James H. Holmes

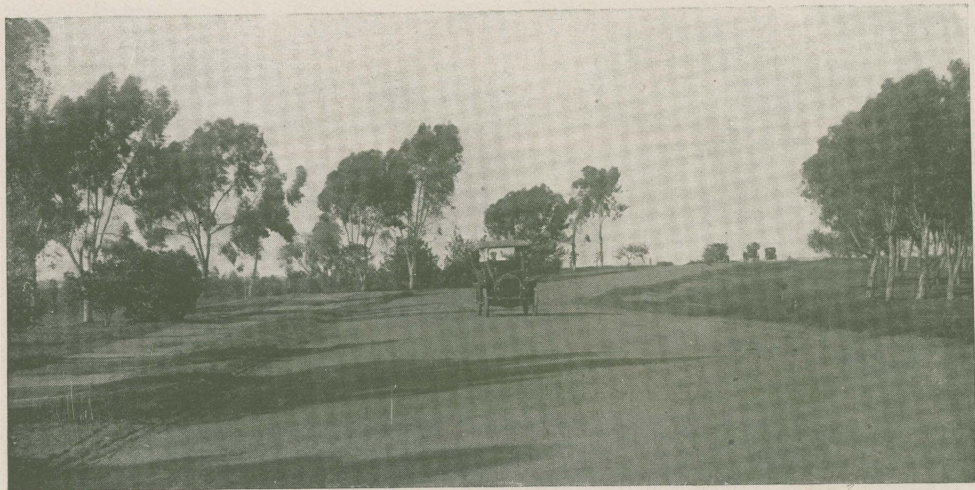

In the mammoth City Park looking toward the Ocean, Bay, Point Loma and the U. S. Grant Hotel

OUT-DOOR sports and attractions are the things most sought for today. The purpose of this brochure is to give the sojourner just a glimpse of the surroundings of this hotel. The hotel itself—of concrete and steel, looming up like a giant in the very center of the city, overlooking the bay, ocean and mountains; with its already famous Bivouac Grill, Roof Gardens and Pergola with palms and trailing vines—is a work of modern science and art. Not one detail has been overlooked that would add health, comfort, protection and enjoyment to its guest. A park of tall stately palms, lawn and wonderful electric fountain lies directly in front. All manner of water sports, including excellent fishing; splendid motoring over well-built boulevards; hunting, golfing, etc., are in close proximity to the hotel; and where in the wide world is there a 1400 acre park, splendid in both nature's and man's handiwork, in the heart of a city? You have it here, at the very doors of this hotel.

Rustic steps leading down to a secluded nook surrounding the Pebble Spring in the City Park

The highest point in the City Park from which the magnificent view over the entire city, country and ocean is unobstructed

One of the many splendidly built automobile drives through the back country

The Hunting Grounds reached in a few minutes by automobile from the U. S. Grant Hotel

The Country Club House and a bit of the Golf Grounds joining the City Park within short walking distance of the hotel

The beautiful boulevard leading from the U. S. Grant Hotel to the Country Club, through the City Park
