room, Swimming Pool, Palm Room, Pergola, etc.

### A Word Concerning the Management

That the management is in the hands of Mr. James H. Holmes, under whose management less promising hostelries have blossomed into brilliant success, is sufficient guarantee of the splendid future of this magnificent hotel.
