NORMAL

POSITION-NORMAL IEC TYPE I

(45)

- **Clear, expansive high-quality sound** ... UR
Adopts new high-performance, Pure Crystal magnetic particles. Sensitivity has been improved by 0.5 dB in medium and high frequency ranges and MOL is increased by 0.5 dB in the high frequency range. Compared with our normal-position reference tape.
- **Easy-to-use, high-accuracy cassette**
Employs see-through, fixed oval-window cassette shell that permits at-a-glance checking of tape running status. Outstanding tape travel performance is also obtained.

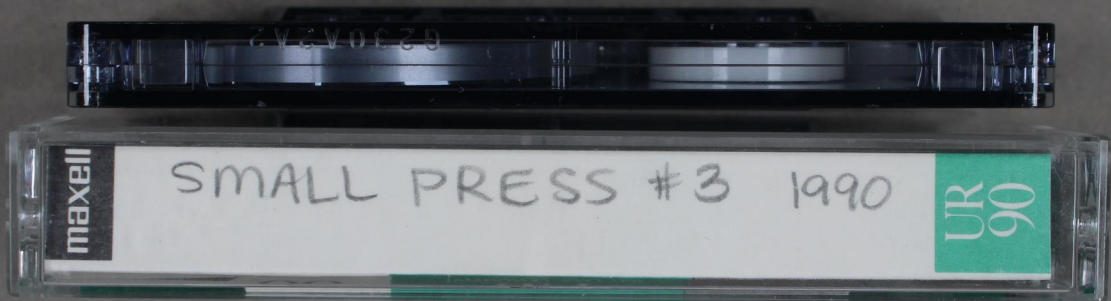

MAXELL FULL WARRANTY We warrant to the user of this product that it is free from workmanship. If the product proves unsatisfactory, it will be replaced if returned to America, 1400 Parker Road, Conyers, Georgia 30207. *Manufacturer, distributor and retailer are not responsible for consequential commercial damages.*
